

Summary of selected differences between the FIDE Laws of Chess and the US Chess *Official Rules of Chess*, 6th edition

Last updated: November 13, 2017 by [Mike Hoffseur](#), US Chess National Tournament Director and FIDE Arbiter. This document was compiled from multiple sources, including similar documents prepared by NTD and IA Ken Ballou.

Here is a brief summary of differences between the FIDE Laws of Chess and the US Chess Official Rules of Chess. This is not meant to be a comprehensive list but rather a "top ten" list of important differences (more likely to arise in practice) and more obscure differences.

1. Chess Terms

- a. **Referee:** The term "Tournament Director" used in US Chess is called the "Arbiter" in FIDE.
- b. **Time Control and how Games are Rated:** Both the FIDE Laws of Chess and the US Chess Official Rules of Chess have different rules based on the time control for the game. In both systems the "total time" for each player is based on the base time control, plus time added due to the use of time delay or time increment **over the course of a 60-move game**. For example, in a time control of G/60, d/5, the "total time" for each player is 60 minutes, plus 300 seconds (e.g. 5 minutes, determined by 60 moves times 5 seconds of delay per move) ... for a total of 65 minutes. Similarly, for a Blitz game with a time control of G/5, d/2, the total game time is 7 minutes (e.g. 5 minutes plus 60x2 seconds).

Time Controls in FIDE and US Chess – Total Time is based on a 60-move game	
FIDE – Total time for each player	US Chess – Total time for each player
"Standard" Game: 60 minutes or more	"Regular" Game: 30 minutes or more
"Rapid Play" Game: more than 10 minutes, but less than 60 minutes	"Quick" Game: more than 10 minutes, but less than 30 minutes
Blitz Game: 10 minutes or less	Blitz Game: 5 or more minutes, up to 10 minutes

2. **Rules Differences:** The following table calls attention to selected and significant differences between US Chess regular rules and FIDE standard rules.

	Topic	What FIDE says ...	What US Chess says ...
0	<i>Pairings against Siblings, Relatives, Friends or Club-mates</i>	FIDE <u>does not allow players to request that they not be paired</u> against each other.	US Chess Rule 28T allows players to request that they not be paired against each other.
1	<i>Chess Notation Recording your Moves</i>	You must <u>always</u> write-down your move after you make it. <u>Electronic Notation devices are not allowed</u> unless they are specified in pre-tournament announcements. Scoresheets shall be visible to the Arbiters at all times.	You write-down your move after you make it, especially when using a US Chess-approved electronic notation device. <u>Players using paper scoresheets may write-down their move first</u> unless the rules for the event specify otherwise. Scoresheets must be visible to the TDs at all times.
2	<i>Recording your Move When can you stop taking chess notation??</i>	<u>You must continue recording moves if you have at least 5 minutes</u> on your clock, <u>even if your opponent has less than 5 minutes</u> remaining. If the time control has an increment of <u>at least 30 seconds per move</u> , then both players are required to <u>record their moves at all times</u> .	<u>Both players may stop recording moves</u> for the rest of the time control <u>if either player has less than 5 minutes remaining</u> .
3	<i>Calling the Flag down</i>	The Arbiter can call fallen flags without a claim by the player or the opponent.	Only the players may call a fallen flag.

The Laws of Chess World Chess Federation, 1944

On Law and Justice Honoré Daumier, 1959

On Law and Legal Reasoning Fernando Atria, 2002-08-07 This book is about legal theory and legal reasoning In particular it seeks to examine the relations that obtain between law and a theory of law and legal reasoning and a theory of legal reasoning Two features of law and legal reasoning are treated as being of particular importance in this regard law is institutional and legal reasoning is formal These two features are so closely connected that it is reasonable to believe that in fact they are simply two ways of looking at the same issue This becomes clearer as the focus of the book shifts from the institutional nature of law to the consequences of this for legal reasoning and which is the principal focus of the book The author received the European Academy of Legal Theory award in 2000 for the doctoral dissertation on which this work was based

Law as Institution Massimo La Torre, 2010-08-13 This book which is the result of several years of research discussion writing and re writing consists of three parts and eight chapters The first part is given by the two first chapters introducing the issue of validity and facticity in law The second part Chapters 3 4 and 5 is the core of this study and tries to present a theory based on a specific view about language and social practice The third part deal with the issue of value judgments and views about morality and consists of Chapters 6 and 7 Chapter 8 should naturally serve as epilogue In the first chapter a discussion is started about the relationship between law and power seen as a presupposition for an assessment of the nature of law As a matter of fact as has been remarked general theories of law struggle to do justice to the 1 multiple dualities of the law Indeed law has a dual nature it is a fact but it also a norm a sort of ideal entity Law is sanction but it is also discourse It is effectivity or facticity but it is also a vehicle of principles among which the central one is justice But this duality is not only a phenomenological or a matter of justification and implementation as two separate moments

Chess Life, 1995 Law and Democracy in Neil MacCormick's Legal and Political Theory Agustín José Menéndez, John Erik Fossum, 2011-03-29. This volume offers a collection of articles by leading legal and political theorists. Originally intended as a celebration of MacCormick's work on the occasion of the completion of the four-volume series on Law, State, and Practical Reason, it has turned into a homage and salute after MacCormick's passing. Cast in MacCormick's reflexive spirit, the book presents a critical reconstruction of the Scottish philosopher's work with the aim of revealing the connections between law and democracy in his writings and furthering his insights in each specific field. Neil MacCormick made outstanding contributions to the understanding of law and democracy under conditions of pluralism. His institutional theory of law has elucidated the close connection between the normative character of law as a means of social integration and legal social practices. This has produced a synthesis of the key insights of the legal and political theories of Kelsen, Hart, Alexy, and Dworkin and has broken new ground by undermining the monolithic and nation-state-centered character of standard legal theories.
