The Southern Mind Under Union Rule Judkin Browning, 2009-09-27 James Rumley was the 48 year old well educated Clerk of the Carteret County Court when the Union forces arrived in his hometown of Beaufort on March 25 1862 He began a diary at the moment of Union occupation and continued to keep the diary until August 1865 when civil authority was returned to local white residents *Official Records of the Union and Confederate Navies in the War of the Rebellion* United States. Naval War Records Office, 1900 *United States Armed Forces Medical Journal*, 1958 **American Discord** Lesley J. Gordon, Megan L. Bever, Laura Mammina, 2020-05-20 A panoramic collection of essays written by both established and emerging scholars American Discord examines critical aspects of the Civil War era including rhetoric and nationalism politics and violence gender race and religion Beginning with an overview of the political culture of the 1860s the collection reveals that most Americans entered the decade opposed to political compromise Essays from Megan L Bever Glenn David Brasher Lawrence A Kreiser Jr and Christian McWhirter discuss the rancorous political climate of the day and the sense of racial superiority woven into the political fabric of the era Shifting focus to the actual war Rachel K Deale Lindsay Rae Privette Adam H Petty and A Wilson Greene contribute essays on internal conflict lack of compromise and commitment to white supremacy Here contributors adopt a broad understanding of battle considering environmental effects and the impact of the war after the battles were over Essays by Laura Mammina and Charity Rakestraw and Kristopher A Teters reveal that while the war blurred the boundaries it ultimately prompted Americans to grasp for the familiar established hierarchies of gender and race Examinations of chaos and internal division suggest that the political culture of Reconstruction was every bit as contentious as the war itself Former Confederates decried the barbarity of their Yankee conquerors while Republicans portrayed Democrats as backward rubes in need of civilizing Essays by Kevin L Hughes Daniel J Burge T Robert Hart John F Marszalek and T Michael Parrish highlight Americans continued reliance on hyperbolic rhetoric American Discord embraces a multifaceted view of the Civil War and its aftermath attempting to capture the complicated human experiences of the men and women caught in the conflict These essays acknowledge that ordinary people and their experiences matter and the dynamics among family members friends and enemies have far reaching consequences *Black Union Soldiers in the Civil War* Hondon B. Hargrove, 2003-09-19 This book refutes the historical slander that blacks did not fight for their emancipation from slavery At first harshly rejected in their attempts to enlist in the Union army blacks were eventually accepted into the service often through the efforts of individual generals who frustrated with bureaucratic inaction in the face of dwindling forces overrode orders from the secretary of war and the president himself By the end of the war black soldiers had numbered over 187 000 and served in 167 regiments Seventeen were awarded the Congressional Medal of Honor the nation s highest award for valor Theirs was a remarkable achievement whose full story is here told for the first time **The Letters of Jessie Benton Frémont** Jessie Benton Frémont, 1993 Bold talented and ambitious Jessie Benton Fremont was

one of Victorian America's most controversial women. As the daughter of powerful Senator Thomas Hart Benton of Missouri and the wife of John Charles Fremont, western explorer, presidential candidate, and Civil War general, she not only witnessed but struggled to influence many of the major events of her time. Despite the restrictions she faced as a woman, she managed to carve out a vital role for herself as a writer, dedicated abolitionist, and secretary and other self to her mercurial husband. She collaborated on his best-selling exploration reports, served as his behind-the-scenes political advisor, and chief Civil War aide, and worked as a lobbyist for Arizona mining interests. In *The Letters of Jessie Benton Fremont*, Pamela Herr and Mary Lee Spence create a compelling portrait of this remarkable woman. They supplement their collection of 271 fully annotated letters selected from 800 they uncovered with an elegant introduction and seven authoritative chapter essays that elucidate the significant periods of her life. The correspondents range from intimate friends like Elizabeth Blair Lee to public figures like Horace Greeley, Abraham Lincoln, Dorothea Dix, John Greenleaf Whittier, Elizabeth Palmer Peabody, William T. Sherman, and Theodore Roosevelt. Readers interested in women's studies, the westward movement, the Civil War, and the Gilded Age will find a rich source in *The Letters of Jessie Benton Fremont*. **Teacher of Civil War Generals** Allen H. Mesch, 2015-07-28

From West Point to Fort Donelson, General Charles Ferguson Smith was a soldier's soldier. He served at the U.S. Military Academy from 1829 to 1842 as Instructor of Tactics, Adjutant to the Superintendent, and Commandant of Cadets. During his 42-year career, he was a teacher, mentor, and role model for many cadets who became prominent Civil War generals, and he was admired by such former students as Grant, Halleck, Longstreet, and Sherman. Smith set an example for junior officers in the Mexican War, leading his light battalion to victories and earning three field promotions. He served with Albert Sidney Johnston and other future Confederate officers in the Mormon War. He mentored Grant while serving with him during the Civil War and helped turn the tide at Fort Donelson, which led to Grant's rise to fame. He attained the rank of major general while refusing political favors and ignoring the press. Drawing on never-before-published letters and journals, this long-overdue biography reveals Smith as a faithful officer, excellent disciplinarian, able commander, and modest gentleman. **U.S. Armed Forces Medical Journal**, 1958 *Confederate Generals in the Trans-Mississippi, Vol 1*

Lawrence L. Hewitt, Arthur W. Bergeron, Thomas E. Schott, 2013-04-30. Until relatively recently, conventional wisdom held that the Trans-Mississippi Theater was a backwater of the American Civil War. Scholarship in recent decades has corrected this oversight, and a growing number of historians agree that the events west of the Mississippi River proved integral to the outcome of the war. Nevertheless, generals in the Trans-Mississippi have received little attention compared to their eastern counterparts, and many remain mere footnotes to Civil War history. This welcome volume features cutting-edge analyses of eight Southern generals in this most neglected theater: Thomas Hindman, Theophilus Holmes, Edmund Kirby Smith, Mosby Monroe Parsons, John Marmaduke, Thomas James Churchill, Thomas Green, and Joseph Orville Shelby, providing an enlightening new perspective on the Confederate high command. Although the Trans-Mississippi has long been considered a

dumping ground for failed generals from other regions the essays presented here demolish that myth showing instead that with a few notable exceptions Confederate commanders west of the Mississippi were homegrown not imported and compared well with their more celebrated peers elsewhere With its virtually nonexistent infrastructure wildly unpredictable weather and few opportunities for scavenging the Trans Mississippi proved a challenge for commanders on both sides of the conflict As the contributors to this volume demonstrate only the most creative minds could operate successfully in such an unforgiving environment While some of these generals have been the subjects of larger studies others including Generals Holmes Parsons and Churchill receive their first serious scholarly attention in these pages Clearly demonstrating the independence of the Trans Mississippi and the nuances of the military struggle there while placing both the generals and the theater in the wider scope of the war these eight essays offer valuable new insight into Confederate military leadership and the ever vexing questions of how and why the South lost this most defining of American conflicts With Charity for All William C. Harris,2021-12-14 Harris maintains that Lincoln held a fundamentally conservative position on the process of reintegrating the South one that permitted a large measure of self reconstruction and that he did not modify his position late in the war He examines the reasoning and ideology behind Lincoln s policies describes what happened when military and civil agents tried to implement them at the local level and evaluates Lincoln s successes and failures in bringing his restoration efforts to closure *Freedom* Ira Berlin,Barbara J. Fields,Thavolia Glymph,2010-04-19 *The Quartermaster* Robert O'Harrow,2016-10-25 The lively story of the Civil War s most unlikely and most uncelebrated genius The Wall Street Journal General Montgomery C Meigs who built the Union Army and was judged by Abraham Lincoln William Seward and Edwin Stanton to be the indispensable architect of the Union victory Born to a well to do connected family in 1816 Montgomery C Meigs graduated from West Point as an engineer He helped build America s forts and served under Lt Robert E Lee to make navigation improvements on the Mississippi River As a young man he designed the Washington aqueducts in a city where people were dying from contaminated water He built the spectacular wings and the massive dome of the brand new US Capitol Introduced to President Lincoln by Secretary of State William Seward Meigs became Lincoln s Quartermaster in charge of supplies It was during the Civil War that Meigs became a national hero He commanded Ulysses S Grant s base of supplies that made Union victories including Gettysburg possible He sustained Sherman s army in Georgia and the March to the Sea After the war Meigs built Arlington Cemetery on land that had been Robert E Lee s home Civil War historian James McPherson calls Meigs the unsung hero of northern victory and Robert O Harrow Jr s biography of the victorious general who was never on the battlefield tells the full dramatic story of this fierce strong honest loyal forward thinking figure An excellent biography O Harrow s thorough masterfully crafted and impeccable researched biography is destined to become the authoritative volume on Meigs The Civil War Monitor *New Mexico Historical Review* Lansing Bartlett Bloom,Paul A. F. Walter,2001 Bulletin ,1963 **Sherman's 1864 Trail of Battle to Atlanta** Philip L.

Secrist, 2006 Sherman's 1864 Trail of Battle to Atlanta traces the principal routes and sites of battle used by the Confederate and Union armies in the 120 day Atlanta Campaign. Special care is given to locating and identifying local families living along this path of war in 1864 and through their letters diaries or books shares their experiences of war. Frances Howard's book *In and Out of the Lines* chronicles the hardships experienced by families in the path of marching armies and Lizzie Grimes's diary describes the burning of her house and town of Cassville Georgia.

Never for Want of Powder C. L. Bragg, 2007 Lavishly illustrated with seventy four color plates and fifty black and white photographs and drawings *Never for Want of Powder* tells the story of a world class munitions factory constructed by the Confederacy in 1861 the only large scale permanent building project undertaken by a government often characterized as lacking modern industrial values. In this comprehensive examination of the powder works five scholars a historian physicist curator architectural historian and biographer bring their combined expertise to the task of chronicling gunpowder production during the Civil War. In doing so they make a major contribution to understanding the history of wartime technology and Confederate ingenuity. Early in the war President Jefferson Davis realized the Confederacy's need to supply its own gunpowder. Accordingly Davis selected Col George Washington Rains to build a gunpowder factory. An engineer and West Point graduate Rains relied primarily on a written pamphlet rather than on practical experience in building the powder mill yet he succeeded in designing a model of efficiency and safety. He sited the facilities at Augusta Georgia because of the city's central location canal transportation access to water power railroad facilities and relative security from attack. As much a story of people as of machinery *Never for Want of Powder* recounts the ingenuity of the individuals involved with the project. A cadre of talented subordinates including Frederick Wright C Shaler Smith William Pendleton and Isadore P Girardey assisted Rains to a degree not previously appreciated by historians. This volume also documents the coordinated outflow of gunpowder and ammunition and Rains's difficulty in preparing for the defense of Augusta. Today a lone chimney along the Savannah River stands as the only reminder of the munitions facility that once occupied that site. With its detailed reproductions of architectural and mechanical schematics and its expansive vista on the Confederacy *Never for Want of Powder* restores the Augusta Powder Works to its rightful place in American lore.

Executing Daniel Bright Barton A. Myers, 2009-10 Daniel Bright was executed in 1863 for his involvement in an irregular resistance to Union army incursions along the coast of North Carolina. *Executing Daniel Bright* uses life and death to exemplify a larger pattern of retaliatory executions and public murders meant to enforce a message of political loyalty and military conduct on the Confederate home front and to examine the wider experience of guerrilla conflict on the North Carolina coast. The study concludes that guerrilla violence like Bright's hanging was not isolated to the highlands or piedmont region of the North Carolina home front but occurred throughout the state.

Manet and the American Civil War Juliet Wilson-Bareau, David C. Degener, Metropolitan Museum of Art (New York, N.Y.), 2003 On June 19 1864 the United States warship *Kearsarge* sank the Confederate raider *Alabama* off the coast of Cherbourg France in

one of the most celebrated naval engagements of the American Civil War When Kearsarge later anchored off the French resort town of Boulogne sur Mer it was thronged by curious visitors one of whom was the artist Edouard Manet Although he did not witness the historic battle Manet made a painting of it partly as an attempt to regain the respect of his colleagues after having been ridiculed for his works in the 1864 Salon Manet's picture of the naval engagement and his portrait of the victorious Kearsarge belong to a group of his seascapes of Boulogne whose unorthodox perspective and composition would profoundly influence the course of French painting Manet's paintings and watercolors related to the battle are considered in depth alongside numerous prints photographs letters and archival newspaper illustrations that illuminate the history of the episode and in some cases dispel lingering misconceptions Manet's other Boulogne seascapes are also discussed in terms of their complex chronology and evolution A final chapter touches on some of the sources for the seascapes from Old Master paintings to Japanese woodblock prints and traces the influence of the seascapes on such artists as Gustave Courbet James Abbott McNeill Whistler and Claude Monet

Engineering Victory Thomas F. Army Jr., 2016-06-01 Superior engineering skills among Union soldiers helped ensure victory in the Civil War Engineering Victory brings a fresh approach to the question of why the North prevailed in the Civil War Historian Thomas F Army Jr identifies strength in engineering not superior military strategy or industrial advantage as the critical determining factor in the war's outcome Army finds that Union soldiers were able to apply scientific ingenuity and innovation to complex problems in a way that Confederate soldiers simply could not match Skilled Free State engineers who were trained during the antebellum period benefited from basic educational reforms the spread of informal educational practices and a culture that encouraged learning and innovation During the war their rapid construction and repair of roads railways and bridges allowed Northern troops to pass quickly through the forbidding terrain of the South as retreating and maneuvering Confederates struggled to cut supply lines and stop the Yankees from pressing any advantage By presenting detailed case studies from both theaters of the war Army clearly demonstrates how the soldiers education training and talents spelled the difference between success and failure victory and defeat He also reveals massive logistical operations as critical in determining the war's outcome
