Travels in the wilderness introduced her to the totem art of the Pacific Northwest coast at a time Aboriginal art was undervalued and believed to be disappearing. Carr vowed to document it before turning to spirited landscapes of forest, sea and sky. The second part of the book presents a Jungian portrait of Carr, including typology, psychological complexes and archetypal features of personality. An examination of the individuation process and Carr's embracement of transcendental philosophy reveals the richness of her personality and artistic genius. Artist Emily Carr and the Spirit of the Land provides captivating reading for analytical psychologists, academics and students of Jungian studies, art history, health, gender and women's studies. Dynamic Seascapes Judith Yates, 2021-03-30. An exhilarating and exciting approach to painting the sea and sky from master artist Judith Yates. Artists wishing to capture the excitement and power of the sea in their artwork will find this book invaluable. Using a mix of traditional and more experimental techniques, all of which are explained in clear step-by-step sequences, Judith Yates explains and demonstrates how to produce exciting dynamic paintings full of drama and light. With sections on colour composition and creating atmosphere, this book is a comprehensive approach to painting the tumultuous ocean with a mix of acrylics, watercolour and acrylic inks. Judith has a varied and multimedia approach, giving this book wide appeal to watercolour and acrylics artists looking to expand their creative horizons. The book demystifies potentially intimidating aspects of painting the sea, such as the form and anatomy of a wave, through annotated examples and a huge number of Judith's artworks, which also helps to make this book a great source of inspiration and ideas. Samuel Beckett's Abstract Drama Erik Tonning, 2007. Samuel Beckett's Play, written 1962-63, was an aesthetic watershed inaugurating his late abstract dramatic style. This book gets close to Beckett's creative process by examining the possible influence of Arnold Schoenberg's twelve-tone music and Vassily Kandinsky's abstract painting upon this formal shift, by tracing Beckett's developing attitude to abstraction and its relation to his long-standing preoccupation with the breakdown of the subject-object relation and the ultimate failure of all expression, and by following his formal choices through manuscript drafts. The author goes on to analyse Beckett's attempt to adapt his new methods to the media of film and television and to demonstrate how Beckett's late works for stage and screen develop alongside one another right up to his 1985 adaptation of the play *What Where* for television. Throughout the book, unpublished manuscript materials, such as Beckett's letters, drafts, notes on philosophy, psychology and art, and his German diaries, augment a detailed account of the submerged sources that Beckett appropriated to the evolving needs of his abstract dramatic art. **The Kindergarten-primary Magazine** Bertha Johnston, E.
