Personalism Politics Of Culture:

Personalism and Personalist Regimes Alex Baturo, Luca Anceschi, Francesco Cavatorta, 2024-07-04 Personalist leaders such as Russia's Vladimir Putin, Belarus's Alexander Lukashenko or Venezuela's Nicolás Maduro are increasingly prominent players in the international landscape; their motivations and policies, however, are poorly understood. The regimes they lead are difficult to examine, mostly because of their most defining feature: an inordinate concentration of power in the hands of one single individual. Yet personalist leaders do not rule alone; even if they do not always govern through institutional channels. How do personalist regimes really work? How do their rulers acquire and maintain personal control? How does contemporary personal rule differ from how it was practised during the Cold War? These are the key questions addressed in *Personalism and Personalist Regimes*, which offers a systematic examination of the logic of personalism or personalist rule, tackling comprehensively the study of personalist leaders and personalist regimes. The book is underpinned by a theoretical framework that combines historical and comparative analyses brought forward through a series of detailed country studies authored by a distinguished group of comparativists and area studies experts. The book also revisits and builds upon *Sultanistic Regimes*, the seminal study by H. E. Chehabi and Juan Linz. In contrast to *Sultanistic Regimes*, which studied sultanism, an extreme form of personalism, *Personalism and Personalist Regimes* examines personal rule on its full continuum, from Turkey under Erdoğan or Venezuela under Maduro to Turkmenistan under Berdimuhamedov or Libya under Gaddafi. Because personalism or personal rule can be present across all regimes, the book also includes several studies of personalism and institutions in party dictatorships, China or Cuba, amongst others.

Producing Cultural Change in Political Communities Holger Mölder, Camelia Florela Voinea, Vladimir Sazonov, 2023-11-13 In light of many crises in the last two decades, including democratic recession, climate change, economic crises, and massive waves of migration affecting perceptions of security around the world, this book examines the impact of cultural change in political communities on the global political and security environment. Through various case studies of political communities around the world, the book analyzes contemporary responses to cultural change, often culminating in the rise of political populism and extremism. The book is divided into two parts and presents a foreword by Larry Diamond and an afterword by Eric Shiraev. The first part focuses on the micro level of cultural change in political communities and discusses conflict mechanisms and the role of political participation in producing changes. The second part features studies on extremism and populism, analyzing their impact on cultural change in Europe. The book is intended for scholars and students in a variety of disciplines, including international relations, security studies, cultural studies, and related fields.

Fortescue, 2010-05-13 Seven leading specialists present chapters devoted to key themes in Soviet and post Soviet Russian politics Those themes include the personal versus the institutional in the political process legitimacy and legitimation and change and collapse of a mono organisational society While the book focuses on these major themes individual chapters deal with wide ranging and even unusual cases Graeme Gill analyzes the legitimating functions of Moscow's architecture Sheila Fitzpatrick uses the archives to draw a picture of Stalin the boss dealing with his closest colleagues Eugene Huskey provides a detailed description of post Soviet Russian pantouflage and Archie Brown and Peter Reddaway present their different takes on Gorbachev and the Soviet collapse Stephen Fortescue provides an overview of policy making processes from Lenin and Putin and Leslie Holmes updates the concept of goal rational legitimacy Sustaining Civil Society Philip Oxhorn, 2015-08-21 South America is not the poorest continent in the world but it may very well be the most unjust This statement by Ricardo Lagos then president of Chile at the Summit of the Americas in January 2004 captures nicely the dilemma that faces Latin American countries in the wake of the transition to democracy that swept across the continent in the last two decades of the twentieth century While political rights are now available to citizens at unprecedented levels social and economic rights lag far behind and the fledgling democracies struggle with long legacies of poverty inequality and corruption Key to understanding what is happening in Latin America today is the relationship between the state and civil society In this ambitious book Philip Oxhorn sets forth a theory of civil society adequate for explaining current developments in a way that such controversial

neoconservative theories as Francis Fukuyama's liberal triumphalism or Samuel Huntington's clash of civilizations cannot. Inspired by the rich political sociology of an earlier era and the classic work of T. H. Marshall on citizenship, Oxhorn studies the process by which social groups are incorporated or not into national socioeconomic and political development through an approach that focuses on the social construction of citizenship.
