Schoolwise A Parents Guide To Getting The Best Education For Your Child:

Schoolwise Martha Cluverius Brown, 1985 Gives parents advice on encouraging their children to learn consulting with teachers helping with homework build a child's self confidence and learning about a school's administration *Schoolwise* Martha Brown, 2005-03 SCHOOLWISE is a parent's guide from first grade through high school As a parent and former teacher I know parents who speak up and work together can learn to deal with school problems Among parent's you'll meet in SCHOOLWISE are those who got rid of an incompetent teacher though the principle did nothing and other parents who persuaded their school to discard ineffective reading and math programs and adopt programs proven to help children succeed Brown a former teacher offers a common sense approach for seeing that children get the best from any school system A book full of sure to get results advise Library Journal SCHOOLWISE opened my eyes to so many vital things and make me feel really comfortable in speaking out about school problems Vera C Klinger parent and entrepreneur **We Must Take Charge!** Chester E. Finn, Jr., 2008-06-30 According to leading education analyst Chester Finn a paradox lies at the heart of our educational trouble While Americans commonly acknowledge that public schools in general are a disaster polls consistently show that most parents teachers and administrators think their local schools and their own children are doing just fine The implications of this self congratulation are profound For if people believe their own schools and children are succeeding why should they feel compelled to change things Yet if we don't we will continue to watch the destruction of a system that already lacks accountability and quality control and is beset by a teaching profession compromised by bad ideas fads buck passing dubious theories and stodgy practices Finn proposes radical changes which he insists must be championed by all Americans if this atrophy is to be reversed First and most importantly he calls on us to reorganize education in relation to the results we want from it This means establishing a clearcut standard of intellectual achievement that we will oblige all of our schools to enforce and our children to meet To define this standard we will need to rebuild instruction around a national curriculum of core subjects history science geography math literature and writing And we must demand a more detailed flow of useful information including reliable testing about how our children are performing in relation to this standard Finn calls on us to give our children as much time as many options and as broad an array of resources as possible As he points out learning can take place as easily in July as it does in March as easily in a museum as it does in a classroom And if parents have choices in deciding which schools and programs best fit the needs of students they will have an added incentive in helping their children succeed He urges us to revitalize the means of delivering education from the bottom up by vesting as much authority as possible with educators in each individual school and holding them accountable for their performance For Finn the implementation of these radical measures is essential to produce not only a knowledgeable twenty first century work force that will keep our nation competitive but an informed and reasoning citizenry capable of participating fully in a democracy Challenging and candid this book will point the way for all those insisting on the best that

our schools can offer **Education and Development of Infants, Toddlers, and Preschoolers** George S. Morrison, 1988
 U.S. News & World Report ,1987 **School Partnerships** ,1990 *Winning the Homework War* Fredric M.
Levine, Kathleen M. Anesko, 1987 **In Their Own Way** Thomas Armstrong, 1987 This book speaks to the millions of parents
