Lacan's Four Fundamental Concepts of Psychoanalysis Roberto Harari, 2020-09-08 The informal tone of these ten lectures by Roberto Harari reflects their original character as classes held at El Centro de Extension Psicoanalitica del Centro Cultural General San Martin Buenos Aires Destined for a wider audience than just the psychoanalytical camp Harari's work presents the Lacanian endeavor without presupposition of specialized knowledge and yet without conceding intellectual subtlety Harari provides an introductory display of essential themes developed in Lacan's Four Fundamental Concepts of Psychoanalysis and offers his own insightful reading of the text's central ideas These ten classes sparked by the crucial Seminar XI within the teaching of Lacan reframe a wide range of questions in psychoanalysis for the professional in the field scholars and students across disciplines and interested lay readers Harari is so at ease with Lacan's oeuvre that he can dismantle and rebuild its structure so that order and logic suddenly appear inherent to Lacan's way of thinking The unconscious transference repetition and the drive are here reintroduced not only to do justice to Freud's insights but also to link these concepts to the larger question of the complex relationships between psychoanalysis religion and science Harari's didactic approach and his analytic style come
