Science Technology And The Labour Process Marxist Studies Vol 1:

Science, Technology and the Labour Process, 1983 **The SAGE Handbook of Marxism** Beverley Skeggs, Sara R. Farris, Alberto Toscano, Svenja Bromberg, 2021-11-17 The past decade has witnessed a resurgence of interest in Marxism both within and without the academy Marxian frameworks concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism Most crucially an attention to shifting cultural conditions has lead contemporary researchers to re confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today The SAGE Handbook of Marxism showcases this cutting edge of today s Marxism It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century A rigorous and challenging collection of scholarship this book contains a stunning range of contributions from contemporary academics writers and theorists from around the world and across disciplines invaluable to scholars and graduate students alike Part 1 Reworking the critique of political economy Part 2 Forms of domination subjects of struggle Part 3 Political perspectives Part 4 Philosophical dimensions Part 5 Land and existence Part 6 Domains Part 7 Inquiries and debates The Terror of the Machine Devon G. Peña, 2014-10-14 Born of thirteen years of field research this interdisciplinary work explores the complex intersections of technology class gender and ecology in the transnational milieu of Mexico s maquiladoras foreign owned assembly plants located along the U S border Devon Pe a examines workplace and community struggles from the perspective of the women who work in the maquiladoras He describes the workers struggles for workplace democracy social justice and sustainable development He also observes the circulation of struggle from the factory to the community highlighting the efforts to establish worker owned cooperatives in the border region during the 1970s and 1980s Female maquila workers are typically portrayed as passive apolitical and easily exploited This book however presents an opposing view investigating the subaltern life of the shop floor the workers informal methods of resistance to hazardous conditions sexual harassment and managerial tyranny Using survey research oral history discourse analysis and site ethnography the author develops a cogent critique of labor process theory a critique grounded on his extensive study of actual workplace politics in the maquiladoras The Terror of the Machine is a trenchant analysis of the political cultural and environmental effects of maquila industrialization and an eloquent and persuasive call for alternatives in the direction of ecologically sustainable and culturally appropriate modes of development **Primate Visions** Donna J. Haraway, 2013-01-11 Haraway s discussions of how scientists have perceived the sexual nature of female primates opens a new chapter in feminist theory raising unsettling questions about models of the family and of heterosexuality in primate research Science, Technology, and Society Sal Restivo, 2005-05-19 Emphasizing an interdisciplinary and international coverage of the functions and effects of science and technology in society and culture Science Technology and Society

contains over 130 A to Z signed articles written by major scholars and experts from academic and scientific institutions and institutes worldwide Each article is accompanied by a selected bibliography Other features include extensive cross referencing throughout a directory of contributors and an extensive topical index The Political Economy of Information Vincent Mosco, Janet Wasko, 1988 The information society is real Information as a marketable commodity is quickly taking up the powerful role once held by heavy industry and manufactured products How this revolution is affecting society and how society and government are responding to it is the subject of this book Its lessons and conclusions are of critical importance as we enter the last decade of this century Every dimension of social life whether in the home or the workplace is affected by information and the technologies that give it market value Along with the positive aspects of these broad changes there are inevitable problems the growing gap between the information rich and information poor the need for widespread access to communication and information technology the threat to individual privacy and the potential of the technology to create global instabilities The editors have enlisted specialists and scholars in business communications studies computing and information science economics law library science political science and sociology to examine these changes and problems by looking at information specifically as a commodity to be traded protected and desired Science, Technology, and Society Sal P. Restivo, 2005 Emphasizing an interdisciplinary and international coverage of the functions and effects of science and technology in society and culture Science Technology and Society B contains over 130 A to Z signed articles written by major scholars and experts from academic and scientific institutions and institutes worldwide Each article is accompanied by a selected bibliography Other features include extensive cross referencing throughout a directory of contributors and an extensive topical index **Darwin's Metaphor** Robert Maxwell Young, 1971 **Anti-Capitalism** Lécio Morais, 2002-12-20 This book is a collection of essays from some of the world's leading Marxist economists on the problems of globalisation and the evolution of modern capitalism With contributions from Suzanne de Brunhoff Ellen Meiksins Wood Ben Fine Simon Clarke John Holloway and John Weeks among others it provides a cohesive critique of the weaknesses of the existing system and puts forward a new agenda for anti capitalist thought and action Covering key issues such as globalisation the nation state money and finance conflict and war technological change the environment class struggle economic crisis capitalism in the Third World the collapse of the USSR and the transcendence of capitalism this is an ideal introduction to some of the most pressing problems of our time **Labour Process Theory** David Knights, Hugh Willmott, 2016-07-27 How are we to make sense of the way work is organised and controlled To what extent is its design the result of technological demands the interests of capital or processes of negotiation and struggle In recent years labour process analysis revived by Braverman's Labor and Monopoly Capital has been most influential in shaping our thinking about this question With contributions from leading authorities in the field this book reviews the contribution of the labour process theory to the study of work organisation Providing a fresh response to criticisms of Bravermania and lost momentum the volume explores the theoretical

foundations of labour process analysis and suggests new directions for its development
