Modern Concepts in Gastroenterology Alan B.R. Thomson, L.R. DaCosta, William C. Watson, 2012-12-06 A fine team of state of the art researcher clinicians who know their fields have contributed to the advancement of knowledge and are in a position to judge what is truly important have here pooled their thoughts in a series of chapters on the cutting edges of gastroenterology Four attributes render this volume superior to other update oriented publications The first striking feature which is immediately evident upon scanning the table of contents is the imaginative choice of subjects ranging from traveler's diarrhea and sexually transmitted GI infections through TPN and interventional endoscopy to geriatrics and iatrogenic disease A second outstanding feature of this volume is its success in balancing basic pathophysiology with practical considerations of clinical management This is achieved in the discussions of such diverse topics as acid peptic diseases infectious and other diarrheal syndromes and hepatitis immunization Throughout

the book we are led smoothly from basic science principles to specific recommendations for diagnosis and therapy This practical emphasis appears repeatedly and sometimes produces a delightful surprise such as a chapter on radiology that is not technology based but instead problem oriented **First Principles of Gastroenterology** Eldon A. Shaffer, Alan Bryan Robert Thomson, Astra Pharma Inc, 1997 Grand Rounds Russell C. Maulitz, Diana E. Long, 2016-11-11 The history of medicine has come to occupy a significant place in our understanding of modern society and the American cultural fabric To fully understand and appreciate American medicine in the twentieth century one must contend with the twin processes of specialization and professionalization Grand Rounds considers the critical period for these two processes the years between World War I and the Vietnam era A diverse group of contributors clinicians as well as historians and participant observers outline broad themes involved in the evolution of modern internal medicine and trace the origins of subspecialties such as cardiology gastroenterology rheumatology infectious diseases and nephrology Paul Beeson Rosemary Stevens and others discuss the literature diagnostic approaches and therapeutic research in the field Grand Rounds will be of interest to historians of science and medicine students of American civilization and medical practitioners
