Narrative of Suffering: Meaning and Experience in a Transcultural Approach Lolita Guimarães Guerra, Jose A. Nicdao, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume explores how people come to terms with suffering how they experience the mystery of this human condition and how future studies can shed some further light on the topic Various perspectives are represented here such as the use of narratives to delve into the reality of suffering the emotional trauma that suffering brings the narrative process which manifests phenomenology and intersubjectivity and the emergence of gendered models of suffering These approaches derive from multiple fields of research creating a multi perspectival view of suffering that transcend long held disciplinary boundaries and stimulate a broader dialogue within contemporary scholarship on suffering related themes Such plurality points out that in the end despite its negative connotations suffering positively affects individuals and society as it enables recognition of common bonds that link all people from all nations and all races Compassion and sympathy leads to a transcendence that this book seeks to highlight

A Sense of the Heart Bill J. Leonard, 2014-11-18 For many people knowing about God is not enough they also want to feel God s presence Whether like St Paul s experience on the road to Damascus or like Wesley s strangely warmed heart people believe that nothing can substitute for religious experience Even today people go to church in order to encounter the Divine by which they mean experience God in their midst This desire to meet or be met by God is as old as humanity but America especially has been the seed bed for what William James famously called varieties of religious experience These experiences cover a wide spectrum from classic mysticism to revivalist conversion to a contemporary pursuit of spirituality A Sense of the Heart traces the nature of religious experience from the colonial era to the present attempting to define and describe the nature of religious experience and noting common and distinct approaches in the work of various scholars and practitioners Following that A Sense of the Heart offers a historical review of representative types of religious experience the nature of such experiences and their impact on the American religious and cultural context as evident in awakenings controversies denominations and new religious communities

Sense and Spirituality James McCullough, 2015-06-02 There is growing interest in the relationship between the arts and Christian faith Much has been written about the arts and theology and the place of the arts in church life Not as much has been written however about how the arts might actually advance spiritual formation in terms of the cumulative effect of religious experience and intentional practices This book provides a modest step forward in that conversation a conversation between theological aesthetics and practical theology Understanding aesthetics as the realm of sense perception and spiritual formation as growing capacities to participate in God s purposes James McCullough suggests how these dynamics can mutually enhance each other with the

arts as an effective catalyst for this relationship McCullough proposes an analysis of artistic communication and explores exciting examples from music poetry and painting which render theoretical proposals in concrete terms This book will engage both those new to the arts and those already deeply familiar with them *Re-Envisioning Transformation* David C. Scott, 2018-09-14 In today's church use of the term transformation has become commonplace Various perspectives are offered on what a Christian view of transformation is and on how it may be achieved These often conflicting views suggest an ecclesial landscape characterized by pluralism division fragmentation confusion relativism individualism pragmatism and subjectivism Despite the current interest in transformational theology the absence of a common coherent and integrated vision and the lack of transformation is often accepted and affirmed *Re Envisioning Transformation* looks at the possibility of moving toward a vision of transformational theology that is cohesive unified broad effectual and distinctly Christian In this book the contributions of two radically different theologians of the Christian life are examined This provides the basis from which to develop a comprehensive and integrated framework of transformational theology pointing God's people toward the need to express and live out a distinctly Christian vision Recent Reference Books in Religion William M. in John's Gospel Gabriel-Mary Fiore CSJ, 2023-11-30 The Fourth Gospel has been known as the spiritual gospel since the second century but only recently have biblical scholars attempted to express the unique spirituality found in that sacred text. Surprisingly, no consensus has emerged even after a century of research. Thus, while John's Gospel is widely admired as a vibrant source of Christian piety, the distinct features of its spirituality remain unclear. Fr. Fiore addresses this problem from the fresh perspective of spiritual theology. Capitalizing on a century of Johannine biblical scholarship, he uses the interdisciplinary methods of spiritual theology to bring new data to the study of the Gospel and solutions to many lingering questions: How did ancient readers understand what scholars now refer to as the Gospel's spirituality? How does that ecclesial reading compare to the analysis of modern critical exegesis? What makes Johannine spirituality special among other forms of Christian piety? How does the question of the Gospel's authorship impact our understanding of its spirituality? Does the Gospel contain what we now call mysticism? In what ways is John's spirituality still relevant for Christians today? Students of Christian spirituality and Johannine exegesis alike will find here stimulating historical and theological analysis of the Gospel's spirituality.
