Life Ralph Windle,1994 Love death religion relationships these subjects typically inspire collections of poetry But business
Most people think of business and poetry as two separate and incompatible areas of life In February 1991 Alan Farnham
expressed this common belief when he wrote in Fortune Magazine Not many people in business feel an urge to write verse
about their work Challenged by this statement Ralph Windle began a three year search for the poetry of business life and
found a profusion of verse exploring all aspects of business The author s research revealed that not only is there a large body
of business poetry in existence today but business has been the subject of poems since the invention of the written word The
poems in this collection range from early agribusiness to the ever present entrepreneur merchant banker and with the
coming of the industrial age the worker and manager right up to twentieth century concerns with global travel technology
and the complexities of office life Included are the works of more than seventy poets and twice that many pieces Young
unpublished business poets rub elbows with widely published contemporary writers such as James Autry Harry Newman and
Dana Gioia as well as some of the most distinguished names in poetic literature including Shakespeare Chaucer Tennyson
