**Library of Congress Catalog** United States, 1977      **Machiavelli in the British Isles** Alessandra Petrina, 2016-05-13 Machiavelli in the British Isles reassesses the impact of Machiavelli's *The Prince* in sixteenth century England and Scotland through the analysis of early English translations produced before 1640 surviving in manuscript form This study concentrates on two of the four extant sixteenth century versions William Fowler's Scottish translation and the Queen's College Oxford English translation which has been hitherto overlooked by scholars Alessandra Petrina begins with an overview of the circulation and readership of Machiavelli in early modern Britain before focusing on the eight surviving manuscripts She reconstructs each manuscript's history and the afterlife of the translations before moving to a detailed examination of two of the translations Petrina's investigation of William Fowler's translation takes into account his biography in order to understand the Machiavellian influence on early modern political thought Her study of the Queen's College translation analyses the manuscript's provenance as well as technical details including writing and paper quality Importantly this book includes annotated editions of both translations which compare the texts with the original Italian versions as well as French and Latin versions With this volume Petrina has compiled an important reference source offering easy access to little known translations and shedding light on a community of readers and scholars who were fascinated by Machiavelli despite political or religious opinion      *Reader's Guide to Literature in English* Mark Hawkins-Dady, 2012-12-06 Reader's Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study      **Democratizing Sir Thomas Browne** Daniela Havenstein, 1999 This study looks anew at one of the most popular books of the seventeenth century Sir Thomas Brown's *Religio Medici* Daniela Havenstein considers neglected seventeenth and early eighteenth century responses to this

Scottish Short Stories 1800-1900 Douglas Gifford,1971 This collection of Scottish short stories has been chosen to give as wide as possible a picture of Scottish fiction of the nineteenth century Authors such as Walter Scott James Hogg John Galt Margaret Oliphant and Robert Louis Stevenson are widely known as major figures outside Scotland and this collection which also includes stories from lesser known authors such as W E Aytoun James Grant George McDonald William Black and William Alexander places them within the context and tradition of Scottish literature The volume has been compiled and annotated by Douglas Gifford former senior lecturer in English studies at the University of Strathclyde for use in schools and universities as well as for general reading      *The Bibliothek* ,1970      **Annual Bibliography of Scottish Literature** ,1972      *Bibliotheca Celtica* ,1976      Renaissance Syntax and Subjectivity John C. Leeds,2017-03-02 The relationship between Latin and the Scots vernacular in the chronicle literature of 16th century Scotland provides the topic for this study John Leeds here shows how the disposition of grammatical subjects in the radically dissimilar syntactic systems of humanist neo Latin and Scots conditions the way in which the subject i e the human individual and its actions are conceived in the writing of history In doing so he extends the boundaries of existing critical literature on early modern subjectivity to include the subject of grammar analyzing its incorporation into narrative sentences and illuminating the ideological contents of different systems for its deployment Though focused on the chronicles of Renaissance Scotland the argument can in principle be applied to the entire range of Latin vernacular relations during the early modern period While examining the intellectual culture of early modernity Leeds also takes aim at every stage of his argument at the semiotic and social constructionist orthodoxies that dominate the humanities today Against the notion that human subjects are discursive constructs he argues for the subordination of discourse to realities both material and immaterial that are external to language As part of this argument he proposes a view of neo Latin humanism as a resistance to the onset of modernity arguing that Latin prose provides options at once syntactic ideological and ontological that vernacular culture has to its considerable detriment foreclosed In sum Leeds advocates a renewed and theoretically informed commitment to the humanism that the humanities themselves have been at such pains during the last scholarly generation to depreciate      *Library of Congress Subject Headings* Library of Congress.
