Scottish Philosophy Selected Writings 1690-1950:

Scottish Philosophy Gordon Graham, 2004 This collection of readings the first of its kind has been chosen with a view to displaying the variety richness and strength of the Scottish philosophical tradition **The Scottish Idealists** David Boucher, 2004 This collection of readings the first of its kind has been chosen with a view to displaying the variety richness and strength of the Scottish Idealist tradition *The Hero Building* Johnny Rodger, 2016-03-09 Why was it that across Scotland over the last two and a half centuries architectural monuments were raised to national heroes Were hero buildings commissioned as manifestations of certain social beliefs or as a built environmental form of social advocacy And if so then how and why were social aims and intentions translated into architectural form and how effective were they A tradition of building architectural monuments to commemorate national heroes developed as a distinctive feature of the Scottish built environment As concrete manifestations of powerful social and political currents of thought and opinion these hero buildings make important statements about identity the nation and social history The book examines this architectural culture by studying a prominent selection of buildings such as the Burns monuments in Alloway Edinburgh and Kilmarnock the Edinburgh Scott Monument the Glenfinnan Monument and the Wallace Monument in Stirling They give testimony to how a variety of architectural forms and styles can be adapted through time to bear particular social messages of symbolic weight This tradition which literally allows us to dwell on important social issues of the past has been somewhat neglected in serious architectural history and heritage and indeed one of the main monuments has already been destroyed By raising awareness of this rich architectural and social heritage while analysing and interpreting the buildings in their historical context this book makes an exciting and original scholarly contribution to the current debates on identity and nationality taking place in Scotland and the wider UK *Art and Enlightenment* Jonathan Friday, 2004 This volume brings together and provides contextual introductions to the most significant 18th century writing on the philosophy of art John Macmurray John Macmurray, 2004 No further information has been provided for this title Scottish Philosophical Theology 1700-2000 David Fergusson, 2007 Selections in this volume stretch from the beginning of the eighteenth century to the latter part of the twentieth Although no single school of philosophical theology in Scotland spans these three centuries some recurrent themes and intellectual approaches can be identified These include the cross fertilisation of philosophy and theology the tendency to eschew powerful philosophical systems that might threaten deeply held theological convictions and a suspicion of reductive theories of a materialist kind BOOK JACKET *Scottish Studies Review* , 2005 **Books in Print, 2005-2006** Michael Cairns, 2005 **Subject Guide to Books in Print** , 2001 **Dugald Stewart** Dugald Stewart, 2007 Stewart became one of the most influential academics in the 18th and 19th century European Republic of Letters Both his contemporaries and modern scholars recognized the impact this influential figure had over many young minds **Thomas Brown** Thomas Dixon, 2012-10-09 Thomas Brown 1778 1820 Professor of Moral Philosophy in Edinburgh was among the most prominent and

widely read British philosophers of the first half of the nineteenth century An influential interpreter of both Hume and Reid Brown provided a bridge between the Scottish school of Common Sense and the later positivism of John Stuart Mill and others The selections in this volume illustrate Brown s original ideas about mental science cause and effect emotions and ethics They are preceded by an introduction situating Brown s career and writings in their intellectual and historical context

Studies in the Philosophy of the Scottish Enlightenment Michael Alexander Stewart,1990 This is the first volume of the series Oxford Studies in the History of Philosophy Each volume of the series is organized around a particular theme and is cross disciplinary in its approach In this collection of substantial new studies in Scottish Philosophy in the age of Hutcheson and Hume close attention is given to the study of context and the use of original historical sources as a key to philosophical interpretation The collection includes revolutionary research on Hume s early reading in science and religion and its impact on his philosophy

Selections from the Scottish Philosophy of Common Sense George Alexander Johnston,1911 The Tradition of Scottish Philosophy Alexander Broadie,1990 *Scottish Philosophy* Andrew Seth Pringle-Pattison,1899
