Electric Folk Britta Sweers, 2005-01-13 In the 1960s and 1970s a number of British musicians rediscovered traditional folk ballads fusing the old melodies with rock jazz and blues styles to create a new genre dubbed electric folk or British folk rock This revival featured groups such as Steeleye Span Fairport Convention and Pentangle and individual performers like Shirley Dolly Collins and Richard Thompson While making music in multiple styles they had one thing in common they were all based on traditional English song and dance material These new arrangements of an old repertoire created a unique musical voice within the popular mainstream After reasonable commercial success peaking with Steeleye Span's Top 10 album All Around My Hat Electric Folk disappeared from mainstream notice in the late 1970s yet performers continue to create today In *Electric Folk The Changing Face of English Traditional Music* Britta Sweers provides an illuminating history and fascinating analysis of the unique features of the electric folk scene exploring its musical styles and cultural implications Drawing on rare historical sources contemporary music journalism and first hand interviews with several of electric folk's most prominent artists Sweers argues that electric folk is both a result of the American folk revival of the early 1960s and a reaction against the dominance of American pop music abroad Young British folk rockers such as Richard Thompson and Maddy Prior turned to traditional musical material as a means of asserting their British cultural identity Yet unlike many American and British folk revivalists they were not as interested in the purity of folk ballads as in the music's potential for lively interaction with modern styles instruments and media The book also delves into the impact of the British folk rock movement on mainstream pop American rock music and neighboring European countries Ultimately Sweers creates a richly detailed portrait of the electric folk scene as cultural phenomenon commercial entity and performance style

Understanding Scotland Musically Simon McKerrell, Gary West, 2018-02-15 Scottish traditional music has been through a successful revival in the mid twentieth century and has now entered a professionalised and public space Devolution in the UK and the surge of political debate surrounding the independence referendum in Scotland in 2014 led to a greater scrutiny of regional and national identities within the UK set

within the wider context of cultural globalisation This volume brings together a range of authors that sets out to explore the increasingly plural and complex notions of Scotland as performed in and through traditional music Traditional music has played an increasingly prominent role in the public life of Scotland mirrored in other Anglo American traditions This collection principally explores this movement from historically text bound musical authenticity towards more transient sonic identities that are blurring established musical genres and the meaning of what constitutes traditional music today The volume therefore provides a cohesive set of perspectives on how traditional music performs Scottishness at this crucial moment in the public life of an increasingly dis United Kingdom

The Highland Bagpipe Joshua Dickson,2009 The Highland bagpipe widely considered Scotland s national instrument is one of the most recognized icons of traditional music in the world It is also among the least understood However since the bagpipe s unprecedented surge in public visibility and scholarly attention since the 1990s a greater interest in the emic has led the consideration of both the globalization of Highland piping and piping as rooted in local culture The contributors of this collection discuss the bagpipe in oral and written history anthropology ethnography musicology material culture and modal aesthetics The book will appeal to ethnomusicologists anthropologists as well as those interested in international bagpipe studies and traditions

The Globalization of Irish Traditional Song Performance Susan H. Motherway,2016-03-09 In *The Globalization of Irish Traditional Song Performance* Susan Motherway examines the ways in which performers mediate the divide between local and global markets by negotiating this dichotomy in performance practice In so doing she discusses the globalizing processes that exert transformative influences upon traditional musics and examines the response to these influences by Irish traditional song performers In developing this thesis the book provides an overview of the genre and its subgenres illustrates patterns of musical change extant within the tradition as a result of globalization and acknowledges music as a medium for re negotiating an Irish cultural identity within the global Given Ireland s long history of emigration and colonisation globalization is recognised as both a synchronic and a diachronic phenomenon Motherway thus examines Anglo Irish song and songs of the Irish Diaspora Her analysis reaches beyond essentialist definitions of the tradition to examine evolving sub genres such as Country Irish Celtic and World Music She also recognizes the singing traditions of other ethnic groups on the island of Ireland including Orange Order Ulster Scots and Traveller song In so doing she shows the disparity between native conceptions and native realities in respect to Irish cultural Identity
