Louis Agassiz Fuertes & the Singular Beauty of Birds Frederick George Marcham, 1971 *Louis Agassiz Fuertes & the Singular Beauty of Birds* Louis Agassiz Fuertes, Frederick George Marcham, 1971-01-01 Louis Agassiz Fuertes & the singular beauty of birds Louis Agassiz Fuertes, **The Abyssinian Art of Louis Agassiz Fuertes in the Field Museum** Paul Johnsgard, 2020 This book documents the paintings and drawings executed by Louis Agassiz Fuertes during the Field Museum of Natural History's seven month expedition to Ethiopia Abyssinia in 1926-27. During that time Fuertes completed 70 field watercolors that illustrate 55 species of birds and four species of mammals. He also executed 34 pencil drawings which illustrate 13 species of mammals and 11 species of birds plus numerous miscellaneous sketches and small watercolors. This book identifies and describes the biology of all 69 species of birds and mammals illustrated by Fuertes and includes 32 color reproductions of Fuertes's watercolors that were published as a limited edition album in 1930 by the Field Museum. The 60,000 word text provides brief summaries of all these species' ecology, behavior, and reproductive biology, as well as information about their current populations and conservation status. A review of Fuertes's life, his influence on modern bird and wildlife art, and his participation in and artistic contributions to the Field Museum's Abyssinian Expedition is also included, as well as more than 250 bibliographic citations.

Eternity of Eagles Stephen J. Bodio, 2012-10-16 An Eternity of Eagles: The Human History of the Most Fascinating Bird in the World. A compulsively readable natural and social history. An Eternity of Eagles is a profusely illustrated celebration of all things eagle by a naturalist who has kept eagles himself and ridden with the eagle tribes of Central Asia. His vivid description of an eagle if it could imagine itself is of a carnivorous Buddhist. Through Bodio's insights, we get a strange glimpse of these other minds that share the earth with us. Annie Proulx, author of *The Shipping News* and *Brokeback Mountain*. From one of the foremost author-naturalists in the country, Stephen J. Bodio, comes a compulsively readable natural and social history of the most beautiful bird in the world, the eagle, with a lengthy and admiring introduction by Annie Proulx. *The Eagle's Shadow* traces our love-hate relationship to these living dinosaurs from Neolithic rock art and Native American religion through the practices of Kazakh falconers who use them to hunt wolves and to contemporary art and popular culture. Proulx sums up best the heart of this book: Those of us who are interested in bird behavior beyond the feeder or the identification guide book find meager pickings when it comes to information. I am fortunate that my house faces a cliff with a river at the base where I can watch raptors, water fowl, and a hundred other species. The nests of a pair of bald eagles and another upriver inhabited by golden eagles are in sight from the breakfast table. I have plenty of books on birds, but the information on why the big eagles do what they do is hard to dig out. Eagle behavior is usually lumped together with the general behavior of the Accipitrids, but a single book focused on the rich lore and sweep of eagledom did not seem to exist.

Bodio's beautifully written and authoritative book *Eagles* is a primary source of information as well as an omnium gatherum from literature, film, and mythology concerning these large striking birds. Stephen Bodio was born and educated in Boston and has lived in a rural New Mexico village for over thirty years. He has traveled extensively in Europe, Africa, and Asia and has written five books.
