Bowker's Complete Video Directory, 2000 **The Literature of Egypt and the Soudan from the Earliest Times to the Year 1885 Inclusive: A-L** Prince Ibrahim-Hilmy (son of Ismail, Khedive of Egypt), 1886 *Jacques Louis David: Radical Draftsman* Perrin Stein, Daniella Berman, Philippe Bordes, Mehdi Korchane, Louis-Antoine Prat, Juliette Trey, 2022-02-14 The first major exhibition catalogue to focus on Jacques Louis David's drawings and their pivotal role in the creation of his iconic history paintings. The paintings of Jacques Louis David 1748-1825 are among the most iconic in the history of Western art but comparatively little is known about his nearly two thousand drawings that formed the basis of beloved masterpieces such as *The Oath of the Horatii* and *The Death of Socrates*. Jacques Louis David *Radical Draftsman* accompanies the first major exhibition to focus on the artist's often years-long process of trial and experimentation from initial idea to finished canvas. Including several recently discovered drawings published here for the first time, this volume provides a new perspective on the celebrated master. Essays by international experts explore what David's preparatory works on paper reveal about his creative process and how they bear witness to the tumultuous years before, during, and after the French Revolution. As both a participant and an observer, David helped establish the new French society while documenting the drama, violence, and triumphs of modern history in the making. *French Paintings in The Metropolitan Museum of Art from the Early Eighteenth Century through the Revolution* Katharine Baetjer, 2019-04-15 This publication catalogues The Met's remarkable collection of eighteenth-century French paintings in the context of the powerful institutions that governed the visual arts of the time: the Académie Royale de Peinture et de Sculpture, the Académie de France à Rome, and the Paris Salon. At the height of their authority during the eighteenth century, these institutions nurtured the talents of artists in all genres. The Met's collection encompasses stunning examples of work by leading artists of the period, including Antoine Watteau, Mezzetin, Jean Siméon Chardin, *The Silver Tureen*, François Boucher, *The Toilette of Venus*, Joseph Siffred Duplessis, Benjamin Franklin, Jean-Baptiste Greuze, *Broken Eggs*, Hubert Robert, the Bagatelle decorations, Jacques-Louis David, *The Death of Socrates*, the Van Blarenberghes, *The Outer Port of Brest*, and François Gérard. Charles Maurice de Talleyrand-Périgord. In the book's introduction, author Katharine Baetjer provides a history of the Académie, its establishment, principles, and regulations, along with a discussion of the beginnings of public art discourse in France, taking us through the reforms unleashed by the Revolution. The consequent democratizing of the Salon, brought about by radicals under the leadership of Jacques-Louis David, encouraged the formation of new publics with new tastes in subject matter and genres. The catalogue features 126 paintings by 50 artists. Each section includes a short biography of the artist and in-depth discussions of individual paintings, incorporating the most up-to-date scholarship. **Leonardo Da Vinci Master Draftsman** Leonardo (da Vinci), Rachel Stern, Alison Manges, 2003 This handsome book offers a unified and fascinating portrait of Leonardo as draftsman, integrating his roles as artist, scientist, inventor, theorist, and teacher. 250 illustrations. **The Literature of Egypt and the Soudan**

Recollections of a Scientist Volume 2 Norman N. Greenwood, 2012 Recollections of a Scientist Volume 2 Expanding Horizons England and Europe 1948-1951 This illustrated book is the second volume of Memoirs of a distinguished internationally renowned scientist Professor Norman N Greenwood FRS It takes up the story of his life from the first moment he arrived in England as a research student from Australia in September 1948 Term had not yet started in Cambridge so he spent a hectic first month visiting and getting to know the members of his parents' families who lived in London and Brighton He also spent some time in the delightful countryside around Guildford and the Surrey Downs with a fellow passenger following a shipboard romance during the long trip from Melbourne He then visited the recently inaugurated Atomic Energy Research Establishment at Harwell in Berkshire where his former research supervisor was now a senior scientist in the chemistry division and had the exciting experience of seeing Europe's first recently commissioned nuclear reactor in operation In Cambridge he took up residence in a set of rooms in Sidney Sussex College and began research discussions with Professor Harry Emeléus FRS the most distinguished inorganic chemist in the UK at that time The unique charms of the Cambridge Colleges and the arcane procedures of the University itself are affectionately described and at various places throughout the book there are graphic representations of life in Cambridge in the late nineteen forties An early example is his description of the University's decision to allow for the first time in its seven centuries of existence women to be awarded substantive degrees rather than merely titular ones The first such degree to be conferred on a woman in an appropriately grand ceremony was on the enormously popular Queen Elizabeth consort of King George VI later known as The Queen Mother At a more mundane level post war austerity necessitated the rationing of food and many other items at levels that were even more severe than those in operation during the war WW2 The list given of a week's rations is a salutary reminder of those days Norman is a past master at describing in accessible terms the research work that he was doing in the laboratory and its wider significance He also gives perceptive descriptions of the international group of research chemists working in the laboratory at that time and of many members of staff As earlier in Melbourne he made the most of opportunities to attend lectures by famous visitors and distinguished

members of the University in other departments of the University There are memorable descriptions of a course of lectures given over two terms by Bertrand Russell on Philosophy and numerous other lectures by Science Nobel Laureates Vacations provided a wonderful opportunity to visit other places in England and Europe Just before Christmas 1948 he went with the Oxford and Cambridge Ski Clubs to Sestriere in the Italian Alps a splendid location for skiers of all abilities Directly following this and with virtually no money left he spent a memorable Christmas and New Year on his own exploring the wonders and glories of Paris And what wonders he describes He had a room in the Latin student Quarter at 350 francs per night i e 35p or 0 35 for bed and breakfast at the then exchange rate of 1 1000 francs The next vacation at Easter was to southern Scandinavia to visit his sister Margaret who had married a Swede in 1946 and was living on a small island in the Baltic Sea just off the coast near Karlskrona Volume 1 of these Recollections was dedicated to her on the occasion of her ninetieth birthday in 2012 The journey was also memorable for a different reason for it was on the Flying Scot en route to Newcastle upon Tyne to catch the ferry to Bergen in Norway that he first met Kirsten Rydland whom he later married in 1951 This Volume 2 is dedicated to her Norman was cl
