**Love and Politics in Outer Space** Harvey Stein, 1986      **Politics and the Order of Love** Eric Gregory, 2008-08-15

Augustine for all of his influence on Western culture and politics was hardly a liberal Drawing from theology feminist theory and political philosophy Eric Gregory offers here a liberal ethics of citizenship one less susceptible to anti liberal critics because it is informed by the Augustinian tradition The result is a book that expands Augustinian imaginations for liberalism and liberal imaginations for Augustinianism Gregory examines a broad range of Augustine s texts and their reception in different disciplines and identifies two classical themes which have analogues in secular political theory love and related notions of care solidarity and sympathy and sin as well as related notions of cruelty evil and narrow self interest From an Augustinian point of view Gregory argues love and sin constrain each other in ways that yield a distinctive vision of the limits and possibilities of politics In providing a constructive argument for Christian participation in liberal democratic societies Gregory advances efforts to revive a political theology in which love s relation to justice is prominent Politics and the Order of Love will provoke new conversations for those interested in Christian ethics moral psychology and the role of religion in a liberal society

**Adriana Cavarero** Elisabetta R. Bertolino, 2017-12-04 Critical legal scholars have made us aware that law is made up not only of rules but also of language But who speaks the language of law And can one lawfully speak in one s voice For the Italian philosopher Adriana Cavarero to answer these questions we must not separate who is speaking from the very act of speaking moreover we must recuperate the material singularity and relationality of the mouth that speaks Drawing on Cavarero s work this book focuses on the potentiality of the voice for resisting law s sovereign structures For Cavarero it is the voice that expresses one s living and unrepeatable singularity in a way that cannot be subsumed by the universalities and standards of law The voice is essentially a material and singular passage of air and vibration that necessarily reveals one s uniqueness in relationality Speaking discloses this uniqueness and

so one's vulnerability. It therefore leads to possibilities of resistance that here bring a fresh approach to longstanding legal theoretical concerns with singularity, ethics and justice.

**Ethics and Politics of Space for the Anthropocene** Anu Valtonen, Outi Rantala, Paolo D. Farah, 2020-10-30. Featuring an international multidisciplinary set of contributors, this thought-provoking book reimagines established narratives of the Anthropocene to allow differences in regions and contexts to be taken seriously, emphasising the importance of localised and situated knowledge. It offers critical engagement with the debates around the Anthropocene by challenging the dominant techno-rational agenda that often prevails in socio-political and academic discussions.

**The Politics of Love** Maxime Foerster, 2018-04-03. What would love be if heterosexual couples were no longer assigned gender and sexual norms? Maxime Foerster examines the heterosexual trouble between men and women in nineteenth-century French Romantic and Decadent literature. Key works by authors ranging from George Sand to Charles Baudelaire persistently demonstrate that heterosexuality did not work; these authors and many others investigated the struggle that men and women alike waged against patriarchal norms. Whereas Romantic fiction dedicated itself to the reinvention of love, Decadence promoted sexual and gender deviance. In expertly evaluating the discord afflicting fictional heterosexual couples, male and female dandies and doctors and their female patients, Foerster shows the crucial role that literature played in the fashioning of alternative identities. A concluding look at Proust's *la recherche du temps perdu* traces the legacy of heterosexual trouble in the twentieth century.

**Law and the Politics of Reconciliation** Scott Veitch, 2016-04-15. This collection of essays by an international group of authors explores the ways in which law and legal institutions are used in countries coming to terms with traumatic pasts and in some cases traumatic presents. In putting to question what is often taken for granted in uncritical calls for reconciliation, it critically analyses and frequently challenges the political and legal assumptions underlying discourses of reconciliation. Drawing on a broad spectrum of disciplinary and interdisciplinary insights, the authors examine how competing conceptions of law, time and politics are deployed in social transformations and how pressing demands for reconstruction, reconciliation and justice inform and respond to legal categories and their use of time. The book is genuinely interdisciplinary, drawing on work in politics, philosophy, theology, sociology and law. It will appeal to a wide audience of researchers and academics working in these areas.

**Politics of Religion/Religions of Politics** Alistair Welchman, 2014-10-20. The liberal enlightenment as well as the more radical left have both traditionally opposed religion as a reactionary force in politics, a view culminating in an identification of the politics of religion as fundamentalist theocracy. But recently a number of thinkers, Agamben, Badiou, Žižek and in particular Simon Critchley, have begun to explore a more productive engagement of the religious and the political in which religion features as a possible or even necessary form of human emancipation. The papers in this collection, deriving from a workshop held on and with Simon Critchley at the University of Texas at San Antonio in February 2010, take up the ways in which religion's encounter with politics transforms not only politics but also religion itself, molding it into various religions of politics, including not just

heretical religious metaphysics but also what Critchley describes as non metaphysical religion the faith of the faithless Starting from Critchley s own genealogy of Pauline faith the articles in this collection explore and defend some of the religions of politics and their implications Costica Bradatan teases out the implications of Critchley s substitution of humor for tragedy as the vehicle for the minimal self distancing required for any politics Jill Stauffer compares Critchley s non metaphysical religiosity with Charles Taylor s account of Christianity Alistair Welchman unpacks the political theology of the border in terms of god s timeless act of creation Anne O Byrne explores the subtle dialectic between mores and morality in Rousseau s political ethics Roland Champagne sees a kind non metaphysical religion in Arendt s category of the political pariah Davide Panagia presents Critchley s ethics of exposure as the basis for a non metaphysical political bond Philip Quadrio wonders about the political ramifications of Critchley s own mystical anarchism and Tina Chanter re reads the primal site in the Western tradition at which the political and the religious intersect the Antigone story side stepping philosophical interpretations of the story dominated by Hegel s reading by means of a series of post colonial re imaginings of the play The collection concludes with an interview with Simon Critchley taking up the themes of the workshop in the light of more recent political events the Arab Spring and the rise and fall of the Occupy movement

*On the Politics of Ugliness* Sara Rodrigues, Ela Przybylo, 2018-08-29 Ugliness or unsightliness is much more than

a quality or property of an individual's appearance it has long functioned as a social category that demarcates access to social, cultural and political spaces and capital. The editors and authors in this collection harness intersectional and interdisciplinary approaches in order to examine ugliness as a political category that is deployed to uphold established notions of worth and entitlement. *On the Politics of Ugliness* identifies and challenges the harmful effects that labels and feelings of ugliness have on individuals and the socio-political order. It explores ugliness in relation to the intersectional processes of racialization, colonization and settler colonialism, gender, making, ableism, heteronormativity and fatphobia. *On the Politics of Ugliness* asks that we fight against visual injustice and imagine new ways of seeing. **Silent Cinema and the**

**Politics of Space** Jennifer M. Bean, Anupama Kapse, Laura Horak, 2014-04-02 In this cross-cultural history of narrative cinema and media from the 1910s to the 1930s, leading and emergent scholars explore the transnational crossings and exchanges that occurred in early cinema between the two world wars. Drawing on film archives from around the world, this volume advances the premise that silent cinema freely crossed national borders and linguistic thresholds in ways that became far less possible after the emergence of sound. These essays address important questions about the uneven forces—geographic, economic, political, psychological, textual and experiential—that underscore a non-linear approach to film history. The messiness of film history as demonstrated here opens a new realm of inquiry into unexpected political, social and aesthetic crossings of silent cinema. Epistolary Narratives of Love, Gender and Agonistic Politics Maria

Tamboukou, 2023-09-30 This book revolves around epistolary narratives of women political theorists and activists following traces of Hannah Arendt's philosophical approaches to love and agonistic politics. Arendt's interlocutors are four revolutionary women in the long durée of the nineteenth and twentieth centuries in Europe and the USA: the romantic socialist Désirée Vernet Gay, the Marxist Rosa Luxemburg, the anarchist Emma Goldman and the labour activist Rose Pesotta. The book's central argument is that Arendt's philosophical thought can throw light on dangerous liaisons between love, gender and agonistic politics, further making connections with feminist ruminations around love as an existential force in the ephemeral constitution of the female self in modernity. Drawing on extended research with physical, digital and published archival collections, the book responds to the challenges of the digital turn and highlights the importance of memory work as a way of understanding the lasting effects of the past on the present. As such, *Epistolary Narratives of Love, Gender and Agonistic Politics* will appeal to scholars of sociology and gender studies with interests in research methods, particularly archival methods, the work of Arendt, feminist thought and memory studies. Hannah Arendt and the Politics of Friendship Jon

Nixon, 2015-01-29 This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). For Hannah Arendt, friendship had political relevance and importance. The essence of friendship, she believed, consisted in discourse, and it is only through discourse, she argued, that the world is rendered humane. This book explores some of the key ideas in Hannah Arendt's work through a study of four lifelong friendships with Heinrich

Bl cher Martin Heidegger Karl Jaspers and Mary McCarthy The book draws on correspondence from both sides illuminating our understanding of the social contexts within which Arendt s thinking developed and was clarified It offers a cultural history of ideas shedding light on two core ideas in Arendt of plurality and promise and on how those particular ideas emerged through a particular set of relationships at a significant moment in the history of the West This book offers an original and accessible way in to Arendt s work for students and scholars of politics philosophy intellectual history and literature
