Merchant Family In Early Natal:

From Memory to Marble Elizabeth Rankin, Rolf Michael Schneider, 2020-09-07 For the first time the 92 metre frieze of the Voortrekker Monument in Pretoria one of the largest historical narratives in marble has been made the subject of a book The pictorial narrative of the Boer pioneers who conquered South Africa's interior during the Great Trek 1835-52 represents a crucial period of South Africa's past Conceptualising the frieze both reflected on and contributed to the country's socio-political debates in the 1930s and 1940s when it was made The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid as well as its place in post-apartheid heritage The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument Based on unpublished documents drawings and models these processes are unfolded step by step from the earliest discussions of the purpose and content of the frieze through all the stages of its design to its shipping to post-war Italy to be copied into marble from Monte Altissimo up to its final installation in the Monument The book examines how visual representation transforms historical memory in what it chooses to recount and the forms in which it is depicted The second volume expands on the first by investigating each of the twenty-seven scenes of the frieze in depth providing new insights into not only the frieze but also South Africa's history Françoise van Schalkwyk of African Minds co-publisher with De Gruyter writes From Memory to Marble is an open access monograph in the true sense of the word Both volumes of the digital version of the book are available in full and free of charge from the date of publication This approach to publishing democratises access to the latest scholarly publications across the globe At the same time a book such as From Memory to Marble with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials demands reception of a more traditional kind that is on the printed page For this reason the book is likewise available in print as two separate volumes The printed and digital books should not be seen as separate incarnations each brings its own advantages working together to extend the reach and utility of From Memory to Marble to a range of interested readers For more material you can browse at Stanford's database Voortrekker Monumentality a digital archive

Reading Spaces in South Africa, 1850-1920s Archie L. Dick, 2020-11-26 Voluntary societies and government initiatives stimulated the growth of reading communities in South Africa in the second half of the nineteenth century A system of Parliamentary grants to establish public libraries in country towns and villages nurtured a lively reading culture A condition was that the library should be open free of charge to the general public This became one more reading space and others included book societies reading societies literary societies debating societies mechanics institutes and mutual improvement societies This Element explains how reading communities used these spaces to promote cultural and literary development in a unique ethos of improvement and to raise political awareness in South Africa's colonial transition to a Union government and racial segregation

Imperial Boredom Jeffrey A. Auerbach, 2018-10-03 Imperial Boredom offers a radical reconsideration of the British Empire during its heyday in the

nineteenth century Challenging the long established view that the empire was about adventure and excitement with heroic men and intrepid women eagerly spreading commerce and civilization around the globe this thoroughly researched engagingly written and lavishly illustrated account suggests instead that boredom was central to the experience of empire Combining individual stories of pain and perseverance with broader analysis Professor Auerbach considers what it was actually like to sail to Australia to serve as a soldier in South Africa or to accompany a colonial official to the hill stations of India He reveals that for numerous men and women from explorers to governors tourists to settlers the Victorian Empire was dull and disappointing Drawing on diaries letters memoirs and travelogues Imperial Boredom demonstrates that all across the empire men and women found the landscapes monotonous the physical and psychological distance from home debilitating the routines of everyday life wearisome and their work tedious and unfulfilling The empires early years may have been about wonder and marvel but the Victorian Empire was a far less exciting project Many books about the British Empire focus on what happened this book concentrates on how people felt

British settlers in Natal, 1824-1857 Shelagh O'Byrne Spencer, 1981 Servants and Gentlewomen to the Golden Land Cecillie Swaisland, 1993-05-11 Too often the emigration of women has been treated as an adjunct to that of men especially in the case of families travelling together In significant ways however the emigration of single women from Britain in the 19th and early 20th centuries was distinct from the general movement It was rooted in the main in those features of British society peculiar to their sex and also in conditions in the colonies that made the venture possible for them What factors would cause a woman to leave all she has known for the uncertainty and danger of a wild colony half a world away How did these women adapt to the unique circumstances of life in southern Africa These are some of the questions addressed by the author herself the daughter of an emigrant couple in this fascinating book The author not only explores the larger issues of single women s emigration to southern Africa but also presents the compelling experiences of individual women as seen through documents by them and people who knew them
