

Merchant In German Literature Of The Enlightenment

Joseph Twist

Merchant In German Literature Of The Enlightenment:

The Merchant in German Literature of the Enlightenment John Walter Van Cleve, 1986 **The Merchant in German Literature of the Enlightenment** John W. Van Cleve, [The Merchant in German Literature of the Enlightenment](#) John W. Van Cleve, 2020-05-01 John Van Cleve analyzes the influence of the merchant class on what Leo Balet termed the Verburgerlichung the becoming middle class of German literature during the eighteenth century He describes the origins and development of the class and examines its successive images in works by Haller Schnabel Borkenstein Luise Gottsched J E Schlegel Gellert and Lessing Between the years 1729 and 1750 merchants were better able to lend financial support to the literary world than were civil servants and professionals Although merchants were central in the cultural life of the German states they were usually less educated than other members of their social stratum and therefore less disposed to literature Tradition has cast the merchant class in a highly unflattering light as ethically indefensible Van Cleve s in depth analysis traces the evolution of attitudes toward merchants from negative underdeveloped images to positive heroic portrayals **Philosophy and German Literature, 1700-1990** Nicholas Saul, 2002-05-02 Although the importance of the interplay of literature and philosophy in Germany has often been examined within individual works or groups of works by particular authors little research has been undertaken into the broader dialogue of German literature and philosophy as a whole Philosophy and German Literature 1700 1990 offers six chapters by leading specialists on the dialogue between the work of German literary writers and philosophers through their works The volume shows that German literature far from being the mouthpiece of a dour philosophical culture dominated by the great names of Leibniz Kant Hegel Marx Heidegger and Habermas has much more to offer while possessing a high affinity with philosophy it explores regions of human insight and experience beyond philosophy s ken **Place and Politics: Local Identity, Civic Culture, and German Nationalism in North Germany during the Revolutionary Era** Katherine Aaslestad, 2005-12-01 This study examines North Germany during the transformative era of the French Revolution Napoleonic occupation and Wars of Liberation it reveals international exploitation military occupation economic destruction of the city state Hamburg as well as the republic s liberation and post Napoleonic autonomy Examining shifts within local culture and the role of public opinion on civic morality this book underscores the relationship between the civic ethics public language and collective memory in the construction of political identity and concludes that the transformation in values at the local level ultimately provides the crucial direction in the process of modern nation building Throughout the 1800s the public commemoration and memory of occupation and liberation rather than the actual Napoleonic experience shaped the development of German nationalism **Early Modern Germany, 1477-1806** Michael Hughes, 1992-05 Attempts to present a coherent account of early modern German history are often hampered by the German equivalent of the Whig theory of history by which all useful roads lead up to the creation of the nineteenth century power state Machstaat or institutional state Anstaltsstaat In this kind of historiography there are large

blank areas between the important events like the Reformation the Thirty Years War the Seven Years War and the French Revolution During the intervals of apparent stagnation between these events Germany seems to disappear to be replaced by states such as Prussia and Austria Saxony Bavaria and the Palatinate Substantial areas are ignored and groups such as the parliamentary Estates which stood in the way of state building are virtually written out of most accounts Rather than focusing on the separate histories of the individual German states Michael Hughes looks to the structure of the Holy Roman Empire in its final centuries and writes an account of Germany as a functioning federative state with institutions capable of reform and modernization For nineteenth and twentieth century historians the Empire was seen as the embodiment of division and weakness But by examining the first Reich Hughes reveals the persistence of the idea of Germanness and German national feeling during a period when according to most accounts Germany had virtually ceased to exist At the same time he examines the element of continuity in Germany's development in an attempt to discover how far back in Germany's past it is necessary to go to find the roots of the German problem the Germans search for a political expression of their strongly developed awareness of cultural unity

The Classical Era Professor Neal Zaslaw, 2016-07-14 From the series examining the development of music in specific places during particular times this book looks at the classical period in Europe and America from Vienna and Salzburg to the Iberian courts and Philadelphia

The Politics of Jewish Commerce Jonathan Karp, 2008-07-21 This study demonstrates the centrality of economic rationales to debates on Jews' status in Italy Britain France and Germany during the course of two centuries It delineates the common themes that informed these debates the ideal republic and the ancient constitution the conflict between virtue and commerce and the notion of useful and productive labor It thus provides an overview of the political economic dimensions of Jewish emancipation literature of this period This overview is viewed against the backdrop of broader controversies within European society over the effects of commerce on inherited political values and institutions By focusing on economic attitudes toward Jews the book also illuminates European intellectual approaches toward economic modernity By elucidating these general debates it renders more contemporary Jewish economic self-conceptions and the enormous impetus that Jewish reformist movements placed on the Jews' economic and occupational transformation fully explicable

Bach's Changing World Carol Baron, 2006 This work documents how the Leipzig middle class and other German communities responded to a variety of religious cultural and social demands that emerged during the years of trusted community member and composer Bach's lifetime

The Elusiveness of Tolerance Peter R. Erspamer, 2020-05-01 Peter Erspamer explores the Jewish question in German literature from Lessing's *Nathan der Weise* in 1779 to Sessa's *Unser Verkehr* in 1815 He analyzes the transition from an enlightened emancipatory literature advocating tolerance in the late eighteenth century to an anti-Semitic literature with nationalistic overtones in the early nineteenth century Erspamer examines *Nathan* in light of Lessing's attempts to distance himself from the excesses of his own Christian in-group through pariah identification using an idealized member of an out-group religion

as a vehicle to attack the dominant religion He also focuses on other leading advocates of tolerance and explores changes in Jewish identity particularly the division of German Jewry into orthodox Jews adherents of the Haskalah and converted Jews

New Seeds of Profit Mark S. Ferrara,2019-04-19 When Captain Christopher Newport and his crew landed on the muddy banks of the James River in 1607 after four months at sea they aimed to establish a new colony not for God or the greater good of humanity but for the sake of profit The Pilgrims who settled in Cape Cod in 1620 as agents of Plymouth Company found evidence of divine election in the fortunes they accumulated from a lucrative system of town founding in the New World The innovative and often ruthless entrepreneurs who followed these colonists carved out the immense North American frontier wilderness from the Atlantic Ocean to the golden sands of the California coast and they forged industrial and technological revolutions that shook the world *New Seeds of Profit* examines the role of business leaders from George Washington to Donald Trump in shaping the United States into a business nation unlike any other in world history By tracing the influence of industry and commerce on American society through portraits of successful entrepreneurs this book sheds light on the esteemed place Americans reserve for their wealthiest business leaders and it measures the true cost of that adulation by demonstrating how enterprise driven solely by the bottom line imperils people and the environment In a story teeming with the heroes and villains of enterprise *New Seeds of Profit* offers an innovative business model that provides meaningful work to employees and socially responsible returns to investors while encouraging sustainable stewardship of the earth and advancing the common good

The Word Unheard Martha B. Helfer,2011-11-30 Between 1749 and 1850 the formative years of the so called Jewish Question in Germany the emancipation debates over granting full civil and political rights to Jews provided the topical background against which all representations of Jewish characters and concerns in literary texts were read Helfer focuses sharply on these debates and demonstrates through close readings of works by Gotthold Lessing Friedrich Schiller Achim von Arnim Annette von Droste H Lshoff Adalbert Stifter and Franz Grillparzer how disciplinary practices within the field of German studies have led to systematic blind spots in the scholarship on anti-Semitism to date

German Literature Nicholas Boyle,2008-02-28 German writers from Luther and Goethe to Heine Brecht and G nter Grass have had a profound influence on the modern world This Very Short Introduction presents an engrossing tour of the course of German literature from the late Middle Ages to the present focussing especially on the last 250 years Emphasizing the economic and religious context of many masterpieces of German literature it highlights how they can be interpreted as responses to social and political changes within an often violent and tragic history The result is a new and clear perspective which illuminates the power of German literature and the German intellectual tradition and its impact on the wider cultural world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging

topics highly readable German Merchants in the Nineteenth-Century Atlantic Lars Maischak,2013-04-29 Studies the ties between America and Bremen in the nineteenth century illuminating the role of merchant capital in making an industrial capitalist world economy

Imagology Profiles Laura Laurušaitė,2018-07-27 This volume highlights the importance of imagology one of the most popular areas of research in contemporary comparative studies It proposes new means of academic analysis to create critical attitudes towards the development of imagological studies The topics discussed draw a wide trajectory from classical to marginal images from national heroes to un conventional aspects of gender from ethno imagology to the broader dimension of intercultural references and epistemological post poststructuralist changes The compendium widens the field of imagology by introducing concepts such as geo imagology and imagology of gender and by linking the imagological strategy with the power principle developed by post colonialism and with the fictional project of an imaginary utopian society The essays selected include case studies focusing on the works of individual authors as well as broader insights concentrating on regional national and transnational identities that experienced a change of imagery due to historical political and social shifts The book pays particular attention to the aspects of mobile imagery the emergence of peripheral identities related to gender class ethnicity or race and the detection and assessment of well established stereotypes The scope of the topics discussed and the variety of periods covered imply the universal nature and versatile applicability of literary imagology

The Visionary Realism of German Economics Erik S. Reinert,2019-02-15 The Visionary Realism of German Economics forms a collection of Erik S Reinert s essays bringing the more realistic German economic tradition into focus as an alternative to Anglo Saxon neoclassical mainstream economics Together the essays form a holistic theory explaining why economic development by its very nature is a very uneven process Herein lie the important policy implications of the volume

Modern German Literature Jethro Bithell,2020-01-31 Originally published in 1939 and revised in 1959 this book traces back to their origins the literary movements and phases of German literature of 1880 to 1950 as they occur and shows how and why they pass over into succeeding phases It closely analyses Naturalism Impressionism Neo romanticism and Expressionism as well as dealing exhaustively with Surrealism Magic Realism and Existentialism The book includes discussion of post war Anglo American and French literature

Theodor Herzl Jacques Kornberg,1993-11-22 An original and brilliant thesis exposing a long misunderstood figure A great book Bernard Avishai Excellent a highly revealing portrait that demolishes Herzl the icon Michael Marrus Other biographers have illuminated aspects of Herzl s life but none has been able to produce the kind of intellectual biography that we have here Jacques Kornberg has done an admirable job of plumbing the depths of Herzl s mind to try to come to an understanding of just why he became a Zionist and why he was literally consumed with promoting Zionist goals Cithara With compassion and critical balance placing his subject well within his Austrian milieu Kornberg analyzes Herzl s rhetoric tergiversations and profound ambivalence over his politics and identity Choice a masterful display of the sources American Historical Review stimulating

provocative and agreeably iconoclastic powerful and compelling German History A novel and provocative explanation of Theodor Herzl s founding of Zionism as a way of resolving his personal crisis over his Jewish identity **Mystical Islam and Cosmopolitanism in Contemporary German Literature** Joseph Twist,2018 Highlights the spirituality and cosmopolitanism of four contemporary German Muslim writers showing that they undermine the clash of civilizations narrative and open up space for new ways of coexisting *Great Nations at Peril* Jürgen Backhaus,2014-11-27 This book was prompted by the current lingering financial crisis which has its basis in the disorderly financial practices of the United States These practices have resulted in an accumulated debt which now requires the United States to run financial policies at artificially low interest rates In principle these low interest rates should flood the markets with ready money Since the spread for banks is very thin however and they must carefully discriminate between available risks and finance only those propositions with no risk credit is not abundantly available With staggering foreign debt and a myriad of other perils looming this great nation is at peril for sure In the tradition of the Heilbronn Symposium the authors look at historical cases as a means of understanding the current situation and informing possible solutions to a problem that continues to affect the global economy The volume analyzes cases such as Prussia Greece Italy Estonia and the European Union This book will be of interest to scholars and students of economic history as well as policy makers who may benefit from an historical understanding of the economic challenges their countries currently face

Merchant In German Literature Of The Enlightenment Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is actually remarkable.
