Merchants, Companies, and Trade Sushil Chaudhury, Michel Morineau, 1999 **Merchants, Companies and Trade** Fondation Maison des sciences de l'homme (Paris, France), 1999-06-24 Written by well known scholars this book raises pertinent questions and takes up alternate perspectives on the growth and development of international trade between Europe and Asia especially India in the sixteenth to eighteenth centuries Through a comparative and comprehensive study of merchant communities markets and commodities the individual authors argue contrary to conventional views that Asian merchants were in no way inferior to Europeans in terms of their commercial operations and business acumen The book emphasizes the continuing and growing importance of India's overland trade even in the seventeenth to eighteenth centuries traces the little known world of Armenian merchants the hitherto obscure but voluminous Indian trade with the Ottoman Empire and by unearthing new evidence demonstrates that the export activity of Asian merchants through the overland route from Bengal was higher in fact than the combined total of European exports **Merchants to Multinationals** Geoffrey Jones, 2002-03-07 Merchants to Multinationals examines the evolution of multinational trading companies from the eighteenth century to the present day During the Industrial Revolution British merchants established overseas branches which became major trade intermediaries and subsequently engaged in foreign direct investment Complex multinational business groups emerged controlling large investments in natural resources processing and services in Asia Latin America and Africa While theories of the firm predict the demise over time of merchant firms this book identifies the continued resilience of British trading companies despite the changing political and business environments of the twentieth century Like Japanese trading companies they re-invented themselves in successive generations The competences of the trading companies resided in their information gathering relationship building human resource and corporate governance systems This book provides a new dimension to the literature on international business through the focus on multinational service firms and its evolutionary approach based on confidential business records **Merchants, Companies, and Commerce on the Coromandel Coast, 1650-1740** Sinnappah Arasaratnam, 1986 In this in depth history of India's eastern coastline during the late medieval and early modern periods the author unearths fresh empirical data from the records of the Dutch and English East India Companies to reconstruct the life and livelihood of the region He discusses its geographical and economic boundaries its topography and climate its ports and trading outlets and examining the unity of the area from a variety of perspectives Companies, Commerce and Merchants Sushil Chaudhury, 2016-09-13 This anthology vastly expands our understanding of the much misconstrued history of early modern Bengal and seeks to redress the misconception that economic decline in Bengal set in even before the British conquest of the region Based on original sources from European and Indian archives and libraries the essays underline that Bengal had a prosperous economy in the mid eighteenth century and was suffering from neither economic nor political crisis **The Hong Merchants of Canton**
