Mermaid And The Minotaur Sexual Arrangements And Human Malaise:

The Mermaid and The Minotaur Dorothy Dinnerstein, 2021-01-12 A seminal text in the women's movement Ethel S Person author of *The Sexual Century* Still the most important work of feminist psychoanalytic exploration its re-release is a celebratory occasion Eli Sagan author of *Freud Women and Mortality* *The Mermaid and the Minotaur* continues to astonish us with the depth and wisdom of its psychoanalytic approach even as its major ideas have become as unobtrusively essential to psychoanalytic feminism as the atmosphere Jessica Benjamin author of *The Bonds of Love* Over Dorothy Dinnerstein's 'The mermaid and the minotaur' Sylvie, 1980 **The Changing American Family and Public Policy** Andrew J.

Cherlin, 1988 This book brings social science perspective to bear on family change and family policy identifies the determinants of change and analyzes the role that government has played and can play in affecting the course of family life

Recent Trends in Theoretical Psychology Henderikus J. Stam, Leendert P. Mos, Warren Thorngate, Bernie Kaplan, 2012-12-06 I was asked and alas with little reflection on the magnitude of the task thoughtlessly consented to take on the simple job of writing a preface to the collection of essays comprising this volume That I was asked to carry out this simple task was probably due to one consideration I was the main representative of the host institution Clark University for the 1991 ISTP Conference at which the talks foreshadowing and outlining the extended remarks here printed were originally presented and hence as a token of gratitude I was vouchsafed the honor of setting the stage It did not dawn on me until I began piecemeal to receive and accumulate over a period of months the remarkably diverse and heterogeneous essays precipitated by the conference how mind boggling it would be to pen a preface pertinent to such an aggregate of prima facie unrelated articles Typically prefaces to collections of essays from different hands are attempts by the prefator or a pride of prefators to provide an overview a concise map of the complex terrain which readers are invited to enter or to direct the attention of potential readers to what the editors take to be the essential or central themes of each of the variegated articles a practice which not infrequently and often not unjustifiably irritates and even enrages individual authors who object to the complexity profundity and nuanced character of their thought being reduced to clicMs and editorial equivalents of sound bites *Passport to Heaven (RLE Women and Religion)* Kathleen S. Lowney, 2014-10-03 This book focuses on the gender

roles within the Unification Church and on particularly the gender roles as expressed through the vows of marriage It examines the more widely shared patriarchal assumptions about women in a circumscribed socio religious environment with the Church's gender role system being investigated largely on the level of its theological explanations for gender roles The Church's ethos its lived reality is also examined and for this many interviews have been conducted with the blessed the married couples First published in 1992 **The Imaginary Australian** Miriam Dixson, 1999 Examination of the nature of Australian national identity includes reference to Aborigines discussed in terms of violence racism guilt remorse and memory questions the characterisation of race relations through forgetting and silence Stanner and violence Rowley argues that

simplified historical narratives about race relations impede reparative energy in race relations psychological understanding of racism theories of the nation crisis of history and time in Australia and its impact on identity The Routledge Companion to Feminism and Postfeminism Sarah Gamble,2004-11-23 Approachable for general readers as well as for students in women s studies related courses at all levels this invaluable guide follows the unique Companion format in combining over a dozen in depth background chapters with more than 400 A Z dictionary entries The background chapters are written by major figures in the field of feminist studies and include thorough coverage of the history of feminism as well as extensive discussions of topics such as Postfeminism Men in Feminism Feminism and New Technologies and Feminism and Philosophy The dictionary entries cover the major individuals and issues essential to an understanding both of feminism s roots and of the trends that are shaping its future Readers will find entries on people such as Aphra Behn Simone de Beauvoir Princess Diana Courtney Love and Robert Bly and on subjects such as Afro American feminism cosmetic surgery the new man prostitution reproductive technologies and slasher films *Genders 21* Carol Siegel,Ann M. Kibbey,1995-07 Forming and Reforming Identity exposes the historical sites of identity formation and seeks to define the mechanisms of modern day gender ideologies Illuminating the power of the family and state in shaping gender identities the book also examines the constitution of these identities Each chapter reveals the complexities and contradictions that inevitably accompany the formation of any new category of identity whether they are deliberately restrictive or intended as a reformation of the old The volume moves as gender construction does across a field of different media novels plays teleplays films official documents political theory and advertisements Four sections REMOLDING WOMAN REBELLING MAN HOMEMADE IDENTITIES and FEMINISMS THAT MAKE A DIFFERENCE address such subjects as the representation of American women in the 1950s nationalism and respectable sexuality in India women Hollywood cinema and World War II compulsory heterophobia and the televising of AIDS **Engenderings** Naomi Scheman,2014-02-25 Naomi Scheman argues that the concerns of philosophy emerge not from the universal human condition but from conditions of privilege Her books represents a powerful challenge to the notion that gender makes no difference in the construction of philosophical reasoning At the same time it criticizes the narrow focus of most feminist theorizing and calls for a more inclusive form of inquiry *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1979 The Case for Gay Rights David A. J. Richards,2005 As Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance and conscience that underpin these often heated debates The distillation of Richards s thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives He places in context two key Supreme Court cases the 1986 Bowers v Hardwick decision and the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man

Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description

Feminist Research Methods Joyce McCarl Nielsen,2019-04-02 Feminist inquiry has affected the nature of research in all the social and natural sciences over the past decade but much contemporary writing on feminist methods simply offers a critique of traditional methods This book one of the first to offer a practical guide to conducting research informed by feminist methods is based on the premise that abstract discussion of methodological issues is most meaningful and instructive in conjunction with examples of actual research A comprehensive and far reaching introduction defines feminist research and explains how it differs from traditional methodology in the social and natural sciences In a beautifully clear style Dr Nielsen guides the reader through a number of philosophy of science history of science and sociology of knowledge issues that are fundamental to understanding the nature of scientific method in its traditional sense and the role of feminist scholarship in the larger intellectual movement that is transforming and redefining scientific methodology Part One presents the best of feminist commentary on both feminist and traditional methods Part Two consists of readings that illustrate particular feminist methods including oral history linguistic analysis feminist anthropology informed by feminist literary criticism and reinterpretation and reanalysis of empirical data from a feminist perspective Substantive issues addressed in the readings include women's suffrage in the United States women as shamans sex differences in suicide rates sex differences in cognitive abilities gender dominance through conversation gender and public policy and public private sphere dichotomies **Sex and Gender** Hilary M. Lips,2020-04-10 Are sex and gender really two different things How malleable is gender identity Do both gender and sex have to be conceptualized as binaries as having two distinct but complementary categories Should we emphasize gender differences or is that the wrong question When should we call a gender difference small Are women really nonaggressive or does that label stem from stereotyping How does subtle or modern sexism work on its targets Scholarship on these and other gender related questions has exploded in recent years Hilary Lips synthesizes that research for students in an accessible and readable way Concepts on sex and gender are presented with the social context in which they were developed As in previous editions Lips takes a multicultural approach discussing the gender experiences of people from a wide range of races cultures socioeconomic statuses and gender and sexual identities She emphasizes empirical research but takes a critical approach to that research **Women Analyze Women** Elaine Baruch,Elaine

Hoffman Baruch, 1991-09 Presented here is a new form of psychoanalysis one that is centered on women as seen by women Women Analyze Women contains interviews with nineteen of the most prominent and innovative women analysts and writers The authors have persuaded them to speak freely on topics such as feminism sexuality love gender differences and sometimes their lives as analysts and analysts' political activists wives and mothers Personal and intimate these sessions cut across theoretical barriers and allow the analysts to speak directly and candidly as the following excerpt from the interview with Joyce McDougall shows Men and women deal with tender and erotic feelings differently If I speak in very simple terms it seems to me that women are constantly eager to stabilize their love relationships and within those their sexual relationships They are always terrified of abandonment rejection and loss The men are terrified of getting caught It is a wonder that the sexes ever get together at all Men are frantic about getting trapped and women are frantic about being left The book offers intriguing provocative and stimulating discussions of critical issues revealing a number of startling differences and remarkable similarities among the more avant garde French analysts and the more traditional Anglo American schools

The Rites of Men Varda Burstyn, 1999-01-01 It gathers more spectators on a global basis than any other activity today More than just a game sport has profound political and social consequences promoting a super aggressive ideal of manhood and political culture

Healing Identities Cynthia Burack, 2018-08-06 Group identifications famously pose the problem of destructive rhetoric and action against others Cynthia Burack brings together the theory work of women of color and the tools of psychoanalysis to examine the effects of group collaborations for social justice and progressive politics This juxtaposition illuminates some assumptions about race and equality encoded in psychoanalysis Burack's discursive analysis suggests the positive identity affirming aspects of group relational life for African American women One analytic response to groups emphasizes the dangers of these identifications and exhorts people to abandon or transcend them for their own good and for the good of others who may be harmed by group based forms of cultural or material violence Another response understands that people feel a need for group identifications and asks how they may be made more resistant to malignant group based discourse and action What can black feminist thought teach scholars and democratic citizens about groups Burack shows how the rhetoric of black feminism models reparative rather than destructive forms of group dialogue and action Although it may be impossible to eliminate group identifications that provide much of the impetus for bias and violence she argues we can encourage more progressive forms of leadership solidarity and coalition politics
