Magic and Ritual in Tibet Stephan Beyer, 2013-01-01 The real history of man is the history of religion The truth of the famous dictum of Max Muller the father of the History of Religions is nowhere so obvious as in Tibet Western students have observed that religion and magic pervade not only the forms of Tibetan art politics and society but also every detail of ordinary human existence And what is the all pervading religion of Tibet Buddhism of that country has been described to us of course but that does not mean the question has been answered The unique importance of Stephan Beyer s work is that it presents the vital material ignored or slighted by others the living ritual of Tibetan Buddhists The reader is made a witness to cultic proceedings through which the author guides him carefully He does not force one to accept easy explanations nor does he direct one s attention only to aspects that can be counted on to please He leads one step by step without omitting anything through entire rituals and interprets whenever necessary without being unduly obtrusive Oftentimes as in the case of the many hymns to the goddess Tara the superb translations speak directly to the reader and it is indeed as if the reader himself were present at the ritual
