Mervelous Signals:

    Mervelous Signals Eugene Vance,1989-01-01 The investigation of language of how and what and why signifiers signify is prominent in modern critical work but the questions being asked are by no means new In Mervelous Signals Eugene Vance asserts that there is scarcely a term practice or concept in contemporary theory that does not have some rich antecedent in medieval thought He goes on to illustrate the complexity and depth of medieval speculations about language and literature Vance s study of the link between the poetics and semiotics of the Middle Ages takes both a critical and a historical view as he brings today s insights to bear on the contemporary perspectives of such works as St Augustine s Confessions the Chanson de Roland Chr tien s Yvain Aucassin and Nicolette Spenser s The Faerie Queen and certain aspects of the works of Dante and Chaucer and of French medieval theater **Andreas Capellanus on Love?** K. Andersen-Wyman,2007-06-25 Andersen Wyman s book undoes most scholarly uses and understandings of De amore by Andreas Capellanus By offering a reading promoted by the text itself Andersen Wyman shows how Andreas undermines the narrative foundations of sacred and secular institutions and renders their power absurd **Vertical Readings in Dante's Comedy** George Corbett,Heather Webb,2016-12-12 This collection to be issued in three volumes offers an unprecedented repertoire of vertical readings for the whole poem As the first volume exemplifies vertical reading not only articulates unexamined connections between the three canticles but also unlocks engaging new ways to enter into core concerns of the poem The three volumes thereby provide an indispensable resource for scholars students and enthusiasts of Dante The volume has its origin in a series of thirty three public lectures held in Trinity College the University of Cambridge 2012 2016 which can be accessed at the Cambridge Vertical Readings in Dante s Comedy website *Job, Boethius, and Epic Truth* Ann W. Astell,2019-03-15 Calling into question the common assumption that the Middle Ages produced no secondary epics Ann W Astell here revises a key chapter in literary history She examines the connections between the Book of Job and Boethius s Consolation of Philosophy texts closely associated with each other in the minds of medieval readers and writers and demonstrates that these two works served as a conduit for the tradition of heroic poetry from antiquity through the Middle Ages and into the Renaissance As she traces the complex influences of classical and biblical texts on vernacular literature Astell offers provocative readings of works by Dante Chaucer Spenser Malory Milton and many others Astell looks at the relationship between the historical reception of the epic and successive imitative forms showing how Boethius s Consolation and Johan biblical commentaries echo the allegorical treatment of epic truth in the poems of Homer and Virgil and how in turn many works classified as romance take Job and Boethius as their models She considers the influences of Job and Boethius on hagiographic romance as exemplified by the stories of Eustace Custance and Griselda on the amatory romances of Abelard and Heloise Dante and Beatrice and Troilus and Criseyde and on the chivalric romances of Martin of Tours Galahad Lancelot and Redcrosse Finally she explores an encyclopedic array of interpretations of Job and Boethius in Milton s Paradise Lost Paradise Regained and

Samson Agonistes **Medieval Arts Doctrines on Ambiguity and Their Places in Langland's Poetics** John Chamberlin,2000 He deals with lexical ambiguity and the ambiguity of words as words in which words themselves are taken as objects offering linguistic philosophical and historical perspectives BOOK JACKET **Chaucer and the Politics of Discourse** Michaela Paasche Grudin,1996 A detailed study of Chaucer s fascination with communication as a reciprocal process between speaker and listener which considers the importance of discourse for social order and the ways in which Chaucer used it against authority **Musica Naturalis** Philipp Jeserich,2013-11 A critical study of the relationship between poetics and music theory in medieval culture and aesthetics Musica Naturalis delivers the first systematic account of speculative music theory as a discursive horizon for literary poetics The title refers to the late medieval French poet Eustache Deschamps whose 1392 treatise on verse writing L Art de Dictier famously casts verse as natural music in explicit distinction to song which Deschamps defines as artificial Philipp Jeserich links the significance of the speculative branch of medieval musicology to literary theory and literary production opening up a field of study that has been largely neglected Beginning with Augustine and Boethius he traces the discourse of speculative music theory to the late fifteenth century giving attention to medieval Latin and vernacular sources Ultimately Jeserich calls for the conservatism of Deschamps s poetics and develops a new perspective on the poetics and poetry of the Grands rh toriqueurs Given Jeserich s reliance on the intellectual inheritance of late medieval French poetics and poetry this book will appeal to English speaking specialists of Old and Middle French as well as scholars of the French Renaissance It will also interest English language medievalists of several other disciplines intellectual historians and specialists of English as well as scholars of Italian and Iberian literature **A Translation of Giambattista Basile's The Tale of Tales** Christopher Stace,2019-01-22 Composed in the 1630s Giambattista Basile s The Tale of Tales later known as the Pentameron is a sophisticated affectionate often wicked parody of Boccaccio s 14th century masterpiece the Decameron containing fifty tales within an intricate framing story Importantly among its stories are the earliest literary versions of famous fairy tales such as Cinderella Rapunzel The Sleeping Beauty and Hansel and Gretel This is only the fourth translation of the complete text into English With its scholarly introduction notes and up to date bibliography it will appeal to anyone studying European literature or the fairy tale in general its history and subsequent development as well as anyone wishing to trace specific themes within the genre and their different treatments **A Genealogy of Manners** Jorge Arditi,1998-12 Remarkable for its scope and erudition Jorge Arditi s new study offers a fascinating history of mores from the High Middle Ages to the Enlightenment Drawing on the pioneering ideas of Norbert Elias Michel Foucault and Pierre Bourdieu Arditi examines the relationship between power and social practices and traces how power changes over time Analyzing courtesy manuals and etiquette books from the thirteenth to the eighteenth century Arditi shows how the dominant classes of a society were able to create a system of social relations and put it into operation The result was an infrastructure in which these classes could successfully exert power He explores how the ecclesiastical

authorities of the Middle Ages the monarchies from the fifteenth through the seventeenth century and the aristocracies during the early stages of modernity all forged their own codes of manners within the confines of another dominant order Arditi goes on to describe how each of these different groups through the sustained deployment of their own forms of relating with one another gradually moved into a position of dominance **Dante Alighieri** Brett Foster,2009 Presents a collection of critical essays on the works of Dante Alighieri **Manuscript, Narrative, Lexicon** Robert Boenig,Kathleen Davis,2000 Each of these essays considers the convoluted nature of the transmission process in question and reconsiders the historical framework that has informed our own reception of it BOOK JACKET **Imagining Iberia in English and Castilian Medieval Romance** Emily Houlik-Ritchey,2023-02-06 Imagining Iberia in English and Castilian Medieval Romance offers a broad disciplinary linguistic and national focus by analyzing the literary depiction of Iberia in two European vernaculars that have rarely been studied together Emily Houlik Ritchey employs an innovative comparative methodology that integrates the understudied Castilian literary tradition with English literature Intentionally departing from the standard influence and transmission approach Imagining Iberia challenges that standard discourse with modes drawn from Neighbor Theory to reveal and navigate the relationships among three selected medieval romance traditions This welcome volume uncovers an overemphasis in prior scholarship on the relevance of crusading agendas in medieval romance and highlights the shared investments of Christians and Muslims in Iberia s political creedal cultural and mercantile networks in the Mediterranean world **Values, Virtues, and Vices, Italian Style** Raymond Angelo Belliotti,2020-08-26 Values Virtues and Vices Italian Style illustrates the story of the evolution of Italian values virtues and vices is a narrative of longing exhilaration and devastation a journey of the spirit that all human beings necessarily undertake but navigate with varying degrees of success The lives of Caesar Dante Machiavelli and Garibaldi demonstrate how we can lead staunchly meaningful lives even within an inherently meaningless universe The ambition of this work is nothing more nothing less than entangling through a careful examination of the values virtues and vices of four famous historical figures a host of overlapping but distinct concepts such as pride honor justification excuse repentance and forgiveness that frame human existence Belliotti s objective is that by conducting such an interdisciplinary inquiry we might better position ourselves to craft our characters within the limitations enjoined by our cosmic circumstances As always however we must deliberate choose and act under conditions of inescapable uncertainty assume responsibility for the people we are becoming and hopefully depart the planet with honor and merited pride Along the way we might even magnify our link in the generational chain that defines our identity *From Topic to Tale* Eugene Vance,1987 From Topic to Tale was first published in 1987 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The transition from the Middle Ages to the Renaissance has been discussed since the 1940s as a shift from a Latinate culture to one based on a vernacular language and since the 1960s as a shift from

orality to literacy From Topic to Tale focuses on this multifaceted transition but it poses the problem in different terms it shows how a rhetorical tradition was transformed into a textual one and ends ultimately in a discussion of the relationship between discourse and society The rise of French vernacular literacy in the twelfth century coincided with the emergence of logic as a powerful instrument of the human mind With logic come a new concern for narrative coherence and form a concern exemplified by the work of Chretien de Troyes Many brilliant poetic achievements crystallized in the narrative art of Chretien establishing an enduring tradition of literary technique for all of Europe Eugene Vance explores the intellectual context of Chretien s vernacular literacy and in particular the interaction between the three arts of language grammar logic and rhetoric compromising the trivium Until Vance few critics have studied the contribution of logic to Chretiens poetics nor have they assessed the ethical bond between rationalism and the new heroic code of romance Vance takes Chretien de Troyes great romance Yvain ou le chevalier au lion as the centerpiece of the Twelfth Century Renaissance It is also central to his own thesis which shows how Chretien forged a bold new vision of humans as social beings situated between beasts and angels and promulgated the symbolic powers of language money and heraldic art to regulate the effects of human desire Vance s reading of the Yvain contributes not only to the intellectual history of the Middle Ages but also to the continuing dialogue between contemporary critical theory and medieval culture Eugene Vance is professor of French and comparative literature at Emory University and principal editor of a University of Nebraska series Regents Studies in Medieval Culture Wlad Godzich is director of the Center for Humanistic Studies at the University of Minnesota and co editor of the series Theory and History of Literature   **Rose and Lotus** Tonglin Lu,1991-01-22 Compares the narrative expression of sexual sublimation and perversion in two 18th century French novels with that in two classical Chinese novels The works Julie ou la nouvelle Heloise and Les Liaisons dangereuses and The Golden lotus and Dream of the red chamber were chosen to illustrate a period before significant culture intercourse between the two countries and because their status as major literary works has raised them above the particular context of their origin Also available in paper unseen 14 95 Annotation copyrighted by Book News Inc Portland OR   **Visual Literacy** James Elkins,2009-09-11 What does it mean to be visually literate Does it mean different things in the arts and the sciences In the West in Asia or in developing nations If we all need to become visually literate what does that mean in practical terms The essays gathered here examine a host of issues surrounding the visual exploring national and regional ideas of visuality and charting out new territories of visual literacy that lie far beyond art history such as law and chemistry With an afterword by Christopher Crouch this groundbreaking collection brings together the work of major art and visual studies scholars and critics to explore what impact the new concept of visual literacy will have on the traditional field of art history Contributors Matthias Bruhn Vera D nkel Jonathan Crary Christopher Crouch Peter Dallow James Elkins Henrik Enquist W J T Mitchell Richard K Sherwin Susan Shifrin Jon Simons Barbara Maria Stafford William Washabaugh   Violence and Mediation in Contemporary Culture Ronald Bogue,Marcel

Cornis-Pope,Marcel Pop-Corni?,1996-01-01 This collection of essays addresses two major issues of contemporary culture the problem of violence in relation to notions of difference and power and the role of mediation in making possible non conflictive play of cultural differences **Dante's Inferno** Raymond Angelo Belliotti,2020-04-08 This book provides a recipe for healthy moral and personal transformation Belliotti takes seriously Dante s deepest yearnings to guide human well being to elevate social and political communities to remedy the poisons spewed by the seven capital vices and to celebrate the connections between human self interest virtuous living and spiritual salvation By closely examining and analyzing five of Dante s more vivid characters in hell Piero della Vigna Brunetto Latini Farinata degli Uberti Cavalcante de Cavalcanti and Guido da Montefeltro and extracting the moral lessons Dante intends them to convey and by conceptually analyzing envy arrogance pride and human flourishing the author challenges readers to interrogate and refine their modes of living **Medieval Allegory as Epistemology** Marco Nievergelt,2023-03-21 In Medieval Allegory as Epistemology Marco Nievergelt argues that late medieval dream poetry was able to use the tools of allegorical fiction to explore a set of complex philosophical questions regarding the nature of human knowledge The focus is on three of the most widely read and influential poems of the later Middle Ages Jean de Meun s Roman de la Rose the P lerinages trilogy of Guillaume de Deguileville and William Langland s vision of Piers Plowman in its various versions All three poets grapple with a collection of shared closely related epistemological problems that emerged in Western Europe during the thirteenth century in the wake of the reception of the complete body of Aristotle s works on logic and the natural sciences This study therefore not only examines the intertextual and literary historical relations linking the work of the three poets but takes their shared interest in cognition and epistemology as a starting point to assess their wider cultural and intellectual significance in the context of broader developments in late medieval philosophy of mind knowledge and language Vernacular literature more broadly played an extremely important role in lending an enlarged cultural resonance to philosophical ideas developed by scholastic thinkers but it is also shown that allegorical narrative could prompt philosophical speculation on its own terms deliberately interrogating the dominance and authority of scholastic discourses and institutions by using first person fictional narrative as a tool for intellectual speculation **Armageddon Revisited** Amos N. Wilder,2013-12-22 Amos Wilder a distinguished New Testament scholar and poet was only a youth when he volunteered to serve as an ambulance driver with the American Field Service during World War I and then became a corporal in the Army s 17th Field Artillery of the 2nd Division His journals and letters home including correspondence with his younger brother Thornton Wilder form the basis of this book of reminiscences about his experiences one of the few wartime memoirs that eloquently articulates and interprets the common soldier s point of view As an ambulance driver Wilder traveled from the western front to the mountains of Macedonia where his memoir sheds light on the many nations races and religions involved in the conflict in that turbulent region After the United States entered the war Wilder now the soldier participated in the decisive 1918 actions at Belleau Wood Soissons and

the closing Argonne drive His journals provide a brilliant panorama of the activities and people behind the lines an often arresting portrayal very different from the scenes of death in the trenches that others have described Throughout Wilder explores in a fresh and provocative way larger questions about the enduring meaning of a shattering event in world history remembered by himself and others as an encounter with Armageddon
