**Mesmerized** Alison Winter, 2000-04-03 Across Victorian Britain apparently reasonable people  
twisted into bizarre postures called out in unknown languages and placidly bore assaults that should have caused unbearable  
pain all while they were mesmerized Alison Winter's fascinating cultural history traces the history of mesmerism in Victorian  
society *Mesmerized* is both a social history of the age and a lively exploration of the contested territory between science and  
pseudo science Dazzling This splendid book gives us a new form of historical understanding and a model for open and  
imaginative reading James R Kinkaid Boston Globe A landmark in the history of science scholarship John Sutherland The  
Independent It is difficult to imagine the documentary side of the story being better done than by Winter's well researched  
and generously illustrated study She is a lively and keen observer and her book is a pleasure to read purely for its range of  
material and wealth of detail Fruitful and suggestive Daniel Karlin Times Literary Supplement An ambitious sweeping and  
fascinating historical study Beautifully written thoroughly researched and well illustrated Bernard Lightman Washington  
Times

**Nature Cures** James C. Whorton, 2004 Writing with wit and with fairness to all sides Whorton offers a fascinating  
look at alternative health systems highlighting their history theories successes and failures His book is an engaging and  
authoritative history that highlights the course of alternative medicine in the U S providing valuable background to the wide  
range of therapies available today

Women Philosophers in Nineteenth-Century Britain Alison Stone, 2023 Many women  
wrote philosophy in nineteenth century Britain and they wrote across the full range of philosophical topics Yet these  
important women thinkers have been left out of the philosophical canon and many of them are barely known today The aim of  
this book is to put them back on the map It introduces twelve women philosophers Mary Shepherd Harriet Martineau Ada  
Lovelace George Eliot Frances Power Cobbe Helena Blavatsky Julia Wedgwood Victoria Welby Arabella Buckley Annie Besant  
Vernon Lee and Constance Naden Alison Stone looks at their views on naturalism philosophy of mind evolution morality and  
religion and progress in history She shows how these women interacted and developed their philosophical views in  
conversation with one another not only with their male contemporaries The rich print and periodical culture of the period  
enabled these women to publish philosophy in forms accessible to a general readership despite the restrictions women faced  
such as having limited or no access to university education Stone explains how these women became excluded from the

history of philosophy because there was a cultural shift at the end of the nineteenth century towards specialised forms of philosophical writing which depended on academic credentials that were still largely unavailable to women **Science and Power in the Nineteenth-Century Tasman World** Alexandra Roginski,2023-06-01 The contentious science of phrenology once promised insight into character and intellect through external reading of the head In the transforming settler colonial landscapes of nineteenth century Australia and Aotearoa New Zealand popular phrenologists figures who often hailed from the margins performed their science of touch and cranial jargon everywhere from mechanics institutions to public houses In this compelling work Alexandra Roginski recounts a history of this everyday practice exploring how it featured in the fates of people living in and moving through the Tasman World Innovatively drawing on historical newspapers and a network of archives she traces the careers of a diverse range of popular phrenologists and those they encountered By analysing the actions at play in scientific episodes through ethnographic social and cultural history Roginski considers how this now discredited science could in its own day yield fleeting power and advantage even against a backdrop of large scale dispossession and social brittleness **Minds, Bodies, Machines, 1770-1930** D. Coleman,H. Fraser,2011-04-11 It is during the nineteenth century the age of machinery that we begin to witness a sustained exploration of the literal and discursive entanglements of minds bodies machines This book explores the impact of technology upon conceptions of language consciousness human cognition and the boundaries between materialist and esoteric sciences **Dispelling the Darkness** John Van Wyhe,2013 The facts of variability of the struggle for existence of adaptation to conditions were notorious enough but none of us had suspected that the road to the heart of the species problem lay through them until Darwin and Wallace dispelled the darkness T H Huxley 1887 Darwin is one of the most famous scientists in history But he was not alone Comparatively forgotten Wallace independently discovered evolution by natural selection in Southeast Asia This book is based on the most thorough research ever conducted on Wallace s voyage Closely connected but worlds apart Darwin and Wallace s stories hold many surprises Did Darwin really keep his theory a secret for twenty years Did he plagiarise Wallace Were their theories really the same How did Wallace hit on the solution and on which island This book reveals for the first time the true story of Darwin Wallace and the discovery that would change our understanding of life on Earth forever **The Cambridge History of Science: Volume 6, The Modern Biological and Earth Sciences** David C. Lindberg,Peter J. Bowler,Ronald L. Numbers,Roy Porter,2003 This book in the highly respected Cambridge History of Science series is devoted to the history of the life and earth sciences since 1800 It provides comprehensive and authoritative surveys of historical thinking on major developments in these areas of science on the social and cultural milieus in which the knowledge was generated and on the wider impact of the major theoretical and practical innovations The articles are written by acknowledged experts who provide concise accounts of the latest historical thinking coupled with guides to the most important recent literature In addition to histories of traditional sciences the book covers the emergence of newer disciplines

such as genetics biochemistry and geophysics The interaction of scientific techniques with their practical applications in areas such as medicine is a major focus of the book as is its coverage of controversial areas such as science and religion and environmentalism

**Bodies/Machines** Iwan Rhys Morus,2002-12-01 It is hard to believe that the pursuit of artificial intelligence is not a phenomenon of the twentieth century For over three hundred years the boundaries between bodies and machines the natural and the artificial the animate and the inanimate have been passionately explored These explorations beginning in the seventeenth and eighteenth and increasing during the nineteenth century have been all but forgotten lost beneath the commotion of the modern day world This book retrieves these lost histories giving voice to the hopes dreams and fears of philosophers medical practitioners engineers craftsmen and artisans who have all been fascinated by the interface between bodies and machines The journey back in time unfolds with the mysterious advent of mechanical philosophies which conceptualized the body and the surrounding world largely in terms of mechanistic interactions These theories develop in intriguing directions and fuel experiments in such areas as material production and social punishment spiritualism and mental health From reanimating dead bodies with electricity which led to the introduction of the electric chair through to the use of machines to render hysterics and the insane fit for reintroduction into society this book conveys the dark truths behind our relationship with machines This book is not only an exceptional contribution to the history of technology but also to contemporary debates about humans and machines

Wilkie Collins in Context William Baker,Richard Nemesvari,2023-08-10 This collection of essays by international scholars celebrates the 200th anniversary of Wilkie Collins s birth by exploring his unconventional life alongside his works critical responses to his writings and their afterlife and the literary and cultural contexts which shaped his fiction Topics discussed include gender science and medicine music law race and empire media adaptations neo Victorianism disability and ethics Along with an analysis of his novels the essays included also recognize the importance of his short stories journalism and contributions to Victorian theatre most notably illuminating the strong connections between sensation fiction and melodrama as well as exploring his influence on film and TV Engaging with yet also delving far beyond the famous novels this volume promotes awareness of Collins remarkable and diverse writerly achievements and paints a vivid portrait of an author whose fluctuating reputation among contemporary critics stands in stark contrast to his immense and still enduring popularity

**Augustus De Morgan, Polymath** Karen Attar,Adrian Rice,Christopher Stray,2024-09-04 When Augustus De Morgan died in 1871 he was described as one of the profoundest mathematicians in the United Kingdom and even as the greatest of our mathematicians But he was far more than just a mathematician Because much of his voluminous written output on various subjects was scattered throughout journals and encyclopaedias the breadth of his interests and contributions has been underappreciated by historians Now renewed interest in De Morgan s life and work has coincided with the digitization of his extensive library revealing the extent to which he pioneered and influenced the development of not merely mathematics but also logic astronomy the history of

mathematics education and bibliography This edited collection celebrates De Morgan as a polymath Drawing together multiple elements of his activity from a range of publications and archives its contributors re assess his academic work his place in his intellectual environment and his legacy The result offers new insight into De Morgan himself as well as the wider circles in which he moved including his family life     The War Inside Michal Shapira,2013-09-12 In recent years the field of modern history has been enriched by the exploration of two parallel histories These are the social and cultural history of armed conflict and the impact of military events on social and cultural history     **The English National Character** Peter Mandler,2006-01-01 De geschiedenis van opvattingen over het nationale karakter van de Engelsen in de afgelopen twee eeuwen     Dark Light Linda Simon,2004 From the invention of the telegraph to the discovery of X rays Simon has created a revealing portrait of an anxious age when Americans welcomed electricity into their bodies even as they kept it from their homes     **Handbook of the English Novel, 1830-1900** Martin Middeke,Monika Pietrzak-Franger,2020-05-05 Part I of this authoritative handbook offers systematic essays which deal with major historical social philosophical political cultural and aesthetic contexts of the English novel between 1830 and 1900 The essays offer a wide scope of aspects such as the Industrial Revolution religion and secularisation science technology medicine evolution or the increasing mediatisation of the lifeworld Part II then leads through the work of more than 25 eminent Victorian novelists Each of these chapters provides both historical and biographical contextualisation overview close reading and analysis They also encourage further research as they look upon the work of the respective authors at issue from the perspectives of cultural and literary theory     **The Ashgate Research Companion to Thomas Hardy** Rosemarie Morgan,2016-03-23 In The Ashgate Research Companion to Thomas Hardy some of the most prominent Hardy specialists working today offer an overview of Hardy scholarship and suggest new directions in Hardy studies The contributors cover virtually every area relevant to Hardy s fiction and poetry including philosophy palaeontology biography science film popular culture beliefs gender music masculinity tragedy topography psychology metaphysics illustration bibliographical studies and contemporary response While several collections have surveyed the Hardy landscape no previous volume has been composed especially for scholars and advanced graduate students This companion is specially designed to aid original research on Hardy and serve as the critical basis for Hardy studies in the new millennium Among the features are a comprehensive bibliography that includes not only works in English but in acknowledgment of Hardy s explosion in popularity around the world also works in languages other than English     Signs of the Material World Melissa Frazier,2025-04-01 Signs of the Material World traces the literary effects of nineteenth century materialism that includes the mind and body within a multifaceted living life The book examines a range of scientists from Auguste Comte and the vulgar materialists to Charles Darwin James Clerk Maxwell George Henry Lewes Charles Sanders Peirce and the Russian Nikolai Strakhov The book sets Fyodor Dostoevsky in complex opposition to his fellow writers Lev Tolstoy and Nikolai Chernyshevsky while also exploring the formal connections that he shares with

contemporaries across Europe and the United States including Wilkie Collins Charles Dickens George Eliot Nathaniel Hawthorne and Friedrich Schiller Melissa Frazier argues that Dostoevsky's art serves as his science both in his reliance on plot and in his recourse to an often extravagant figurative language This combined literary and scientific practice reflects Dostoevsky's transnational and interdisciplinary reading it also transforms our own In George Eliot's words Dostoevsky changes the lights for us Once drawn into his orbit Eliot herself no longer looks quite the same Finally Signs of the Material World argues that Eliot and Dostoevsky's particular strain of nineteenth century materialism lends itself to an ambivalent political stance as they both confront the certainties of social utopianism with a deliberate embrace of ambiguity

Dreams and Modernity Natalya Lusty, Helen Groth, 2013-08-29 Dreams and Modernity A Cultural History explores the dream as a distinctively modern object of inquiry and as a fundamental aspect of identity and culture in the nineteenth and early twentieth century While dreams have been a sustained object of fascination from the ancient world to the present what sets this period apart is the unprecedented interest in dream writing and interpretation in the psychological sciences and the migration of these ideas into a wide range of cultural disciplines and practices Authors Helen Groth and Natalya Lusty examine how the intensification and cross fertilization of ideas about dreams in this period became a catalyst for new kinds of networks of knowledge across aesthetic psychological philosophical and vernacular domains In uncovering a complex and diverse archive Dreams and Modernity reveals how the explosion of interest in dreams informed the psychic imaginative and intimate life of the modern subject Individual chapters in the book explore popular traditions of dream interpretation in the 19th century the archival impetus of dream research in this period including the Society for Psychical Research and the Mass Observation movement and the reception and extension of Freud's dream book in Britain in the early decades of the twentieth century This engaging interdisciplinary book will appeal to both scholars and upper level students of cultural studies cultural history Victorian studies literary studies gender studies and modernist studies
