**Solo serenatas** Alessandro Scarlatti,2011-01-01 Web page <https://www.areditions.com/rr/rrb/b175.html> The term serenata a voce sola until recently subsumed within the genre of the cantata was a title used with assurance by poets composers and scribes of the seventeenth century Found in sources by both Roman and Neapolitan copyists these previously unpublished works by Alessandro Scarlatti represent a unique and richly imaginative fusion of two serenata traditions that form Scarlatti s stylistic heritage the Roman style especially of Stradella and the Neapolitan tradition of the solo serenata of the 1670s 1680s Instead of the dramatic large scale entertainments usually associated with the serenata these are intense soliloquies for the connoisseur of music and poetry scored mostly for a concertino of two violins and bass composed within a framework of recitatives ariosos and arias and exhibiting immense originality in structure and musical imagery The evocation of night dreams and unfulfilled love forms their subject matter Seven of these undated works clearly belong to Scarlatti s seventeenth century output including two with continuo only Two can be dated to ca 1704 1705 great works with which Scarlatti bid

farewell to the genre of the solo serenata An unattributed Roman work forming part of the Münster archive of Scarlatti's serenatas is included in an appendix Cantatas, op. 5 Giovanni Maria Ruggieri, 2012-01-01 **Tra Florilegi, Promptuaria e Viridaria** Valeria M.R. Mannoia, 2023-01-01 La circolazione del mottetto italiano in Germania nel corso del Seicento ha interessato ampiamente la musicologia internazionale sin dagli inizi del Novecento Gli approcci proposti sono stati numerosi e hanno messo in luce aspetti diversi della complessa fenomenologia della ricezione del mottetto italiano In larga parte l'attenzione si scrupolosamente concentrata su specifici testimoni oppure su alcune tradizioni locali Questo volume giunge a completare parte di questi studi e indaga in maniera sistematica secondo un approccio alternativo il processo di compilazione e produzione delle trentasette antologie tedesche a stampa dedicate esclusivamente o in gran parte alla trasmissione del mottetto italiano per ampio organico e a poche voci nella loro forma originale oppure adattato alle necessità devozionali e alle capacità musicali della comunità cui il singolo volume o collana era rivolto I volumi qui commentati fornirono alle comunità transalpine uno sguardo critico e selettivo sulla musica sacra italiana Con sguardo altrettanto critico le stesse antologie sono qui oggetto di analisi e contestualizzazione storica e culturale Il contenuto di ogni volume indagato diacronicamente con l'intento di evidenziare come ogni mottetto sia stato adattato e aggiornato trovando la sua fondatezza scientifica nella teoria dei diasistemi di Cesare Segre secondo cui quasi nessun testo indenne alla lettura interpretativa di chi lo copia o compila Capricci (1622): Dances and other works for theorbo ; Songs with tablature accompaniment Bellerofonte Castaldi, 2006 Nine extensive duos for theorbo and tiorbino notated in Italian lute tablature and 14 single movement sonatas in v 1 Other works for solo theorbo in v 2 including popular dance forms such as the corrente and galliard fantasias grounded in 16th century vocal style and written out sectional improvisations Also includes six strophic songs with unfigured bass lines and tablature accompaniments This edition provides the Italian lute tablature together with a transcription into mensural notation directly above it Catalogo della Biblioteca del Liceo musicale de Bologna, Conservatorio di musica "G.B. Martini.", 1890 Catalogo della Biblioteca del Liceo Musicale di Bologna Gaetano Gaspari, 1892 Catalogo della biblioteca del Liceo musicale di Bologna Biblioteca musicale "G.B. Martini" di Bologna, Gaetano Gaspari, 1892 **Sacred Music, Part 1** Anthony Boesset, 2010-01-01 Antoine Boesset 1586-1643 surintendant de la musique de la chambre de Louis XIII has long been known as one of the most important composers active in early seventeenth century France but until recently he was believed to have produced only secular airs de cour This edition presents for the first time Boesset's newly identified sacred works a repertory of some seventy compositions for the nuns of the Royal Abbey of Montmartre Paris Scored for multiple high voices bass and basse continue Boesset's works include three complete mass ordinary settings through composed and alternatim Te Deums and Magnificats again both through composed and alternatim psalms and a number of motets for important feasts and ceremonies at Montmartre Montmartre was also one of the first religious houses to adopt so-called plain chant musical a type of newly composed or modified chant Several works of the edition make particular

use of this kind of chant most notably the alternatim hymn settings which use unusual metered versions of the newly composed hymn chants in alternation with the polyphony Boesset's compositions for Montmartre represent by far the largest single repertory of sacred music from the reign of Louis XIII and while not showing the influence of the newest Italian practices nevertheless anticipate several of the musical techniques previously associated with Henri Dumont in particular the use of the basse continue These works thus fill a significant gap in our understanding of musical developments in seventeenth century France and demonstrate that sacred music of the highest quality emerged during a period that scholars have long dismissed as being of little interest
