The Travels of Marco Polo Marco Polo, 2004 First published in 1931 None of the manuscripts which have come down to us represent the original form of Marco Polo's narrative but it is clear that certain texts are closer to the lost original than others Entrusted with the task of preparing a new Italian edition of Marco Polo Benedetto discovered many unknown manuscripts He carefully edited the most famous of the manuscripts the Geographic text and collated it with the other best known ones An invaluable index has been added to Aldo Ricci's of Benedetto's text which includes all the identifications made in the Geographic text

The Travels Marco Polo, 1974-11-28 Marco Polo was the most famous traveller of his time His voyages began in 1271 with a visit to China after which he served the Kubilai Khan on numerous diplomatic missions On his return to the West he was made a prisoner of war and met Rustichello of Pisa with whom he collaborated on this book The accounts of his travels provide a fascinating glimpse of the different societies he encountered their religions customs ceremonies and way of life on the spices and silks of the East on precious gems exotic vegetation and wild beasts He tells the story of the holy shoemaker the wicked caliph and the three kings among a great many others evoking a remote and long vanished world with colour and immediacy

The Travels of Marco Polo (Complete) Marco Polo da Pisa Rusticiano, Of all that I have named Ptolemy as the latest possessed the greatest extent of knowledge Thus towards the North his knowledge carries him beyond the Caspian and he is aware of its being shut in all round like a lake a fact which was unknown in the days of Strabo and Pliny though the Romans were already lords of the world But though his knowledge extends so far a tract of 15 degrees beyond that sea he can describe only as Terra Incognita and towards the South he is fain to apply the same character to all beyond the Equinoxial In these unknown regions as regards the South the first to make discoveries have been the Portuguese captains of our own age but as regards the North and North East the discoverer was the Magnifico Messer Marco Polo an honoured nobleman of Venice nearly 300 years since as may be read more fully in his own Book And in truth it makes one marvel to consider the immense extent of the journeys made first by the Father and Uncle of the said Messer Marco when they proceeded continually towards the East North East all the way to the Court of the Great Can and the Emperor of the Tartars and afterwards again by the three of them when on their return homeward they traversed the Eastern and Indian Seas Nor is that all for one marvels also how the aforesaid gentleman was able to give such an orderly description of all that he had seen seeing that such an accomplishment was possessed by very few in his day and he had had a large part of his nurture among those uncultivated Tartars without any regular training in the art of composition His Book indeed owing to the endless errors and inaccuracies that had crept into it had come for many years to

be regarded as fabulous and the opinion prevailed that the names of cities and provinces contained therein were all fictitious and imaginary without any ground in fact or were I might rather say mere dreams Howbeit during the last hundred years persons acquainted with Persia have begun to recognise the existence of Cathay Ramusio vindicates Polo's Geography The voyages of the Portuguese also towards the North East beyond the Golden Chersonese have brought to knowledge many cities and provinces of India and many islands likewise with those very names which our Author applies to them and again on reaching the Land of China they have ascertained from the people of that region as we are told by Sign John de Barros a Portuguese gentleman in his Geography that Canton one of the chief cities of that kingdom is in 30 of latitude with the coast running N E and S W that after a distance of 275 leagues the said coast turns towards the N W and that there are three provinces along the sea board Mangi Zanton and Quinzai the last of which is the principal city and the King's Residence standing in 46 of latitude And proceeding yet further the coast attains to 50 Seeing then how many particulars are in our day becoming known of that part of the world concerning which Messer Marco has written I have deemed it reasonable to publish his book with the aid of several copies written as I judge more than 200 years ago in a perfectly accurate form and one vastly more faithful than that in which it has been heretofore read And thus the world shall not lose the fruit that may be gathered from so much diligence and industry expended upon so honourable a branch of knowledge

Marco Polo's Journey to China Diana Childress, 2008-01-01 Introduces the life and accomplishments of Italian explorer Marco Polo who spent twenty four years traveling throughout Asia in the 1200s and whose journal of his exploits after his return to Venice made him famous and influential throughout Europe
