Mestizo Nations:

Mestizo Nations Juan E. De Castro, 2022-08-30 Nationality in Latin America has long been entwined with questions of racial identity Just as American born colonial elites grounded their struggle for independence from Spain and Portugal in the history of Amerindian resistance constructions of nationality were based on the notion of the fusion of populations heterogeneous in culture race and language But this rhetorical celebration of difference was framed by a real life pressure to assimilate into cultures always defined by Iberian American elites In Mestizo Nations Juan De Castro explores the construction of nationality in Latin American and Chicano literature and thought during the nineteenth and twentieth centuries Focusing on the discourse of mestizaje which proposes the creation of a homogenous culture out of American Indian black and Iberian elements he examines a selection of texts that represent the entire history and regional landscape of Latin American culture in its Western indigenous and neo African traditions from Independence to the present Through them he delineates some of the ambiguities and contradictions that have beset this discourse Among texts considered are the Indianist novel *Iracema* by the nineteenth century Brazilian author Jos de Alencar the *Tradiciones peruanas* Peruvian Ricardo Palma s fictionalizations of national difference and historical and sociological essays by the Peruvian Marxist Jos Carlos Mari tegui and the Brazilian intellectual Gilberto Freyre And because questions raised by this discourse are equally relevant to postmodern concerns with national and transnational heterogeneity De Castro also analyzes such recent examples as the Cuban dance band Los Van Van s use of Afrocentric lyrics Richard Rodriguez s interpretations of North American reality and points of contact and divergence between Jos Mar a Arguedas s novel *The Fox from Up Above* and the *Fox from Down Below* and writings of Gloria Anzald a and Julia Kristeva By updating the concept of mestizaje as a critical tool for analyzing literary text and cultural trends incorporating not only race culture and nationality but also gender language and politics De Castro shows the implications of this Latin American discursive tradition for current critical debates in cultural and area studies

Mestizo Nations contains important insights for all Latin Americanists as a tool for understanding racial relations and cultural hybridization creating not only an important commentary on Latin America but also a critique of American life in the age of multiculturalism

Mestizo Modernism Tace Hedrick, 2003 Focusing on four key artists who represent Latin American modernism Cesar Vallejo Gabriela Mistral Diego Rivera and Frida Kahlo Tace Hendrick examines what being modern and American meant for them and illuminates the cultural contexts within which they worked

The Inner Life of Mestizo Nationalism Estelle Tarica, 2008 The only recent English language work on Spanish American indigenismo from a literary perspective Estelle Tarica s work shows how modern Mexican and Andean discourses about the relationship between Indians and non Indians create a unique literary aesthetic that is instrumental in defining the experience of mestizo nationalism Engaging with narratives by Jess Lara Jos Mara Arguedas and Rosario Castellanos among other thinkers Tarica explores the rhetorical and ideological aspects of interethnic affinity and connection In her examination she demonstrates

that these connections posed a challenge to existing racial hierarchies in Spanish America by celebrating a new kind of national self at the same time that they contributed to new forms of subjection and discrimination. Going beyond debates about the relative merits of indigenismo and mestizaje, Tarica puts forward a new perspective on indigenista literature and modern mestizo identities by revealing how these ideologies are symptomatic of the dilemmas of national subject formation. *The Inner Life of Mestizo Nationalism* offers insight into the contemporary resurgence and importance of indigenista discourses in Latin America. Estelle Tarica is associate professor of Latin American literature and culture at the University of California Berkeley.

Indigenous Mestizos Marisol de la Cadena, 2000. A study of how Cuzco's indigenous people have transformed the terms Indian and mestizo from racial categories to social ones, thus creating a de-stigmatized version of Andean heritage.

Mestizo America William Ospina, 2000. *Mestizo America* the country of the future offers a general panorama of what it calls Our America, that is Latin America as seen by one of its outstanding writers. It provides detailed analysis of its development, transformations, history, and defining social forces. But it is also the evocation of a utopia of the possibility of creating a supra-national society that ignores the restrictions of frontiers and, thanks to its millenary traditions, creates a common space with a privileged identity that may change the future of the continent. A shared heritage, historical links, and a pact that creates solidarity among its nations are the keys to this visionary ideal. Original and wide-ranging, poetical yet scrupulously accurate, the book demonstrates with a wealth of detail that the countries of Latin America have a common identity strong enough to redefine the destiny of the region, above all because they share a profound and all-embracing culture whose influence is now being felt throughout the world. This culture could be the basis for creating a coordinated and balanced economic community, a federated political body, and a commonwealth of nations with a dynamic social interchange. The great challenge for the next century, argues the author, revolves around getting the continent to formulate and establish a political and economic order that is in harmony with the global trends of the modern world. And while the many provinces of Latin America should not lose sight of their peoples' roots and local cultures, the continent must also create optimum strategies for the development of its competitiveness, an indispensable condition for achieving prosperity in a world heading towards integration, an integration that not only requires institutional reforms but also a commitment to Latin American culture as a whole. This book approaches its subject matter from different angles, but all of them converge on a single purpose: to create and strengthen our awareness of the possibilities of a Latin America that is mestizo, that is ours. It does this through a rigorous and panoramic description of the history of Latin America, which not only covers politics and economics but also its natural setting and geography, literature and art, social and intellectual movements, ethnic groups, and local traditions, as well as the achievements of its great men. From the multiple examples given by the author, it is easy to understand that the conditions which may lead to the unification of Latin America do exist and reflect its potential and wealth; there is a new awareness that its inhabitants belong to an authentic world. One of the key arguments developed in the final

chapter is that any unification of Latin America must be based on an equilibrium between material prosperity and humanism which in turn depends on obtaining a higher level of education and greater degree of democracy for its people as well as a recognition of their innate dignity *Representations of China in Latin American Literature (1987-2016)* Maria Montt Strabucchi, 2023-11-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM *Representations of China in Latin American Literature 1987 2016* analyses contemporary Latin American novels in which China is the main theme Using China as a multidimensional term it explores how the novels both highlight and undermine assumptions about China that have shaped Latin America's understanding of China and shows China to be a kind of literary imaginary third term which reframes Latin American discourses of alterity On one level it argues that these texts play with the way that China stands in as a wandering signifier and as a metonym for Asia a gesture that essentialises it as an unchanging other On another level it argues that the novels employment of China resists essentialist constructions of identity China is thus shown to be serving as a concept which allows for criticism of the construction of fetishized otherness and of the exclusion inherent in essentialist discourses of identity The book presents and analyses the depiction of an imaginary of China which is arguably performative but which discloses the tropes and themes which may be both established and subverted in the novels Chapter One examines the way in which China is represented and constructed in Latin American novels where this country is a setting for their stories The novels studied in Chapter Two are linked to the presence of Chinese communities in Latin America The final chapter examines novels whose main theme is travel to contemporary China Ultimately in the novels studied in this book China serves as a concept through which essentialist notions of identity are critiqued **Alabadle!** Dr. Justo L.

Gonzalez, 1996-04-01 By looking at the wide variety of Hispanic Christian worship that exists within the Hispanic community Alabadle highlights the cultural generational and denominational elements that comprise the spectrum of Hispanic worship Justo L Gonzalez and seven other contributors provide an insightful look into the variety of worship styles that exist among numerous church traditions including Assemblies of God United Methodist Catholic American Baptist Presbyterian and Disciples of Christ And yet in the midst of this variety is a common thread of excitement about worship and about the gospel Anyone interested in exploring worship music and liturgy styles from a particular Hispanic perspective will find Alabadle a valuable learning tool *Possible Pasts* Robert Blair St. George, 2000 *Possible Pasts* represents a landmark in early American studies bringing to that field the theoretical richness and innovative potential of the scholarship on colonial discourse and postcolonial theory Drawing on the methods and interpretive insights of history anthropology history of art folklore and textual analysis its authors explore the cultural processes by which individuals and societies become colonial Rather than define early America in terms of conventional geographical chronological or subdisciplinary boundaries their essays span landscapes from New England to Peru time periods from the sixteenth to the mid nineteenth century and topics

from religion to race and novels to nationalism In his introduction Robert Blair St George offers an overview of the genealogy of ideas and key terms appearing in the book Part I Interrogating America then challenges readers to rethink the meaning of early America and its relation to postcolonial theory In Part II Translation and Transculturation essays explore how both Europeans and native peoples viewed such concepts as dissent witchcraft family piety and race The construction of individual identity and agency in Philadelphia is the focus of Part III Shaping Subjectivities Finally Part IV Oral Performance and Personal Power considers the ways in which political authority and gendered resistance were established in early America

Subalternity and Difference Gyanendra Pandey,2013-03-01 Focusing on concepts that have been central to investigation of the history and politics of marginalized and disenfranchised populations this book asks how discourses of subalternity and difference simultaneously constitute and interrupt each other The authors explore the historical production of conditions of marginality and minority and challenge simplistic notions of difference as emanating from culture rather than politics They return thereby to a question that feminist and other oppositional movements have raised of how modern societies and states take account of and manage social economic and cultural difference The different contributions investigate this question in a variety of historical and political contexts from India and Ecuador to Britain and the USA The resulting study is of invaluable interest to students and scholars in a wide range of disciplines including History Anthropology Gender and Queer and Colonial and Postcolonial Studies
