**Meta-sociological Essay** Dag Østerberg,1976      **The Art and Science of Sociology** Roland Robertson,John Simpson,2016-07-06 A festschrift honoring the work of Edward A Tiryakian consisting of a large number of essays

*Witches, Scientists, Philosophers: Essays and Lectures* Robert E. Butts,2013-03-09 Robert E Butts 1928 1997 was a philosopher and historian of science whose central concerns were the distinction between the rational and the irrational He viewed scientific rationality as our major defence against the various conditions that encourage witch hunts and similar outbursts of irrationality with all their attendant pain and terror Butts saw himself as a pragmatic realist combining what he took to be the best aspects of logical empiricism with a historically informed pragmatism deeply appreciative of the methods of science trying to describe a kind of rationality essential in the struggle to preserve human values This volume gathers previously unpublished essays and lectures with some previously published thematically related essays It includes essays and lectures on philosophical aspects of the European witch hunt on scientific rationality and methodology and on the relationships between science and philosophy exhibited in the writings of such historically significant figures as Leibniz D Alembert Hume Kant Carnap and Kuhn      *The British and Anglo-Irish Thing-Essay from 1701 to 2021* Daniel Schneider,2023-09-29 While the it narrative the thing poem and thing theatre have been around for some time the essay which is often considered literature s fourth genre is still lacking its thing subgenre Yet particularly British and Anglo Irish literature display a long albeit so far implicit tradition of texts that can be categorised as thing essays Starting with Jonathan Swift s Meditation upon a Broomstick 1701 and continuing until today these texts draw broader insights from the contemplation of a material item of daily life This book provides the first theoretical conceptualisation of this genre Bringing elements from essay studies and the New Materialisms together it shows why the essay lends itself particularly well to literarisations of the personal relationships that people foster to everyday objects While the idiosyncrasies of each essay show the versatility of thing essays the study also seeks to unearth changing attitudes towards things and thus towards people s material surroundings in general throughout time In order to account for such synchronic and diachronic differences in thing essays this study develops a typology of three modes via which things can be approached essayistically In the book s second part this framework will be employed in close readings and historicisations of 14 thing essays from 1701 until 2021 Ranging from satire to sentimental writing from religion to consumerism from class to gender differences from feelings of nationality to exoticism from the French Revolution to Freud and from art to everyday life the stylistic and thematic broadness of these thing essays ultimately shows the multifarious connections between human life and materiality      *The Death of White* *Sociology* Joyce A. Ladner,1998      **Scientific Rationality: The Sociological Turn** J.R. Brown,2013-11-11      *Essays in Interactionist Sociology* Harvey A. Farberman,2019-03-15 Essays in Interactionist Sociology contains a selection of contributions spanning five decades that advance the theory organization and research of the interactionist tradition Harvey

A Farberman professor emeritus of social welfare policy at Stony Brook University wrote the fourteen essays twelve of which were published in academic journals or annuals and two that are original to this volume Each one focuses on some aspect of the theory of symbolic interactionist sociology the professional and organizational development of the interactionist perspective or empirical studies inspired by the perspective The author highlights the emergence of the perspective from the philosophy of American Pragmatism paying particular attention to the contributions of Charles Sanders Peirce and William James He also examines what may be called refractions of the perspective The latter part of the book contains four studies Personalization in Lower Class Consumer Interactions A Criminogenic Market Structure The Automobile Industry Fantasy in Everyday Life The Intersection of Social Psychology and Political Economy and Family Caregiving to Elders in New York State In many ways the essays in this volume contribute to and reflect the development of interactionist sociology as it grew from an American innovation to a robust international social science discipline *Creativity and General Systems Theory* William G. Covington, Jr., 1998 Creativity is viewed within the context of systems theory A system is any living organism from an individual to an organization This book looks at the connections between the various components of a system in the creative process Learning about this process helps enhance future creative work An organization can establish and maintain an environment which is conducive to creativity In a straightforward manner this book describes the elements contributing to creativity in an open system Agency and Structure Piotr Sztompka, 2014-08-21 A striking feature of the human condition is its dual contradictory inherently split character on the one hand autonomy and freedom on the other constraint and dependence on social structure This volume addresses this central problem of the linkage between human action and social structure in sociological and social science theory Contributions cover several different approaches to the agency structure problematic and represent the work of a number of leading international sociologists Their efforts point to a reorientation of social theory both on philosophical and methodological levels **Handbook of Sociological Theory** Jonathan H. Turner, 2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing

**Badly** Michael Billig, 2013-06-20 Modern academia is increasingly competitive yet the writing style of social scientists is routinely poor and continues to deteriorate Are social science postgraduates being taught to write poorly What conditions adversely affect the way they write And which linguistic features contribute towards this bad writing Michael Billig's witty and entertaining book analyses these questions in a quest to pinpoint exactly what is going wrong with the way social scientists write Using examples from diverse fields such as linguistics sociology and experimental social psychology Billig shows how technical terminology is regularly less precise than simpler language He demonstrates that there are linguistic problems with the noun based terminology that social scientists habitually use reification or nominalization rather than the corresponding verbs reify or nominalize According to Billig social scientists not only use their terminology to exaggerate and to conceal but also to promote themselves and their work
