**Dr. Mercola's Total Health Program** Joseph Mercola, Brian Vaszily, Kendra Pearsall, Nancy Lee Bentley, 2005 Would you want to be at your ideal weight Truly look and feel younger and avoid premature aging Eliminate or vastly reduce some disease or illness Increase your daily energy and not feel down or tired all the time Something else or all of the above Next envision what it will feel like to achieve that improvement Maybe that sounds a bit hokey but please try it Close your eyes for a moment and imagine what it will really feel like to look in the mirror and see a fit and younger looking you Imagine feeling healthier full of energy free of illness and more upbeat throughout the day no matter what your current condition publisher website August 2006

**Back to Life, Back to Reality** Steven Desantis, 2017-01-06 This book is an information based literature that unwinds what we were taught to deem healthy The medical system has displayed many untruths to

society which has only made us more sick and reliant on medicinal drugs to combat our issues This book unravels many dogmatic systems that have been placed in society for the main reason of making more money for the pharmaceutical industry working against us not for us This book was written because one man Steven refused to allow these so called truths to go unnoticed The book is intended to provide a platform for people to stand on and believe in the power of nature and not a manufacturing system

**Diet Cults** Matt Fitzgerald,2014-05-15 From The Four Hour Body to Atkins there are diet cults to match seemingly any mood and personality type Everywhere we turn someone is preaching the One True Way to eat for maximum health Paleo Diet advocates tell us that all foods less than 12 000 years old are the enemy Low carb gurus demonize carbs then there are the low fat prophets But they agree on one thing there is only one true way to eat for maximum health The first clue that that is a fallacy is the sheer variety of diets advocated Indeed while all of these competing views claim to be backed by science a good look at actual nutritional science itself suggests that it is impossible to identify a single best way to eat Fitzgerald advocates an agnostic rational approach to eating habits based on one s own habits life style and genetics body type Many professional athletes already practice this Good Enough diet and now we can too and ditch the brainwashing of these diet cults for good
