Los otros libros Raúl Renán, 2010 In this testimony Raúl Renán refers to printed works that in Mexico adopted innovative presentations and aesthetic contents full of freedom. The author tells how many writers made books in ways different from the traditional using newspaper fragments and reprints in color with corn leaves and printed sheets with parts of the human body. Los otros libros Distintas opciones en el trabajo editorial. The other books Different options in the editorial work is a revision of the books that emerged from the independent publishing movement of the late 1970s and produced by marginal publishers. From these publishers La Miquina Editorial was born as the manifesto of a group of artists and with the slogan of being a voice of poets for poets. The book also tries to be a testimony to be an example of an editorial alternative for writers that will allow them to put their genius and sensitivity to the service of education and culture.
