Metaphysical Touch A Novel:

The Metaphysical Touch Sylvia Brownrigg, 1957-08-01 A Los Angeles Times Best Book of the Year In 1991 Emily Piper is a graduate student finishing her dissertation on metaphysics when her home and work are destroyed in the Berkeley Oakland fires With her life s work in cinders she retreats in shock to the small coastal town of Mendocino It is here that Emily becomes hesitantly involved in the early days of Net chat rooms Soon Emily dubbed Pi wanders into the quixotic thoughts of JD a mysterious figure living on America's opposite coast What develops is a tentative stimulating and perilous relationship Who is JD and furthermore who now is Pi This is the highly original multilayered story of two lost souls whose charged **The Metaphysical Touch** Sylvia Brownrigg, 2000-01-06 To connection gives new meaning to the mind body problem Emily Piper known as Pi philosophy means a safe hushed place where people talk about important things Pi is a homeless philosopher whereas JD is a Hamlet looking for his Horatio as he threatens suicide on the Internet This is a complex story of love between two people who have not vet met Metaphysical Touch Sylvia Brownrigg, 1999-05 Audio Book Mikko Keskinen, 2008-01-01 Audio Book deals with the ways in which the auditory voices sounds noises is represented in postphonograph narrative fiction More specifically it examines how the various technologies enabling the transmission or storing of sound and voice are figured in selected prose works Drawing from contemporary American British French and German literature the author discusses these use of these technologies in Nicholson Baker's Vox Michel Tournier's Tristan Vox Heinrich B ll s Murke s Collected Silences Don DeLillo s The Body Artist Nick Hornby s High Fidelity and Sylvia Brownrigg s The Metaphysical Touch The texts foreground sound technologies the telephone radio tape recorder answering machine record player or counterintuitively e mail in their narration and manifest important aspects of audio in literature In prior criticism these texts have not been systematically read from media technological perspectives. The sound technologies represented in the texts problematize the clear distinction between speech and writing or between natural articulation and its technological reproduction Audio Book suggests that literary writing is metaphorically conceivable as a transmitting and storing technology as an audiobook of sorts capable of recording upon writing and reproducing upon reading auditory information The sound technologies proper have also bearing on the narrative structure metaphorics and style of each fictional work studied in Audio Book In addition themes such as identity genre the nature of literary representation and the absence presence problem are brought to the fore on account of the technologies depicted **Last Letters** Sylvie Crinquand, 2009-03-26 This collection of essays is devoted to last letters letters sent or not to sever a relationship to mark the end of a phase in one s life or letters written by people about to be executed or commit suicide just before their deaths Conversely some of the letters analysed are fictional and still other forms of texts such as poems are considered ultimate messages by the authors of the articles By focussing on various forms of last letters the contributors aim to define the influence of the epistolary context on endings and to provide an original approach to closure Spiritual, but not

Religious Robert C. Fuller,2001-12-20 Nearly 40% of all Americans have no connection with organized religion Yet many of these people even though they might never step inside a house of worship live profoundly spiritual lives But what is the nature and value of unchurched spirituality in America Is it a recent phenomenon a New Age fad that will soon fade or a long standing and essential aspect of the American experience In Spiritual But Not Religious Robert Fuller offers fascinating answers to these questions He shows that alternative spiritual practices have a long and rich history in America dating back to the colonial period when church membership rarely exceeded 17% and interest in astrology numerology magic and witchcraft ran high Fuller traces such unchurched traditions into the mid nineteenth century when Americans responded enthusiastically to new philosophies such as Swedenborgianism Transcendentalism and mesmerism right up to the current interest in meditation channeling divination and a host of other unconventional spiritual practices Throughout Fuller argues that far from the flighty and narcissistic dilettantes they are often made out to be unchurched spiritual seekers embrace a mature and dynamic set of basic beliefs They focus on inner sources of spirituality and on this world rather than the afterlife they believe in the accessibility of God and in the mind s untapped powers they see a fundamental unity between science and religion and an equality between genders and races and they are more willing to test their beliefs and change them when they prove untenable Timely sweeping in its scope and informed by a clear historical understanding Spiritual But Not Religious offers fresh perspective on the growing numbers of Americans who find their spirituality outside the church

The Lost Art of Reading David L. Ulin, 2018-09-04 Reading is a revolutionary act an act of engagement in a culture that wants us to disengage In The Lost Art of Reading David L Ulin asks a number of timely questions why is literature important What does it offer especially now Blending commentary with memoir Ulin addresses the importance of the simple act of reading in an increasingly digital culture Reading a book flipping through hard pages or shuffling them on screen it doesn t matter The key is the act of reading and it s seriousness and depth Ulin emphasizes the importance of reflection and pause allowed by stopping to read a book and the accompanying focus required to let the mind run free in a world that is not one s own Are we willing to risk our collective interest in contemplation nuanced thinking and empathy Far from preaching to the choir The Lost Art of Reading is a call to arms or rather to pages **Epistolarity in a Post-Letter World** Sindija Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter Across the five case studies the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990 Nick Bantock's Griffin Lish and Dunn test the limitations of letters for conveying individual experience to a distant other Robinson and Erdrich envision epistolarity as an address to a future Exploring the employment of epistolarity as a motif the study offers an interpretation of the messages these fictions extend for readers in a post letter world Communication technologies and practices may change but epistolarity as a motif a reprise of a scene of encounter that depends on keeping a distance between addresser and addressee remains a deeply compelling site of inquiry in twenty

first century literature **Dostoevsky's Spiritual Art** George Panichas, 2017-09-04 Fyodor Dostoevsky's highest and most permanent achievement as a novelist lies in his exploration of man's religious complex his world and his fate His primary vision is to be found in his last five novels Crime and Punishment The Idiot The Devils A Raw Youth and The Brothers Karamazov This volume culminates twenty years of studying teaching and writing on Dostoevsky Here George A Panichas critically analyzes the religious themes and meanings of the author's major works Focusing on the pervasive spiritual consciousness at play Panichas views Dostoevsky not as a religious doctrinaire but as a visionary whose five great novels constitute a sequential meditation on man's human and superhuman destiny From Hip-Hop to Hyperlinks Joanna N. Paull, 2009-03-26 From Hip Hop to Hyperlinks is a text designed to invigorate composition teachers classroom approaches for getting students to better understand American culture s The contributors share their strategies from their classrooms including such exciting topics as food comedy music technology and photography Readers may use this collection in a pragmatic way or as inspiration for developing and revising their current cultural curriculum In general these essays trace semester long course structures to allow readers to see how one assignment leads into the next often offering student writing samples along the way There is not another collection out there guite like this one Ideal for graduate students learning strategies for teaching new teachers seeking some effective strategies or even seasoned professors looking for new teaching ideas From Hip Hop to Hyperlinks is an exciting addition to any composition instructor's collection of teaching texts

Balthasar on the Spiritual Senses Mark McInroy, 2014-06-05 In this study Mark McInroy argues that the spiritual senses play a crucial yet previously unappreciated role in the theological aesthetics of Hans Urs von Balthasar The doctrine of the spiritual senses typically claims that human beings can be made capable of perceiving non corporeal spiritual realities After a lengthy period of disuse Balthasar recovers the doctrine in the mid twentieth century and articulates it afresh in his theological aesthetics At the heart of this project stands the task of perceiving the absolute beauty of the divine form through which God is revealed to human beings Although extensive scholarly attention has focused on Balthasar's understanding of revelation beauty and form what remains curiously under studied is his model of the perceptual faculties through which one beholds the form that God reveals McInroy claims that Balthasar draws upon the tradition of the spiritual senses in order to develop the means through which one perceives the splendour of divine revelation McInroy further argues that in playing this role the spiritual senses function as an indispensable component of Balthasar's unique aesthetic resolution to the high profile debates in modern Catholic theology between Neo Scholastic theologians and their opponents As a third option between Neo Scholastic extrinsicism which arguably insists on the authority of revelation to the point of disaffecting the human being and immanentism which reduces God's revelation to human categories in the name of relevance McInroy proposes that Balthasar's model of spiritual perception allows one to be both delighted and astounded by the glory of God's revelation A Companion to Indian Fiction in English Pier Paolo Piciucco, 2004 After The Pioneer Works By Scholars Such

The vast scholarship published on this phenomenon however fails to consider Israeli writing and with it some of the most complex characterizations of Holocaust perpetrators imagined from the unparalleled position of a nation that was shaped from its very birth by the legacy of Holocaust victimhood and survival In Created in the Image Or Rogovin situates Israeli literary responses to the Holocaust in the canon of perpetrator fiction for the first time Since the state s establishment in 1948 perpetrator characterization in Israeli fiction has demonstrated a remarkable development that corresponds to changing circumstances from the Eichmann trial to the First Intifada While early examples depicted perpetrators stereotypically and minimally as seen in Ka Tzetnik s demonic and bestial Nazis in Salamandra and in the amorphous persecutor figures in Aharon Appelfeld's stories since the mid 1980s these characters have been created in the human image as nuanced and multidimensional individuals The turning point came with Herr Neigel the sensitive and self contradictory commandant in David Grossman s See Under Love 1986 followed by likewise multifaceted and humanized perpetrators in fiction by A B Yehoshua Savyon Liebrecht and Amir Gutfreund Anchored in theoretical and comparative perspectives Created in the Image presents a groundbreaking analysis of the poetic mechanisms moral implications and historical contexts of this paradigm shift in the Israeli literary response to the Shoah Soundtracked Books from the Acoustic Era to the Digital Age Justin St. Clair, 2022-06-15 Offering both a short history and a theoretical framework this book is the first extended study of the soundtracked book as a media form A soundtracked book is a print or digital publication for which a recorded musical complement has been produced Early examples were primarily developed for the children's market but by the middle of the twentieth century ethnographers had begun producing book and record combinations that used print to contextualize musical artifacts The last half century has witnessed the rapid expansion of the adult market including soundtracked novels from celebrated writers such as Ursula K

Le Guin Kathy Acker and Mark Z Danielewski While often dismissed as gimmicks this volume argues that soundtracked books represent an interesting case study in media consumption Unlike synchronous multimedia forms the vast majority of soundtracked books require that audience activity be split between reading and listening thus defining the user experience and often shaping the content of singing books as well Mapping the form's material evolution this book charts a previously unconsidered pathway through more than a century of recording formats and packaging strategies emphasizing the synergies and symbioses that characterize the marriage of sound and print As such it will be of value to scholars and postgraduate students working in media studies literary studies and sound studies The Scientifiction Novels of C.S. **Lewis** Jared Lobdell, 2014-09-17 Used by C S Lewis himself the term scientification is revived here as it once encompassed not only what we call science fiction but also that indeterminate field of the 1940s and 1950s sometimes referred to as science fantasy leading up to Ray Bradbury along with a portion of that great realm that has come since the advent of The Lord of the Rings to be called fantasy Rather as an eighteenth century novel may pre date the divide between novel and romance so C S Lewis s interplanetary novels may be considered to pre date the modern divide between fantasy and science fiction and thus be thought of as scientifictional in nature The stories dealt with are those in which Elwin Ransom is a character the three usually called the space trilogy Out of the Silent Planet Perelandra and That Hideous Strength and the time fragment entitled The Dark Tower Lengthy chapters are devoted to each of the four Ransom stories The book presents a study of Lewis the nature of science fiction the nature of Lewis s Arcadian science fiction and his and its place in English literary history
