Metaphysical Personalism:

An Introduction to Personalism Juan Manuel Burgos, 2018-02-09 Much has been written about the great personalist philosophers of the 20th century including Jacques Maritain and Emmanuel Mounier Martin Buber and Emmanuel Levinas Dietrich von Hildebrand and Edith Stein Max Scheler and Karol Wojtyla later Pope John Paul II but few books cover the personalist movement as a whole *An Introduction to Personalism* fills that gap Juan Manuel Burgos shows the reader how personalist philosophy was born in response to the tragedies of two World Wars the Great Depression and the totalitarian regimes of the 1930s Through a revitalization of the concept of the person an array of thinkers developed a philosophy both rooted in the best of the intellectual tradition and capable of dialoguing with contemporary concerns Burgos then delves into the potent ideas of more than twenty thinkers who have contributed to the growth of personalism including Romano Guardini Gabriel Marcel Xavier Zubiri and Michael Polanyi Burgos's encyclopedic knowledge of the movement allows for a concise and well rounded perspective on each of the personalists studied *An Introduction to Personalism* concludes with a synthesis of personalist thought bringing together the brightest insights of each personalist philosopher into an organic whole Burgos argues that personalism is not an eclectic hodge podge but a full fledged school of philosophy and gives a dynamic and rigorous exposition of the key features of the personalist position Our times are marked by numerous and often contradictory ideas about the human person *An Introduction to Personalism* presents an engaging anthropological vision capable of taking the lead in the debate about the meaning of human existence and of winning hearts and minds for the cause of the dignity of every person in the 21st century and beyond

Personalism and Metaphysics Juan Manuel Burgos, 2023-09-26

Personalism seeks to understand the person in its richness complexity and unity and to achieve this goal it has developed a rich and solid anthropology as well as an ethic of the person that is having repercussions in the philosophical and sociopolitical sphere But what is the value of this philosophy Does it offer a mere description of the reality of a phenomenological type or does it penetrate to the bottom of what exists offering its intelligible essence Does it offer an ultimate explanation of the person or is her vision subordinated to a deeper and more decisive one that would correspond to metaphysics To answer these questions the author an international expert in personalist philosophy first defines the various meanings in which the term metaphysics can be understood and secondly does a comparison between personalism in particular integral Personalism and the metaphysics of being The analysis concludes that personalism can be considered a first sectoral philosophy that is a philosophy that does not need other philosophical referents to establish itself as a philosophy thanks to its direct access to experience where the person is found This conclusion is based on the epistemology of integral experience and imposes a review of the traditional role of metaphysics and its connection with anthropology in general and Personalism in particular

Ethical Personalism Cheikh Mbacke Gueye, 2013-05-02 Ethical Personalism proposes to reflect on the person from at least three levels ontology epistemology and ethics Articulating from various

philosophical and religious angles and traditions the ontological and inalienable value of the human person i.e. her dignity the contributors to this volume show not just what it means to be a human person but also what it takes to live accordingly Hence beyond the purely theoretical elaboration on ethical personalism that reposes the crucial debates between relativism and realism on the one hand and consequentialism and deontology on the other hand this volume offers a range of insights useful for addressing concrete and practical matters that we as humans are confronted in our everyday life With the call back to the person which takes roots from a deep conviction to bring into light the value of the person Ethical Personalism unequivocally affirms the necessity of re-placing the person in the centre of our project of society economic plans political settings and environment policies

The Philosophy of Personalism Albert Cornelius Knudson, 1927 **German Political Philosophy** Chris Thornhill, 2007-01-24 This book combines philosophical intellectual historical and political theoretical methodologies to provide a new synoptic reading of the history of German political philosophy Incorporating chapters on the political ideas of Luther and Zwingli on the politics of the early Enlightenment on Idealism on Historicism and Lukács on early Twentieth Century political theology on the Frankfurt School and on Habermas and Luhmann the book sets out both a broad and a detailed discussion of German political reflection from the Reformation to the present In doing so it explains how the development of German political philosophy is marked by a continual concern with certain unresolved and recurrent problems It claims that all the major positions address questions relating to the origin of law that all seek to account for the relation between legal validity and metaphysical and theological superstructures and that all are centred on the attempt to conceptualise and reconstruct the character of the legal subject

The Worldview of Personalism Jan Olof Bengtsson, 2006-11-02 A comprehensive and detailed account of the history of personalism the system of thought that maintains the primacy and uniqueness of the human or divine person on the basis that reality only has meaning through the conscious mind

John Grote, Cambridge University and the Development of Victorian Thought John Richard Gibbins, 2013-10-07 John Grote struggled to construct an intelligible account of philosophy at a time when radical change and sectarian conflict made understanding and clarity a rarity This book answers three questions How did John Grote develop and contribute to modern Cambridge and British philosophy What is the significance of these contributions to modern philosophy in general and British Idealism and language philosophy in particular How were his ideas and his idealism incorporated into the modern philosophical tradition Grote influenced his contemporaries such as his students Henry Sidgwick and John Venn in both style and content he forged a brilliantly original philosophy of knowledge ethics politics and language from a synthesis of the major British and European philosophies of his day his social and political theory provide the origins of the new liberal ideas later to reach their zenith in the writings of Green Sidgwick and Collingwood he founded the Cambridge style associated with Moore Russell Broad McTaggart and Wittgenstein and he was also a major influence on Oakeshott

Romanticism and Pragmatism U. Schulenberg, 2015-02-12 This interdisciplinary project is situated at the

boundary between literary studies and philosophy Its chief focus is on American Romanticism and it examines work by a number of prominent writers and philosophers from Whitman and Thoreau to Barthes and Rorty *Rehumanize* Aimee Murphy,2022-07-22 Who deserves human rights The answer to this question is the crux of all moral and political action in society and defines our character as individuals and as nations Aimee Murphy seeks to answer this vital question in this accessible and succinct handbook on the Consistent Life Ethic a moral philosophy whose central principle is that each and every human being has inherent dignity from conception to natural death and therefore deserves to live free from violence *Rehumanize A Vision to Secure Human Rights for All* includes a digestible yet systematic analysis of the history ethics and public policy surrounding modern issues of dehumanization and casts a rehumanizing vision of a world beyond violence Beyond the confines of political parties or religious exclusion the founder of Rehumanize International communicates an aspiration to an inclusive ideal of a consistent movement of every human standing for every human Activists scholars and leaders young and old will find this resource an indispensable cornerstone for their outreach and advocacy for decades to come **Yes, But Not Quite** Dwayne A. Tunstall,2009-08-25 This book contends that Josiah Royce bequeathed to

philosophy a novel idealism based on an ethico religious insight This insight became the basis for an idealistic personalism wherein the Real is the personal and a metaphysics of community is the most appropriate approach to metaphysics for personal beings especially in an often impersonal and technological intellectual climate The first part of the book traces how Royce constructed his idealistic personalism in response to criticisms made by George Holmes Howison That personalism is interpreted as an ethical and panentheistic one somewhat akin to Charles Hartshorne s process philosophy The second part investigates Royce s idealistic metaphysics in general and his ethico religious insight in particular In the course of these investigations the author examines how Royce s ethico religious insight could be strengthened by incorporating the philosophical theology of Dr Reverend Martin Luther King Jr and Emmanuel Levinas s ethical metaphysics The author concludes by briefly exploring the possibility that Royce s progressive racial anti essentialism is in fact a form of cultural antiblack racism and asks whether his cultural antiblack racism taints his ethico religious insight *A Bibliography of Character and Personality* Abraham Aaron Roback,1927

Beyond Realism: Seeking the Divine Other Simon Smith,2018-01-15 The meaning of God talk remains the fundamental issue facing religious thinkers today This study concerns the analogies needed to make sense of that talk Embracing those analogies signals the application of Austin Farrer s cutting edge theology Almost fifty years after his death Farrer remains one of the twentieth century s last great metaphysical minds his grasp of faith and philosophy unequalled Having defended religious thought against both Positivist and Process reduction he pursued his own revision of scholastic tradition ultimately developing the vital corrective to an overweening impersonalism one which depersonalises the divine so severs the cosmological connection Following this course returns us to an earlier tradition to a metaphysic of persons exemplified in the expressions of lived faith This draws upon the logic of

personal identity what it means to be or rather to become a person Hence journey s end lies in a Feuerbachian anthropology of theology or anthropotheism Like Farrer Feuerbach used the believer s language to relocate theology and philosophy within a framework that makes fertile use of anthropomorphic personifications to think God Revisiting the personalist presuppositions of metaphysics in this way throws light on the most vital questions of personal identity To answer them is to draw reality on a grander scale than either realism or consequentialism is capable of Most importantly it is locate our place within that image Doing theology dynamically or psychologically informed as both Farrer and Feuerbach insisted means recognising the constitutive role such images play in self construction Without active participation in our ideals and aspirations we cannot become persons at all participation entails the enactment of our prospective selves This returns us to the practice of piety faith in a Godly person Here we find the reconstruction of Feuerbach s anthropology as applied theology and by extension or amplification the completion of Farrer s personalist metaphysics *Ecce Educatrix Tua* Danielle M. Peters,2009-12 This book discusses the Apostolic Letter Novo millennio ineunte NMI wherein John Paul II outlined the path the Church should adopt in the third millennium Peters highlights the Blessed Virgin Mary as educator from the teachings of John Paul II and Father Joseph Kentenich *John Grote* Lauchlin D. MacDonald,2012-12-06 An objective of this book is to discuss some of the contributions made by John Grote to philosophy This work is an extension of a dissertation written for the doctorate at Boston University The author wishes to acknowledge the invaluable assistance in many places to Professor Peter A Bertocci and the late Professor Edgar S Brightman both of whom read the entire manuscript in its original form Also the author acknowledges the encouraging interest and support of his wife Helen whose many suggestions have improved the writing and without whose assistance this work would not have been accomplished The author assumes complete responsibility for whatever errors or deficiencies appear in the book All known writings of Grote are listed and the more important ones analyzed LAUCHLIN D MACDONALD CHAPTER I INTRODUCTION 1 JOHN GROTE S LIFE i Sketch of his life John Grote will remain best known by reason of the thought formu lated in the Exploratio Philosophica or Rough Notes on Modern I ntellectu al Science To the philosophical world of his own time he was well known as the teacher who ably held the chair of Moral Philosophy in the University of Cambridge from r855 until the year of his death r866 to the Knightbridge Professor William Whewell whose in succession Philosophy of Science is the subject of at least one chapter of the Exploratio Philosophica Grote s birthplace was Beckenham in Kent and the date May 5 r8r3 **Martin Luther King, Jr., and the Theology of Resistance** Rufus Burrow, Jr.,2014-11-19 It has been nearly fifty years since Martin Luther King Jr was assassinated at the Lorraine Motel in Memphis Tennessee Appraisals of King s contributions began almost immediately and continue to this day The author explores a great many of King s chief ideas and socio ethical practices his concept of a moral universe his doctrine of human dignity his belief that not all suffering is redemptive his brand of personalism his contribution to the development of social ethics the inclusion of young people in the movement sexism as a contradiction to his

personalism the problem of black on black violence and others The book reveals both the strengths and the limitations in King's theological socio ethical project and shows him to have relentlessly applied personalist ideas to organized nonviolent resistance campaigns in order to change the world Instructors considering this book for use in a course may request an examination copy here

Studies in Humanism Ferdinand Canning Scott Schiller, 1912

In the Sphere of the Personal: New Perspectives in the Philosophy of Persons Simon Smith, James Beauregard, 2020-10-06 The papers in this collection were originally presented at the 13th International Conference on Persons held at the University of Boston in August 2015 This biennial event founded by Thomas O Buford and Charles Conti in 1989 attracts a host of international scholars both the venerable and the aspiring It is widely regarded as the premier event for those whose research concerns the philosophical tradition known as personalism That tradition is perhaps best known today in its American and European manifestations although there remains a small but fiercely defended stronghold in Britain Personalism is not an exclusively Western development however its roots are also found in India China and Japan What unites these disparate intellectual cultures may seem quite small There is little if any methodological or doctrinal consensus among them They are all however responses to the impersonal and depersonalising forces perceived to be at work in philosophy theology and most recently the natural and political sciences Their common aim is to place persons at the heart of these discourses to defend the idea that persons are the metaphysical epistemological and moral bottom line the vital clue to knowledge of self reality and all conceivable values The authors in this collection do not simply reflect upon this tradition they put it to work on a range of philosophical and theological problems both classical and contemporary problems of free will personal identity and the nature of reality as well as the very current concerns of environmental philosophers bio and neuro ethicists Their perspectives too are many and varied so offer profound insights into key debates among other philosophical traditions such as the Kantian Hegelian phenomenological and process schools

Radical Orthodoxy: Annual Review I Neil Turnbull, 2012-11-06 The Radical Orthodoxy Annual Review examines emerging agendas in contemporary theology and philosophy Today in an era of biotechnology and a growing ecological consciousness it is rapidly becoming clear that the key question for our times is how to make sense of the nature and significance of life In this the inaugural edition of the Review some of today's most influential and important thinkers address this issue through wide ranging discussion of the way in which life is currently being redefined in the work of orthodox theologians and philosophers In so doing they show the extent to which contemporary theology and philosophy are helping us to make better of sense of the natural world the human body contemporary techno science as well as the possibility of a living transcendence allowing us to see why theology and philosophy remain absolutely crucial to any attempt to understand the current state of the modern world and its likely future development

Vasile Băncilă. An ethnic-spiritualist metaphysics banned by the totalitarian regime Ion Dur, 2022-10-18 This book is a rediscovery and examination of the thinking of Vasile Băncilă a philosopher forbidden by the

totalitarian regime of Nicolae Ceaușescu The philosopher Lucian Blaga saw B nciil as a threat to the spirit of the highest Romanian culture It is estimated that B nciil s work extends to 32 volumes 17 of which have been published so far With such a significant opus Vasile B nciil is indisputably a key figure in contemporary Romanian culture particularly in the sphere of philosophy The book has eleven chapters and is divided into two parts The first part deals with the hermeneutics of the author s youthful works His reflections on the purpose of philosophy for life are important about the role of this discipline in the education of adolescents and students the relationship between irony and education his thoughts of one of the greatest Romanian poets Mihai Eminescu and the philosophy of Descartes and of Schopenhauer In the second part the book looks at B nciil s aim of structuring a possible system of philosophy more precisely an ethnic spiritualist metaphysics which when it was elaborated contradicted the official ideology of the totalitarian regime Finally the book covers the philosopher s work analysing step by step the relation between the part and the whole pars pro toto as well as between existence and metaphysics and the philosopher s conclusions about Romanian existence

The Integrated Protestant Ethic and the Spirit of Environmentalism S. Steiner-Aeschliman, 1999 The theory and data of environmental science suggest that growth in rates of population consumption and environmental degradation as a result of the activities of industrialized societies has created an ecological crisis to which modern societies must adapt However adaptation is problematic Max Weber studied adaptive social change during the industrial revolution The evolution of this new way of life was initially problematic because individuals who established industrialism were socialized under feudalism In this dissertation I consider The Protestant Ethic and the Spirit of Capitalism as a theoretical treatise framed by modern human ecology in order to study social change in the context of the ecological crisis of industrialism The Protestant Ethic is known for describing how religious ideas influenced the unfolding of modern capitalism in the West However there is nothing inherent in Protestantism that requires linkage to industrialism I argue that Protestantism has evolved and that it need not necessarily promote environmental exploitation although under industrialism it has I identify a green subculture within Protestantism and consider how Protestantism s weakness may also be its strength The very sociological structure that in the absence of ecologically realistic norms permits widespread ecosystem degradation by industrial capitalism may also generate ecologically realistic norms for a natural capitalism Weber contended that rationality was problematic because it paradoxically results in a dual crisis of management and meaning where human agency becomes imprisoned as if in an iron cage The irrational continuation of environmentally degrading social practices eventually contributes to a legitimation crisis People turn to religion as an alternative authority If science and religion converge on environmental values they might catalyze social change unless they are too distorted by ideological bias Adaptive social change only occurs if ethical and ecological values are in accordance with the sustainability of ecosystems Hence to adapt to the ecological crisis sociocultural systems require socialization into ecological realism because ecologically rational societies may still be maladaptively organized around environmentally unsustainable
