**Metaphysics** Anna Marmodoro, Erasmus Mayr, 2019-03-25 This volume introduces readers to a selected number of core issues in metaphysics that have been central in the history of philosophy and remain foundational to contemporary debates that is substances properties modality and essence causality determinism and free will Anna Marmodoro and Erasmus Mayr take a neo Aristotelian approach both in the selection and presentation of the topics But Marmodoro and Mayr s discussion is not narrowly partisan it consistently presents opposing sides of the debate and addresses issues from different philosophical traditions and encourages readers to draw their own conclusions about them Metaphysics combines a state of the art presentation of the issues that takes into account the most recent developments in the field with extensive references to the history of philosophy The book thus makes topics in contemporary analytical metaphysics easily accessible to readers who have no specific background in contemporary philosophy but rather in the history of philosophy At the same time it will engage readers who do not have any historical background with some key developments within the history of the subject

*Metaphysics* Michael J. Loux, 2002 This second edition includes a new chapter on the realism antirealism debate a new more user friendly format and examples to clarify difficult concepts it also relates contemporary views to their classical sources

*Process Metaphysics* Nicholas Rescher, 1996-01-01 Presents a synoptic compact and accessible exposition of this influential and interesting sector of twentieth century American philosophy

**Metaphysics** Brian Carr, 1987

**Metaphysics** Jonathan Tallant, 2017-09-21 If the sentence my cat is on the mat is true how does it get to be true Sentences are made true by what exists But what about claims such as There were dinosaurs and 2 2 4 How do they get to be true Metaphysics An Introduction uses the idea of truth and the quest for truth makers to unravel philosophical problems in contemporary metaphysics From the nature of properties and time to causation and objects truth becomes a guiding theme to understanding metaphysical concepts and debates In response to feedback from students and instructors the Second Edition has been updated with new material in a range of chapters including discussions of recent research concerning the nature of physical objects time and modality Recommended readings have been revised to ensure an improved gender balance while explanations and ideas are easier to follow Together with a glossary and discussion questions each chapter concludes with a series of mind maps to help visualise the logical space being explored and how the arguments push in different directions Metaphysics An Introduction is suitable for anyone studying metaphysical problems for the first time

**Contemporary Metaphysics** Michael Jubien, 1997

*This Is Metaphysics* Kris McDaniel, 2020-05-07 Metaphysics the philosophical study of the nature of reality is a dynamic sub field which encompasses many of the most fundamental and elusive questions in contemporary analytic philosophy A concise and focused introduction to contemporary metaphysics This is Metaphysics An Introduction takes readers with minimal technical knowledge of the field on a guided tour of the intellectual landscape of the discipline Approachable and engaging the book covers a broad

range of key topics and principles in metaphysics including classification the nature and existence of properties ontology the nature of possibility and necessity and fundamental questions concerning being and existence Each chapter challenges readers to grapple with thought provoking examples that build upon the seminal theoretical contributions of contemporary metaphysicians like Peter van Inwagen and David Lewis and concludes with a Doing Metaphysics section encouraging readers to think through substantive metaphysical questions while weighing possible arguments and objections A thoughtful and comprehensive introduction provides a framework for author Kris McDaniel s pedagogical approach and each section incorporates multi platform online resources and plentiful footnotes to support further reading and deeper conceptual engagement A welcome addition to the popular This is Philosophy series This is Metaphysics is a reader friendly survey of metaphysics for philosophy majors undergraduates in introductory philosophy courses and curious members of the general public interested in investigating this expansive and enigmatic area of study     **Metaphysics** Archie J. Bahm,1974

**Analysis and Metaphysics** P. F. Strawson,1992 Professor Strewson draws on his many years of teaching at Oxford University during which he refined and developed what he regards as the most productive route to understanding the fundamental structure of human thinking     **Metaphysics** Michael Loux,2006-09-27 Metaphysics is aimed at students of metaphysics who have already completed an introductory philosophy course This third edition provides a fresh look at the key topics in metaphysics and includes new chapters on time and causation     **An Introduction to Metaphysics** Martin Heidegger,1999 This book contains a series of lectures delivered by Heidegger in 1935 at the University of Freiburg In this work Herdegger presents the broadest and the most inteligible account of the problem of being as he sees this problem First he discusses the relevance of it by pointing out how this problem lies at the root not only of the most basic metaphysical questions but also of our human existence in its present historical setting Then after a short digression into the grammatical forms and etymological roots of the word being Heidegger enters into a lengthy discussion of the meaning of being in Greek thinking letting pass at the same time no opportunity to stress the impact of this thinking about being on subsequent western speculation His contention is that the meaning of being in Greek thinking underwent a serious restriction through the opposition that was introduced between being on one hand and becoming appearance thinking and values on the other

*Metaphysics* Keith Campbell,1976     *Introduction to Metaphysics* Martin Heidegger,2014-06-24 This new edition of one of Heidegger s most important works features a revised and expanded translators introduction and an updated translation as well as the first English versions of Heidegger s draft of a portion of the text and of his later critique of his own lectures Other new features include an afterword by Petra Jaeger editor of the German text This revised edition of the translation of Heidegger s 1935 lectures with its inclusion of helpful new materials superbly augments the excellent translation provided in the first edition The result is a richly rewarding volume to be recommended to every student of Heidegger s works whether a novice or a long time reader Daniel Dahlstrom Boston University     **Metaphysics** Bruce Wilshire,1969     **An**

**Introduction to Metaphysics** Jack S. Crumley II, 2021-12-09 An Introduction to Metaphysics offers an engrossing survey of central metaphysical topics including truth universals the nature of mind personal identity free will time and the existence of God The book is pitched at an intermediate undergraduate level and is suitable for students without background knowledge in these areas Topically organized it examines a variety of historical and contemporary positions relevant to each of the included themes Memorable and amusing drawings by Gillian Wilson are interspersed throughout the text to illustrate concepts and examples

*An Introduction to Metaphysics* C. H. Whiteley, 2019-03-06 Originally published in 1950 For those interested in the fundamental problems of philosophy but not familiar with its technicalities this book introduces the main type of theory in metaphysics not by a catalogue of philosophers opinions but by a continuous train of reasoning The central theme is the problem of the relation between Mind and Matter and in the course of the argument there are discussions of mechanistic materialism of idealism and our knowledge of the external world and of the arguments for the existence of God The problems are presented lucidly but without over simplification

**Introduction to Metaphysics** Gabby McCarthy, 2018-10-09 Metaphysics is the branch of philosophy concerned with the nature of existence being and the world Arguably metaphysics is the foundation of philosophy Aristotle calls it the first philosophy or sometimes just wisdom and says it is the subject that deals with the first causes and the principles of things It asks questions like the What is the nature of reality the How does the world exist and what is its origin or source of creation the Does the world exist outside the mind the How can the incorporeal mind affect the physical body the If things exist what is their objective nature the Is there a God or many gods or no god at all the Originally the Greek word metaphysikae literally the after physics merely indicated that part of Aristotle's oeuvre which came in its sequence after those chapters which dealt with physics Later it was misinterpreted by Medieval commentators on the classical texts as that which is above or beyond the physical and so over time metaphysics has effectively become the study of that which transcends physics This book provides a detailed resume of current knowledge about the Metaphysics
