Metaphysics and Historicity Emil L. Fackenheim, 2011-10-01 **Metaphysics and Historicity** Emil Ludwig Fackenheim, 1967 **Metaphysics and Historicity** Emil L. Fackenheim, 1961 *Metaphysics and Historicity* Emil L. Fackenheim, 1961 *Jewish Messianism and the History of Philosophy* Martin Kavka, 2004-05-10 Jewish Messianism and the History of Philosophy contests the ancient opposition between Athens and Jerusalem by retrieving the concept of meontology the doctrine of nonbeing from the Jewish philosophical and theological tradition For Emmanuel Levinas as well as for Franz Rosenzweig Hermann Cohen and Moses Maimonides the Greek concept of nonbeing understood as both lack and possibility clarifies the meaning of Jewish life These thinkers of Jerusalem use Athens for Jewish ends justifying Jewish anticipation of a future messianic era as well as portraying the subjects intellectual and ethical acts as central in accomplishing redemption This book envisions Jewish thought as an expression of the intimate relationship between Athens and Jerusalem It also offers new readings of important figures in contemporary Continental philosophy critiquing previous arguments about the role of lived religion in the thought of Jacques Derrida the role of Plato in the thought of Emmanuel Levinas and the centrality of ethics in the thought of Franz Rosenzweig *Historicity in Organization Studies* François-Xavier de Vaujany, Kätlin Pulk, Pierre Labardin, 2025-07-28 As soon as we go beyond the borders of our present and begin to explore remote pasts and futures management and organization scholars are exposed to two dangers The first is the exaggeration of continuities and anachronism about the past The second is the projection of present ordinariness into the future So how can we describe long term processes of entrepreneurship accounting marketing finance information systems or innovation This edited volume gathers a team of leading interdisciplinary scholars inspired by process philosophy phenomenologies and critical schools After presenting issues debates and perspectives likely to inspire and guide historical description several examples of historical work in entrepreneurship accounting and organization studies are used to show situations in which researchers have had to tackle this resonance between ontology and methodology in their historiography It will be of great interest to scholars and students of management and organization studies *Metaphysics and historicity* Emil L. Fackenheim, 1967

Philosophical Historicism and the Betrayal of First Philosophy Carl Page, 2010-11-01 Jacques Derrida and the Challenge of History Sean Gaston, 2018-11-23 This important new book argues that Jacques Derrida's work can be treated as the basis for a distinctive historiography The possibility of seeing Derrida not as a philosopher of language but as a philosopher of history has become more apparent with the recent publication of Derrida's 1964-1965 seminar Heidegger The Question of Being and History We now know that the problem of history was at the heart of Derrida's writing in the mid 1960s prior to the publication of his best known work Of Grammatology 1967 Arguing that Derrida's scholarship in the 1960s and early 1970s on historicism historicity and the problem of history can be treated as the basis for a philosophy of history Sean Gaston focuses on Derrida's work from the mid 1970s to the mid 1990s and his relentless questioning of context

memory and narrative as the delineation of a deconstructive historiography The book raises a challenge for historians to think about both deconstruction and historiography arguing that contemporary philosophy can provide a basis for thinking about history in the name of a deconstructive historiography that is not incompatible with rigorous historical scholarship

Confronting Totalitarian Minds: Jan Patočka on Politics and Dissidence Aspen E. Brinton, 2021-05-01 The Czech philosopher Jan Patočka not only witnessed some of the most turbulent politics of twentieth century Central Europe but shaped his philosophy in response to that tumult One of the last students of Edmund Husserl and Martin Heidegger he inspired Václav Havel and other dissidents who confronted the Communist regime before 1989 as well as being actively involved in authoring and enacting Charter 77 He died in 1977 from medical complications resulting from interrogations of the secret police *Confronting Totalitarian Minds* examines his legacy along with several contemporary applications of his ideas about dissidence solidarity and the human being's existential confrontation with unjust politics Expanding the current possibilities of comparative political theory the author puts Patočka's ideas about dissidence citizen mobilization and civic responsibility into conversation with notable world historical figures like Mahatma Gandhi Václav Havel Dietrich Bonhoeffer and other contemporary activists In adding a fresh voice to contemporary conversations on transcending injustice *Confronting Totalitarian Minds* seeks to educate a wider audience about this philosopher's continued relevance to political dissidents across the world

Reason and Revelation before Historicism Sharon Jo Portnoff, 2012-01-30 Can contemporary religion and particularly Judaism exist without being informed by history This question was debated in 1940s New York by two German refugees who later rose to prominence Leo Strauss one of the twentieth century's most significant political philosophers and Emil L Fackenheim an important post Holocaust Jewish theologian There has been little consensus however on the definitive meaning of their work *Reason and Revelation before Historicism* the first full length comparison of Strauss and Fackenheim places the informal teacher and student in conversation alongside sections of their analyses of notable thinkers Sharon Portnoff suggests that both saw historicism as the nexus of the intersection and tension between philosophy and religion and raised the possibility of the persistence of the permanent in the modern world Portnoff illuminates our understanding of Strauss's relationship with Judaism Fackenheim's oft overshadowed great philosophical depth and the function and character of Jewish thought in a secular post Holocaust world

Dilemmas in Modern Jewish Thought Michael L. Morgan, 1992-11-22 Michael Morgan has served up an intellectual treat These subtle and carefully reasoned essays explore the dilemmas of the post modern Jew who would take history seriously without losing the commanding presence Israel heard at Sinai It is a pleasure to be nourished by a fresh mind exploring the tension between reason and revelation history and faith Rabbi Samuel Karff This is without doubt one of the most significant works in modern Jewish thought and a must for a thoughtful student of contemporary Jewish philosophy Rabbie Sheldon Zimmerman This may well mark the next stage in the long history of Jewish self understanding Ethics rigorous history of modern Jewish thought

Choice Is Judaism a timeless universal set of beliefs or rather is it historical and contingent in its relation to different times and places Morgan clarifies the tensions and dilemmas that characterize modern thinking about the nature of Judaism and clears the way for Jews to appreciate their historical situation yet locate enduring values and principles in a post Holocaust world *Truth and Method* Hans-Georg Gadamer,2013-11-05 Truth and Method is a landmark work of 20th century thought which established Hans Georg Gadamer as one of the most important philosophical voices of the 20th Century In this book Gadamer established the field of philosophical hermeneutics exploring the nature of knowledge the book rejected traditional quasi scientific approaches to establishing cultural meaning that were prevalent after the war In arguing the truth and method acted in opposition to each other Gadamer examined the ways in which historical and cultural circumstance fundamentally influenced human understanding It was an approach that would become hugely influential in the humanities and social sciences and remains so to this day in the work of Jurgen Habermas and many others Fackenheim's Jewish Philosophy Michael L. Morgan,2013-01-01 Fackenheim s Jewish Philosophy explores the most important themes of Fackenheim s philosophical and religious thought and how these remained central if not always in immutable ways over his entire career *Holiness in Jewish Thought* Alan L. Mittleman,2018-01-19 Holiness is a challenge for contemporary Jewish thought The concept of holiness is crucial to religious discourse in general and to Jewish discourse in particular Holiness seems to express an important feature of religious thought and of religious ways of life Yet the concept is ill defined This collection explores what concepts of holiness were operative in different periods of Jewish history and bodies of Jewish literature and offers preliminary reflections on their theological and philosophical import today The contributors illumine some of the major episodes concerning holiness in the development of the Jewish tradition They are challenged to think about the problems and potential implicit in Judaic concepts of holiness to make them explicit and to try to retrieve the concepts for contemporary theological and philosophical reflection Not all of the contributors push into philosophical and theological territory but they all provide resources for the reader to do so Holiness is elusive but it need not be opaque This volume makes Jewish concepts of holiness lucid accessible and intellectually engaging *Metaphysics and Historicity* Emil L. Fackenheim,1961 **Being and Knowing** Armand Augustine Maurer,1990 **Authenticity, Death, and the History of Being** Hubert Dreyfus,Mark Wrathall,2018-10-24 First Published in 2003 Heidegger and the study of his thought have earned wide acceptance extending beyond philosophy to influence an array of other disciplines Critically selected by leading scholars in the field the articles in this new collection bring together the most essential and representative scholarship on Heidegger Focusing on the major phases of his work which attracted most attention from contemporary thinkers as well as exploring new and important areas of Heidegger scholarship this four volume set is an invaluable resource for any curriculum supporting philosophy as well as political theory literature classics anthropology and cultural studies **A Passage to the Idea for a Hermeneutic Philosophy of Science** Dimitri Ginev,2023-03-13 In this book the author has

brought together his long standing interests in theory of scientific rationality and hermeneutic ontology by developing a hermeneutic alternative to analytic and naturalist epistemology of science The hermeneutic philosophy of science is less the name of a new field of philosophical than a demand for a repetition of the basic philosophical questions of science from hermeneutic point of view The book addresses chiefly two subjects I The hermeneutic response to the models of rational reconstruction of scientific knowledge II The specificity of hermeneutic ontological approach to the cognitive pluralism in science

Arts of Connection Karen S. Feldman, 2019-08-05 At the intersection of literary theory philosophy of history and phenomenology Arts of Connection Poetry History Epochality explores the representation of connections between events in literary historical and philosophical narratives Events in a story can be seen as ordered according to proximate causation which leads diachronically from one event to the next and they can also be understood in view of the structure of the narrative as a whole for instance in terms of the unity of plot Feldman argues that there exists an essential narrative tension between these two kinds of connection i e between the overarching arrangement or plot that holds together events from outside as it were in order to produce an intelligible whole and the portrayal of one by one interstitial connections between events within the narrative Arts of Connection demonstrates by means of exemplary moments in Aristotle and classical German poetics eighteenth century philosophy of history and twentieth century phenomenology that the task of connection is a fraught one insofar as the formal unity of narrative competes or interferes with the representation of one by one connections between events and vice versa
