## **Metaphysics For A Humanist:**

**Metaphysics for a Humanist** S. K. Leung, 2001 This book offers a new look at some of the most established principles underpinning metaphysical thinking The discussion is at once engaging and provocative taking the reader through the big issues and the big thinkers from Aristotle to Wittgenstein taking Descartes's cogito to task along the way The author provides provocative discussions exposing and refuting the inherent weaknesses of conceptual reality asserting support of epistemological over logical priority and asking the question how do we conceptualize duration past present and future and reconcile that with oneness The analysis concludes by showing that it is only humanity that can conceive of reality as necessary contingent or possible

*The Metaphysics of Night* Matthew Del Nevo, 2014-04-18 The Metaphysics of Night acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture

**The Metaphysics of Self and World** Elie Maynard Adams, 1991 A great fissure occurred in Western civilization in the early modern period with the divorce between the humanities and the sciences and the rise of scientific naturalism The Metaphysics of Self and World is a philosophical exploration of the relationship between the individual the culture and the world It is in the author s words a philosophy of the humanities a philosophy of humanity and a philosophy of social reality It explores the implications of a world view that would integrate the perspective of the sciences with humanistic ways of thought E M Adams claims that we do violence to ourselves as human beings by trying to fit into the world as delineated in scientific categories Rejecting cultural subjectivism and scientific naturalism he argues for the irreducibility and validity of the categories of the humanities and for a fully developed humanistic philosophy of self and world In generating this world view he utilizes the humanities as a source of culture therapy in order to close the fissure in Western civilization Author note E M Adams is Kenan Professor of Philosophy Emeritus at the University of North Carolina Chapel Hill He has written numerous books and articles and a festschrift celebrating his work Mind Value and Culture Essays in Honor of E M Adams edited by David Weissbord was published in 1989

**Antiquities Beyond Humanism** Emanuela Bianchi, Sara Brill, Brooke Holmes, 2019-03-21

Greco Roman antiquity is often presumed to provide the very paradigm of humanism from the Renaissance to the present This paradigm has been increasingly challenged by new theoretical currents such as posthumanism and the new materialisms which point toward entities forces and systems that pass through and beyond the human and dislodge it from its primacy as the measure of things Antiquities beyond Humanism seeks to explode the presumed dichotomy between the ancient tradition and the twenty first century turn by exploring the myriad ways in which Greek and Roman philosophy and literature can be understood as foregrounding the non human Greek philosophy in particular is filled with metaphysical explanations of the cosmos grounded in observations of the natural world while other areas of ancient humanistic inquiry poetry political theory medicine extend into the realms of plant animal and even stone life continually throwing into question the ontological status of living and non living beings By casting the ancient non human or more than human in a new light in relation to contemporary questions of gender ecological networks and non human communities voice eros and the ethics and the politics of posthumanism the volume demonstrates that encounters with ancient texts experienced as both familiar and strange can help forge new understandings of life whether understood as physical psychical divine or cosmic

*Humanist Outlook*, 2000

Pragmatic Humanism Marcus Morgan, 2016-01-29

Is sociology best understood as simply chipping away at our ignorance about society or does it have broader roles and responsibilities If so to what or perhaps to whom are these responsibilities Installing humanity as its epistemological and normative start and endpoint this book shows how humanism recasts sociology as an activity that does not merely do things or effect things but is also self consciously for something Rather than resurrecting problematic classical conceptions of humanism the book instead constructs its arguments on

pragmatic grounds showing how a pragmatic humanism presents an improved picture of both the nature and value of the discipline This picture is based less around the claim that sociology is capable of providing authoritative revelations about society and more upon its capacity to offer representations of the social in epistemologically open transformative ethical and hopeful ways Ultimately it argues that sociology's real value can only be disclosed by replacing its image as a discipline aimed towards disinterested social enlightenment with one of itself as a practice both dependent upon and at its best self consciously aimed towards human ends and imperatives It will appeal to scholars and students across the social sciences and to those working in social theory sociology and philosophy of the social sciences in particular
