Metaplanetary Tony Daniel, 2024-01-17 Free download Peruse The Metaplanetary Gazetteer created by the author especially for this PerfectBound e book Once or twice in a score of years the boundlessly inventive realm of speculative fiction reveals a vision of tomorrow that dwarfs everything that came before These are the dreams of the Asimovs and the Heinleins the Bears and the Brins Now Tony Daniel brilliantly dreams the future and reinvents humanity itself in an epic chronicle of civil war and transcendence that plays out on an enormous stage encompassing the solar system in its entirety its asteroids its comets and all its people transmuted into astounding forms and living astonishing lives Metaplanetary The human race has extended itself into the far reaches of our solar system and in doing so has developed into something remarkable and diverse and perhaps transcendent The inner system of the Met with its worlds connected by a vast living network of cables is supported by the repression and enslavement of humanity's progeny nanotechnological artificial intelligences beings whom the tyrant Am's has declared non human There is tolerance and sanctuary in the outer system beyond the Jovian frontier Yet few of the oppressed ever make it past the dictator's well patrolled boundaries But the longing for freedom cannot be denied whatever the risk A priest of the mystical religion called the Greentree Way senses catastrophe approaching A vision foretells that the future of our bitterly divided solar system rests in the hands of a mysterious man of destiny and doom who has vanished into the backwater of the Met in search of his lost love But the priest is not the only one who grasps this man's importance The despot Am's is after the same quarry and until now there has been no power in the inner solar system willing to oppose Am's and his fearsome minions But now a line has been drawn off Neptune's moon Triton Roger Sherman a retired military commander from Earth's West Point and a Greentree ally will not let Am's prevail Though dwarfed by the strength and wealth of the Met the cosmos under Sherman's jurisdiction will remain free at all cost though defiance will ensure the unspeakable onslaught of the dictator Am's's wrath a rage that will soon ravage the solar system A rage that will plunge all of humankind into the fury of total war With Metaplanetary author Tony Daniel fulfills the great promise of his critically acclaimed earlier works A new master has reached for the stars with a stunning speculative masterpiece of enormous scope and conceptual daring an adventure of grand victories and horrific villainy both human and meta human alike

Superluminal Tony Daniel, 2009-10-13 A sci fantasy with an awesomely weird yet logical future Utterly fascinating This is one entrancing web from which escape is hardly desirable Washington Post Book World The future is at war for the soul of humankind It is a time when civilization has extended itself far into the outer reaches of the solar system and in doing so has developed into something remarkable But humanity's progeny the nanotechnological artificial intelligences called free converts face extermination at the hands of the tyrant Am's and his invincible armies and once the Napoleonesque Director develops superluminal flight his Final Solution will be all but assured But hope remains alive in the outer system From the fleeing refugees of a dozen moons and asteroids General Roger Sherman has amassed an effective

and adaptable military force already forged into a formidable weapon in the fires of battle However time is a commodity the courageous Federal Army lacks as total war erupts between the vast cloudships of the outer system and the deadly armada of the Met a glorious and terrible conflict that will rage among the stars and within the hearts and minds of every human being
