MetaWin Michael S. Rosenberg, Dean C. Adams, Jessica Gurevitch, 1997 *MetaWin* Michael S. Rosenberg, Dean C. Adams, Jessica Gurevitch, 1997 Methods of Meta-Analysis John E Hunter, Frank L. Schmidt, 2004-04-07 Click Additional Materials for downloadable sample chapter Clearly written and compellingly argued this book explains the procedures and benefits of correcting for measurement error and range restriction and details the methodological developments in meta analysis over the last decade No one should consider conducting a meta analysis without first reading this book It is essential reading for all scientists Michael A McDaniel Virginia Commonwealth University A book that will certainly appeal not only to the students but will also be a great reference source for the technically sophisticated professional The breadth and depth of the coverage not to mention the novelty and clarity of writing makes this book a classic in the field It covers and at times introduces many novel issues that will be in the forefront for some years to come as such a must read for all meta analysts Vish C Viswesvaran Ph D Director of I O Program Florida International University Meta analysis is arguably the most important methodological innovation in the social and behavioral sciences in the last 25 years Developed to offer researchers an informative account of which methods are most useful in integrating research findings across studies this book will enable the reader to apply as well as understand meta analytic methods Rather than taking an encyclopedic approach the authors have focused on carefully developing those techniques that are most applicable to social science research and have given a general conceptual description of more complex and rarely used techniques Fully revised and updated Methods of Meta Analysis Second Edition is the most comprehensive text on meta analysis available today New to the Second Edition An evaluation of fixed versus random effects models for meta analysis New methods for correcting for indirect range restriction in meta analysis New developments in corrections for measurement error A discussion of a new Windows based program package for applying the meta analysis methods presented in the book A presentation of the theories of data underlying different approaches to meta analysis **Systematic Reviews in Health Care** Matthias Egger, George Davey Smith, Douglas Altman, 2013-07-01 The second edition of this best selling book has been thoroughly revised and expanded to reflect the significant changes and advances made in systematic reviewing New features include discussion on the rationale meta analyses of prognostic and diagnostic studies and software and the use of systematic reviews in practice **Program Evaluation and Family Violence Research** Sally K. Ward, David Finkelhor, 2014-05-22 Understand and evaluate family violence programs for your community Twenty years ago the major issue in creating interventions to prevent domestic violence was persuading the courts the funding agencies and society that domestic violence was a serious problem worthy of time trouble and money Now that the importance of domestic violence has been established we need safe and effective ways to evaluate those interventions to see which ones are working and how they can be improved Program Evaluation and Family Violence Research brings together some of the best minds in the field discussing such vital evaluation issues as policy

implications alternative designs for evaluation studies and ethical concerns This comprehensive book approaches the vexed question of evaluation with compassion as well as scientific rigor Clearly traditional double blind studies and control groups are difficult to conduct when family violence is the subject it is ethically indefensible to sit back and watch abusers hurt their mates or children when interventions are available Yet finding usable methods of program evaluation is also essential Program Evaluation and Family Violence Research confronts these questions and discusses practical ways to evaluate a variety of domestic violence programs Program Evaluation and Family Violence Research draws on years of experience to address the difficult questions raised including going beyond evaluating program effectiveness to analyze why and how interventions help change behavior creating new research designs to adapt to the unique concerns of the family violence field using meta analysis for program evaluation research determining the interaction between research and program results identifying barriers between community activists and social scientists that may impede research Program Evaluation and Family Violence Research offers fresh and creative ways to do program evaluations guarantee subjects physical and emotional safety and make good science humane
