Method and Morals in Constitutional Economics Geoffrey Brennan, Hartmut Kliemt, Robert D. Tollison, 2013-03-09
This Festschrift was presented in electronic form to Buchanan on the occasion of his eightieth birthday on October 3 1999 after dinner in Fairfax Virginia As one might have expected the response to our call for papers was voluminous In looking over the many contributions we felt that a published Festschrift was also possible and fitting for the eightieth birthday of so prodigious and influential a scholar as Professor Buchanan To that end we have assembled the following volume In selecting the papers to be included here we have basically tried to choose those papers which in some way bear on Buchanan's contributions Perfectly good papers about issues not related to Buchanan's research agenda or not referring directly to Buchanan's work were not included Space constraints did not allow universal coverage so choices had to be made It should be stated clearly that these were our choices based on the criterion that the contribution be relevant to Buchanan's work Buchanan had nothing whatsoever to do with the selection of papers for this volume Once choices had been made we arranged the papers by subject matter ranging from various aspects of Buchanan's work in economics political science philosophy and related areas to some more personal recollections of Jim as a professor friend and colleague Including the latter material was also our decision and this probably represents a choice with which Jim would not have agreed We think however that the reader will find these pieces interesting and informative

James M. Buchanan's Contributions to Economics Anthony B. Atkinson, 1986 *The Collected Works of James M. Buchanan* James M. BUCHANAN, 2002-06 In one of the major publishing endeavors of recent decades The Collected Works of James M Buchanan the Nobel laureate in Economics in 1986 is being published in twenty volumes under the auspices of The Liberty Fund The series will include ten monographs and all of the important journal articles papers and essays that Buchanan has produced in a distinguished career spanning more than a half century The monographs will appear in a new form and with the addition of indexes in those cases where no index or only a partial index was originally provided In addition each volume includes a foreword by one of the series three editors Professors Geoffrey Brennan Hartmut Kliemt and Robert D Tollison each of whom is a distinguished economist in his own right This is a series that no serious scholar of public choice theory public economics or contemporary political theory will want to be without It is a series that will also appeal to the general student of liberty for Buchanan has perhaps more than any other contemporary scholar helped us to view politics without the romantic gloss that characterizes so much normative political theory and that slips unthinkingly into so much popular commentary Buchanan has been a resolute defender of the ideal of a society of free and responsible individuals and has been a painstaking analyst of the institutional structure that might best support such a society Buchanan stands with von Mises Hayek Popper and Friedman as one of the great twentieth century scholars of liberty
