music for large congregations and music for trained soloists music that sets holy words and music without words at all In  
some traditions Islamic and many Native American to name just two the relation between music and religious ritual is so  
intimate that it is inaccurate to speak of the music accompanying the ritual Rather to perform the ritual is to sing and to sing  
the ritual is to perform it This second edition of Historical Dictionary of Sacred Music contains a chronology an introduction  
appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries on major types of
