**Food In Global History** Raymond Grew,2018-02-19 Social scientists study food in many different ways Historians have most often studied the history of specific foods anthropologists have emphasized the role of food in religious rituals and group identities sociologists have looked primarily at food as an indicator of social class and a factor in social ties and nutritionists have focused on changing patterns of consumption and applied medical knowledge to study the effects of diet on public health Other scholars have studied the economic and political connections surrounding commerce in food Here these perspectives are brought together in a single volume

**Do's and Don'ts** Susan Washburn Buckley,2020 A history of table manners      A History of Cooks and Cooking Michael Symons,2004 Never has there been so little need to cook Yet Michael Symons maintains that to be truly human we need to become better cooks practical and generous sharers of food Fueled by James Boswell's definition of humans as cooking animals for no beast can cook Symons sets out to explore the civilizing role of cooks in history His wanderings take us to the clay ovens of the prehistoric eastern Mediterranean and the bronze cauldrons of ancient China to fabulous banquets in the temples and courts of Mesopotamia Egypt and Persia to medieval English cookshops and southeast Asian street markets to palace kitchens diners and modern fast food eateries Symons samples conceptions and perceptions of cooks and cooking from Plato and Descartes to Marx and Virginia Woolf asking why cooks despite their vital and central role in sustaining life have remained in the shadows unheralded unregarded and underappreciated People think of meals as occasions where you share food he notes they rarely think of cooks as sharers of food Considering such notions as the physical and political consequences of sauce connections between food and love and cooking as a regulator of clock and calendar Symons provides a spirited and diverting defense of a cook centered view of the world      *An Amazonian Myth and Its History* Peter Gow,2001 Peter Gow unites the ethnographic data collected by the fieldwork methods invented by Malinowski with Lévi Strauss's analyses of the relations between myth and time His book is an analysis of a century of social transformation in an indigenous Amazonian society the Piro people of Peruvian Amazonia taking as its starting point a single myth told to the author by a Piro

man Gow explores Piro history and ethnography outwards into the domains of myth telling in general and following the logic of certain important myths further out into important domains of Piro experience such as visual art shamanry and girls initiation ritual All of these domains like the myths themselves have been demonstrably changing over the period since the 1880s The book then shows how these changes are in fact transformations of transformations changes in social forms that are intrinsically about change The logic of these changes are then followed through the historical circumstances of Piro people from the 1880s to the 1980s to show how the intrinsically transformational nature of Piro social forms led them to respond in the ways that they did to the coming of rubber bosses missionaries and film makers This book makes an important contribution to debates in anthropology on the nature of history and social change as well as addressing neglected areas such as myth visual art and the methodological issues involved in addressing fieldwork and archival data **Strange**
