The Correspondence of Charles Darwin: Volume 25, 1877 Charles Darwin, 2017-10-12 This volume is part of the definitive edition of letters written by and to Charles Darwin the most celebrated naturalist of the nineteenth century Notes and appendixes put these fascinating and wide ranging letters in context making the letters accessible to both scholars and general readers Darwin depended on correspondence to collect data from all over the world and to discuss his emerging ideas with scientific colleagues many of whom he never met in person The letters are published chronologically volume 25 includes letters from 1877 the year in which Darwin published *Forms of Flowers* and with his son Francis carried out experiments on plant movement and bloom on plants Darwin was awarded an honorary LL D by Cambridge University and appeared in person to receive it The volume contains a number of appendixes including two on the albums of photograph sent to Darwin by his Dutch German and Austrian admirers

Shaking the Foundation Sylvia A. Johnson, 2013-01-01 I cannot think that the world as we see it is the result of chance yet I cannot look at each separate thing as the result of design English naturalist Charles Darwin wrote this in 1860 a year after publishing his theory of evolution His words show the personal struggle of a man forced by his own observations to answer the fundamental question Where do we come from in a revolutionary new way Darwin s internal battle reflects a broader public struggle the attempt to reconcile scientific fact with religious faith *Shaking the Foundation* Charles Darwin and the Theory of Evolution follows this battle from the supporting theories of fellow scientists to the opposing voices of clergymen to twenty first century supporters of Intelligent Design Through quotations from letters and other contemporary sources you ll meet the personalities and ideas involved in the debate You ll also examine some of the legal cases that brought evolution into the U S courtroom These cases include the famous Scopes trial in 1925 and the Kitzmiller v Dover Area School District case in 2005 which tested a school policy requiring the teaching of Intelligent Design Through these and other debates you ll learn more about the struggle over one of life s most profound questions
