Smith, 2021-06-14 In The Lord the Giver of Life Spirit in Relation to Creation Aaron T Smith argues that the Spirit in which God exists is not a mode of being but a pattern of relation which enfolds the world in each moment and gives it a life coordinated with God's God and world find mutual determination in the eschatological achievement of covenantal existence in the triumph of love Smith offers a new take on the biblical story of creation by bringing intricate interpretation of Genesis into productive dialogue with prominent voices of the Christian tradition as well as contributions from modern science and philosophy The creation is not primarily a collection of discrete things but the divinely willed event of communion which takes temporal shape within histories of generation or the history of each generation The human creature exists authentically in the time framing of promise and fulfillment coming to perceive the giving of life as good and right in the manner of the biblical covenant and coming to desire it again gladly consenting to
