Fighting to the End C. Christine Fair, 2014-04-25 Since Pakistan was founded in 1947 its army has dominated the state The military establishment has locked the country in an enduring rivalry with India with the primary aim of wresting Kashmir from it To that end Pakistan initiated three wars over Kashmir in 1947 1965 and 1999 and failed to win any of them Today the army continues to prosecute this dangerous policy by employing non state actors under the security of its ever expanding nuclear umbrella It has sustained a proxy war in Kashmir since 1989 using Islamist militants as well as supporting non Islamist insurgencies throughout India and a country wide Islamist terror campaign that have brought the two countries to the brink of war on several occasions In addition to these territorial revisionist goals the Pakistani army has committed itself to resisting India s slow but inevitable rise on the global stage Despite Pakistan s efforts to coerce India it has achieved only modest successes at best Even though India vivisected Pakistan in 1971 Pakistan continues to see itself as India s equal and demands the world do the same The dangerous methods that the army uses to enforce this self perception have brought international opprobrium upon Pakistan and its army And in recent years their erstwhile proxies have turned their guns on the Pakistani state itself Why does the army persist in pursuing these revisionist policies that have come to imperil the very viability of the state itself from which the army feeds In *Fighting to the End* C Christine Fair argues that the answer lies at least partially in the strategic culture of the army Through an unprecedented analysis of decades worth of the army s own defense publications she concludes that from the army s distorted view of history it is victorious as long as it can resist India s purported drive for regional hegemony as well as the territorial status quo Simply put acquiescence means defeat *Fighting to the End* convincingly shows that because the army is unlikely to abandon these preferences Pakistan will remain a destabilizing force in world politics for the foreseeable future

Handbook of Research on Deconstructing Culture and Communication in the Global South Okocha, Desmond Onyemечи, Yousaf, Muhammad, Onobe, Melchizedec J., 2023-07-10 There are inequalities in global knowledge production in communication outlets cultural practices and governance problems Under this symbiotic relationship they reinforce the cultural ideas values and governance systems operating in the Western countries as an ideal and role model for the Global South countries Media is regarded as the agent of change for communication and cultural values Indigenous knowledge production and dissemination is an essential feature to get a better insight into Global South countries Likewise dewesternizing and demystifying societal culture and governance issues are pertinent in this age of information The *Handbook of Research on Deconstructing Culture and Communication in the Global South* focuses on local production practices keeping in view the local needs of communication outlets and societal and cultural sensitivities This Indigenous knowledge would provide deeper and richer insights into the problems and
