Receiving Erin's Children J. Matthew Gallman,2003-06-19 Between 1845 and 1855 2 million Irish men and women fled their famine ravaged homeland many to settle in large British and American cities that were already wrestling with a complex array of urban problems In this innovative work of comparative urban history Matthew Gallman looks at how two cities Philadelphia and Liverpool met the challenges raised by the influx of immigrants Gallman examines how citizens and policymakers in Philadelphia and Liverpool dealt with such issues as poverty disease poor sanitation crime sectarian conflict and juvenile delinquency By considering how two cities of comparable population and dimensions responded to similar challenges he sheds new light on familiar questions about distinctive national characteristics without resorting to claims of American exceptionalism In this critical era of urban development English and American cities often evolved in analogous ways Gallman notes But certain crucial differences in location material conditions governmental structures and voluntaristic traditions for example inspired varying approaches to urban problem solving on either side of the Atlantic

The Juvenile Court and the Progressives Victoria Getis,2000 Today s troubled juvenile court system has its roots in Progressive era Chicago a city one observer described as first in violence and deepest in dirt Examining the vision and methods of the original proponents of the Cook County Juvenile Court Victoria Getis uncovers the court s intrinsic flaws as well as the sources of its debilitation in our own time Spearheaded by a group of Chicago women including Jane Addams Lucy Flower and Julia Lathrop the juvenile court bill was pushed through the legislature by an eclectic coalition of progressive reformers both women and men Like many progressive institutions the court reflected an unswerving faith in the wisdom of the state and in the ability of science to resolve the problems brought on by industrial capitalism A hybrid institution combining legal and social welfare functions the court was not intended to punish youthful lawbreakers but rather to provide guardianship for the vulnerable In this role the state was permitted great latitude to intervene in families where it detected a lack of adequate care for children The court also became a living laboratory as children in the court became the subjects of research by criminologists statisticians educators state officials economists and above all practitioners of the new disciplines of sociology and psychology The Chicago reformers had worked for large scale social change but the means they adopted eventually gave rise to the social sciences where objectivity was prized above concrete solutions to social problems and to professional groups that abandoned goals of structural reform The Juvenile Court and the Progressives argues persuasively that the current impotence of the juvenile court system stems from contradictions that lie at the very heart of
