Russian Versification:

Russian Versification Boris Ottokar Unbegaun, 1956 About the structure of Russian poetry **Russian Poets and Poems** Nadine Jarintzov, 1917 Russian Subjects Monika Greenleaf, Stephen Moeller-Sally, 1998 This collection of essays resituates poetic works by Derzhavin Krylov Batisushkov Pushkin Girboedov Lermontov Baratynsky and Pavlova within the force fields of contradictory cultural pressures as are the once best selling prose narratives of Narezhnyi Karamzin Viazemsky and others **Handbook of Russian Literature** Victor Terras, 1985-01-01 Profiles the careers of Russian authors scholars and critics and discusses the history of the Russian treatment of literary genres such as drama fiction and essays Russian Writers on Translation Brian James Baer, Natalia Olshanskaya, 2014-07-16 Since the early eighteenth century following Peter the Great's policy of forced westernization translation in Russia has been a very visible and much discussed practice Generally perceived as an important service to the state and the nation translation was also viewed as a high art leading many Russian poets and writers to engage in literary translation in a serious and sustained manner As a result translations were generally regarded as an integral part of an author's oeuvre and of Russian literature as a whole This volume brings together Russian writings on translation from the mid 18th century until today and presents them in chronological order providing valuable insights into the theory and practice of translation in Russia Authored by some of Russia's leading writers such as Aleksandr Pushkin Fedor Dostoevskii Lev Tolstoi Maksim Gorkii and Anna Akhmatova many of these texts are translated into English for the first time They are accompanied by extensive annotation and biographical sketches of the authors and reveal Russian translation discourse to be a sophisticated and often politicized exploration of Russian national identity as well as the nature of the modern subject Russian Writers on Translation fills a persistent gap in the literature on alternative translation traditions highlighting the vibrant and intense culture of translation on Europe's periphery Viewed in a broad cultural context the selected texts reflect a nuanced understanding of the Russian response to world literature and highlight the attempts of Russian writers to promote Russia as an all inclusive cultural model **Reference Guide to Russian Literature** Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public **Russian Formalism** Victor Erlich, 2012-02-13 No detailed description available for Russian Formalism **The Development of Russian Verse** Michael Wachtel, 1998 The Development of Russian Verse explores the Russian verse tradition from Pushkin to Brodsky showing how certain formal features are associated with certain genres and at times specific themes Michael Wachtel's basic thesis is that form is never neutral poets can react positively in terms of stylization and development or negatively in terms of parody or revision to the work of their predecessors but they cannot ignore it Keeping technical terms to a minimum and providing English translations of quotations Wachtel offers close readings of individual poems of more than fifty poets He aims to help English speaking

readers reconstruct the strong sense of continuity that Russian poets have always felt transcending any individual age or ideology Ultimately his 1999 book is an inquiry into the nature of literary tradition itself and how it coalesces in a country that has always taken so much of its identity from its written legacy Russian Versification B. O. Unbegaun,1956 The Institutions of Russian Modernism Jonathan Stone,2017-10-15 The Institutions of Russian Modernism illuminates the key role of Symbolism as the earliest form of modernism in Russia emerging seemingly ex nihilo at the end of the nineteenth century Combining book history periodical studies and reception theory Jonathan Stone examines the poetry and theory of Russian Symbolism within the framework of the institutions that organized published and disseminated the works to Russian readers Surveying a wealth of examples of books journals and almanacs Stone traces how publishers of Symbolist works marketed the movement and fashioned a Symbolist reader His persuasive argument that after its eclipse Symbolism s legacy remained embedded in the heart of Russian modernism will be of interest to scholars and general readers
