Russia's Role in World Politics Elias Götz, Neil MacFarlane, 2022-12-09 This book explores Russia's role in world politics In recent years Moscow has played an increasingly active and assertive role in geopolitics Examples include Russia's takeover of Crimea and meddling in eastern Ukraine Russia's military intervention in Syria and support for the Assad government the Kremlin's alleged interference in the 2016 US presidential race the pursuit of closer economic and diplomatic ties with China and Russia's ambitious military reforms and nuclear brinkmanship Not surprisingly Russia's role in world politics has become the object of a spirited debate among Western policymakers think tank analysts and academics Much of this debate focuses on one central question What are the main drivers or causes of Moscow's recent assertiveness The contributions gathered here address this question by focusing on the interplay of power ideas and domestic influences Previously published in *International Politics* Volume 56 issue 6 December 2019

No Shortcuts Max Smeets, 2022-08-01 Over the past decade numerous states have declared cyberspace as a new domain of warfare sought to develop a military cyber strategy and establish a cyber command These developments have led to much policy talk and concern about the future of warfare as well as the digital vulnerability of society *No Shortcuts* provides a level headed view of where we are in the militarization of cyberspace

In this book Max Smeets bridges the divide between technology and policy to assess the necessary building blocks for states to develop a military cyber capacity Smeets argues that for many states the barriers to entry into conflict in cyberspace are currently too high Accompanied by a wide range of empirical examples Smeets shows why governments abilities to develop military cyber capabilities might change over time and explains the limits of capability transfer by states and private actors

Arctic Fever Anastasia Likhacheva, 2022-08-22 This book explores the Arctic as a rapidly evolving phenomenon in international affairs of a rising number of stakeholders For decades Arctic studies used to be an affair of a relatively narrow group of experts from northern countries This time is over due to a new Chinese Arctic policy as well as growing regional interests from South Korea Singapore India and Japan Contributors reflect on new roles for the Arctic region both as a playground for the old school nation state competition and even confrontation and a new source for international cooperation in energy logistics and natural sciences Climate change political tensions and economic competition make Arctic a hotter venue of international relations This new Arctic fever studied through a comparative analysis of different regional agendas especially with a focus on the US China Russia triangle represents the main subject of our book which will be of interest to scholars of geopolitics of climate change and of 21st century energy economics

Shortcuts Through Time TOM REIDY, Shortcuts Through Time is my second anthology of Twilight Zone genre science fiction stories Operation Chronos is about a university physicist that befriends an elderly German janitor who had smuggled plans for a time machine out of Germany at the end of World War II The professor is able to construct a time machine from the plans resulting in an alternate universe where professor and janitor reverse roles A Change of Plans is based on the true life experience of the author s mother that had this event not happened the author would most likely never have been born A time warp enables a man to go back to the past and prevent his grandmother s killing at the hands of his grandfather But what will become of this man as a result of the change

AUTHOR S NOTE The names place and dates have been altered or changed

Winners and Losers recounts what happens to a community college instructor who can visualize tomorrow s winning lottery numbers The outcome is embedded in the title of the story Back and Forth reveals the unintended consequences of an early 20th century time traveler s attempt to alter the course of the later 20th century by arranging the deaths of Lenin and Hitler before they come to power The Second Shooter tells about a man who is approached by a mysterious stranger with a plan to travel back in time to prevent the assassination of President Kennedy in 1963 The plan succeeds and the assassination is averted however it becomes necessary to go back in time once again this time to ensure that Kennedy is assassinated in order to re align two parallel universes Hotel Retro is about a couple looking for a certain restaurant in Alton Illinois and getting caught up in a heavy rainstorm as they are entering Alton They take refuge at a hotel with a distinct mid 19th century motif When the hotel catches fire they rescue the man in the adjoining room who bears an uncanny resemblance to Abraham Lincoln When they leave the hotel they are in the 21st century Did they somehow slip through a time warp Maybe but then again maybe not

based on a phone call to the hotel after they return home The Tiara is about a man who agrees to steal an ancient papal tiara originally from Persia and turn it over to Iranian agents In doing so he gets trapped in an endless temporal paradox loop The Promotion tells how George Armstrong Custer was mistakenly promoted to Brigadier General In the original reality he was promoted to the rank of Major but a college professor and his student have to create the mistake that will result in the creation of our universe which is parallel to the original universe Operation Northern Lights is the tale of an expedition sent to the North Pole by the United States Government to determine if there is a Hollow Earth civilization as detailed in Admiral Byrd's Secret Diary The exact motivation for this government expedition and what happens to the crew on this mission is not quite clear Are they what they seem to be or is it something else

Russia and Ukraine Maria Popova, Oxana

Shevel, 2023-11-08 In February 2022 Russian missiles rained on Ukrainian cities and tanks rolled towards Kyiv to end Ukrainian independent statehood President Zelensky declined a Western evacuation offer and Ukrainians rallied to defend their country What are the roots of this war which has upended the international legal order and brought back the spectre of nuclear escalation How did these supposedly brotherly peoples become each other's worst nightmare In Russia and Ukraine Entangled Histories Diverging States Maria Popova and Oxana Shevel explain how since 1991 Russia and Ukraine diverged politically ending up on a collision course Russia slid back into authoritarianism and imperialism while Ukraine consolidated a competitive political system and pro European identity As Ukraine built a democratic nation state Russia refused to accept it and came to see it as an anti Russia project After political and economic pressure proved ineffective and even counterproductive Putin went to war to force Ukraine back into the fold of the Russian world Ukraine resisted determined to pursue European integration as a sovereign state These irreconcilable goals rather than geopolitical wrangling between Russia and the West over NATO expansion are the authors argue essential to understanding Russia's war on Ukraine
