Ruth Benedict Leaders Of Modern Anthropology Series:

Ruth Benedict Margaret M. Caffrey, 2013-11-04 Poet anthropologist feminist Ruth Fulton Benedict was all of these and much more Born into the last years of the Victorian era she came of age during the Progressive years and participated in inaugurating the modern era of American life Ruth Benedict *Stranger in This Land* provides an intellectual and cultural history of the first half of the twentieth century through the life of an important and remarkable woman As a Lyricist poet Ruth Benedict helped define Modernism As an anthropologist she wrote the classic *Patterns of Culture* and at one point was considered the foremost anthropologist in the United States the first woman ever to attain such status She was an intellectual and an artist living in a time when women were not encouraged to be either In this fascinating study Margaret Caffrey attempts to place Benedict in the cultural matrix of her time and successfully shows the way in which Benedict was a product of and reacted to the era in which she lived Caffrey goes far beyond providing simple biographical material in this well written interdisciplinary study Based on exhaustive research including access for the first time to the papers of Margaret Mead Benedict's student and friend Caffrey is able to put Benedict's life clearly in perspective By identifying the family and educational influences that so sharply influenced Benedict's psychological makeup the author also closely analyzes the currents of thought that were strong when Victorianism paralleled the Modernism that figured in Benedict's life work The result is a richly detailed study of a gifted woman This important work will be of interest to students of Modernism poetry and women's studies as well as to anthropologists

Ruth Benedict Margaret Mead, 2005 By weaving discussions of the personal and professional writings of Ruth Benedict Margaret Mead presents the anthropologist's work in the context of her life and times Mead also defends Benedict's humanistic approach to anthropology as she considers her most important works In addition to a selection of Benedict's anthropological writings this edition includes new forewords by two leading Benedict scholars

American Anthropology, 1921-1945 George W. Stocking, 2002-01-01 From the 1920s through the end of World War II American anthropology grew in complexity while its scope became increasingly global and contemporary Much insightful and innovative work continued to be produced by scholars working with Native American and First Nation communities but the significant contributions of those conducting research abroad soon became hard to ignore The nature of culture and acculturation were scrutinized and theorized about repeatedly the relationship between culture and personality became an important subject of inquiry particular historical reconstructions were joined by more synchronic studies of cultures and more anthropologists gave attention to current events and to unraveling the intricacies of modern culture The discipline as a whole moved away from affiliations with museums and instead cast itself as a social science within the academy at the same time government sponsorship of anthropological research increased markedly through New Deal initiatives and wartime programs of the 1940s The thirty nine selections in this volume represent the increasingly diverse areas of research and range of lasting accomplishments in American anthropology during the interwar period Introducing these essays is a historical overview of American anthropology during this era by George W Stocking Jr **Columbia University Press, 1893-1983** Henry H.
