The South Asian Association for Regional Cooperation (SAARC)

Lawrence Saez, 2012-05-23 The South Asian Association for Regional Cooperation SAARC is an international organization comprised of the eight countries in South Asia This work aims to examine the institutional structure objectives and effectiveness of the SAARC in its role as South Asia's leading regional institution Drawing on original research it offers a fresh and accessible account of SAARC arguing that South Asia forms a unique regional security complex that enables certain forms of regional cooperation and bars cooperation on other issue areas The text provides a comprehensive introduction to the SAARC describing the historical developments that lead to its formation and examining key issues such as The inner workings of Regional Centres and their success in implementing the decisions reached at SAARC summits How SAARC has sought to address critical new security challenges such as health pandemics terrorism energy security South Asia's economic cooperation and the South Asia Free Trade Agreement SAFTA Challenges that expansion pose to the organization particularly China's suggestion to expand beyond the traditional borders of South Asia The work aims to evaluate what scope there is for formal institutions like SAARC to provide a permanent regional security architecture within which South Asian countries can effectively address important issues and will be of great interest to all students and scholars of Asian security studies and institutions in general and students and scholars of international relations in South Asia in particular

SAARC

Farhat Ehsas, 2003-01-01 Today in the new world order perhaps a small organisation like SAARC should hold no great significance It is a tiny body with only seven members but this does not lessen its importance In fact its strategic geographical location provides it with a special status and it becomes an entity in itself In letter and spirit SAARC is a cultural economic and commercial association apolitical in nature Still its political importance and meaningfulness is quite obvious and is recognised by the whole world including big power This study evaluates SAARC as a living and developing organisation and

efforts have been made to cover all the aspects in an objective manner This adds to its worth as a comprehensive and exhaustive work on the subject

South Asia in the New World Order Shahid Javed Burki, 2011-03-24 Rapid changes have taken place in the structure of the global economy and this book looks at how South Asia can take advantage of these changes The author argues that the developing global economy will be more complex than originally thought that instead of a bipolar model with two countries the US and China at the centre it will be multipolar with eight centres of economic activity including India The book goes on to suggest that in the context of such a model there should be regional cooperation between India and its immediate neighbouring countries for South Asia to advance as an economic region It argues that South Asia will need to look at its history and that changes in attitudes particularly in India and Pakistan are necessary The possible benefits to the region in terms of increases in the rates of economic growth if the regional approach is adopted are discussed The book presents a useful contribution to studies in South Asia as well as Asian Economics

Demand for New International Economic Order Sandeep Chauhan, 1997 The emergence of the Demand for New International Economic Order as a result of growing discontent among the Third World countries due to global inequalities has been traced through recent history till present The book also discusses the effect of the collapse of the Soviet Union and the economic manifestation of Communist Cooperation and the emergence of New Regional Economic Blocs like EU NAFTA SAPTA APEC etc

International Finance in the New World Order H.P. Gray, S.C. Richard, 2014-06-28 Some of the most important developments of the last quarter century relate to the internationalization of financial issues the advent of free trade areas the efforts of the European Union in establishing a single currency burdens of international indebtedness and the economic growth and development of nations International financial systems are increasingly fragile and vulnerable in the face of possible international financial shock Exchange rate issues and other changes in financial conditions have profound consequences not only for multinational corporations which have to devise new ways of managing their global operations but also for firms and industries at the national level The papers in this book confront these and other problems in international finance that have arisen in recent years seeking to identify causal linkages at the global national and company levels

Asia-Pacific in the New World Order Christopher Brook, Anthony McGrew, 2013-11-05 Asia Pacific in the New World Order critically explores the notion that a distinctive regional power bloc is developing linking countries bordering the Pacific with East Asia at its core This student friendly volume sheds light on the complex interplay between global regional and national forces which have transformed the Asia Pacific area into one of the most vibrant and economically successful regions in the world Historical narratives alongside geopolitical and geoeconomic perspectives are deployed to examine the shifting pattern of power relations and security structures across the region set within a wider world context Key issues addressed include what are the primary security problems of the region and how are they being resolved does the dynamic growth of the region and particularly the rise of China pose a challenge to existing structures of world order The text has a strong

interdisciplinary flavour drawing on analytical approaches from the international relations political economy and political geography literature Authors have been drawn from the Asia Pacific region and the UK and all are established scholars in their specialist fields
