Sacha Runa Norman E. Whitten,1976 *Sacha Runa* Norman E. Whitten,Marcelo F. Naranjo,1976 **Race And Ethnicity In Latin America** Peter Wade,1997-05-20 An excellent source on past and present debates and a coherent and insightful set of proposals concerning methodology International Affairs More than merely providing a student s textbook Wade covers the main themes and offers a comprehensive overview of the relevant debates an excellent textbook European Review of Latin American and Caribbean Studies Wade s latest book is intelligent and easy to read and represents a significant contribution to the knowledge and understanding of the dynamics of race and ethnicity in Latin America Patterns of Prejudice *Indigenous Revolution in Ecuador and Bolivia, 1990-2005* Jeffery M. Paige,2020-05-05 Uprisings by indigenous peoples of Ecuador and Bolivia between 1990 and 2005 overthrew the five hundred year old racial and class order inherited from the Spanish Empire It started in Ecuador with the Great Indigenous Uprising which was fought for cultural and economic rights A few years later massive indigenous mobilizations began in Bolivia culminating in 2005 with the election of Evo Morales the first indigenous president Jeffrey M Paige an internationally recognized authority on the sociology of revolutionary movements interviewed forty five indigenous leaders who were actively involved in the uprisings The leaders recount how peaceful protest and electoral democracy paved the path to power Through the interviews we learn how new ideologies of indigenous socialism drew on the deep commonalities between the communal dreams of their ancestors and the modern ideology of democratic socialism This new discourse spoke to the people most oppressed by both withering racism and neoliberal capitalism Emphasizing mutual respect among ethnic groups including the dominant Hispanic group the new revolutionary dynamic proposes a communal worldview similar to but more inclusive than Western socialism because it adds indigenous cultures and nature in a spiritual whole Although absent in the major revolutions of the past century the themes of indigenous revolution democracy indigeneity spirituality community and ecology are critically important Paige s interviews present the powerful personal experiences and emotional intensity of the revolutionary leadership They share the stories of mass mobilization elections and indigenous socialism that created a new form of twenty first century revolution with far reaching applications beyond the Andes *Income Distribution and Poverty in Rural Ecuador* Carlos Luzuriaga C.,Clarence Zuvekas,1980 *Lessons from a Quechua Strongwoman* Janis B. Nuckolls,2010-09-15 Using the intriguing stories and words of a Quechua speaking woman named Luisa Cadena from the Pastaza Province of Ecuador Janis B Nuckolls reveals a complex language system in which ideophony dialogue and perspective are all at the core of cultural and grammatical communications among Amazonian Quechua speakers This book is a fascinating look at ideophones words that communicate succinctly through imitative sound qualities They are at the core of Quechua speakers discourse both linguistic and cultural because they allow agency and reaction to substances and entities as well as beings Nuckolls shows that Luisa Cadena s utterances give every individual major or minor a voice in her narrative Sometimes as

subtle as a barely felt movement or unintelligible sound the language supports an amazingly wide variety of voices Cadena's narratives and commentaries on everyday events reveal that sound imitation through ideophones representations of dialogues between humans and nonhumans and grammatical distinctions between a speaking self and an other are all part of a language system that allows for the possibility of shared affects intentions moral values and meaningful communicative interactions between humans and nonhumans *Metacognitive Diversity* Joëlle Proust, Martin Fortier, 2018-03-30

Metacognition refers to our awareness of our own mental processes such as perceiving remembering learning and problem solving It is a fascinating area of research for psychologists neuroscientists anthropologists sociologists and philosophers This book explores the variability of metacognitive skills across cultures since a person's decision to allocate effort motivation to learn sense of being right or wrong in perceptions memories and other cognitive tasks depends on specific transmitted goals norms and values Across nineteen chapters a group of leading authors analyze the variable and universal features associated with these dimensions drawing on cutting edge evidence Additionally new domains of metacognitive variability are considered in this volume including those generated by metacognition oriented embodied practices present in rituals and religious worship and culture specific lay theories about subjective uncertainty and knowledge regarding natural or supernatural entities It also documents universal metacognitive features such as children's earlier sensitivity to their own ignorance than to that of others people's intuitive understanding of what counts as knowledge and speakers sensitivity to informational sources independently of the way the information is linguistically expressed The book is important reading for students and scholars in cognitive and cultural psychology anthropology developmental and social psychology linguistics and philosophy *Sacha Runa* Norman Earl Whitten (Jr.), 1976 **The Indians of Central and South America** James S.
