Sacred Time:

In Search of Sacred Time Jacques Le Goff, 2014-02-23 How The Golden Legend shaped the medieval imagination It is impossible to understand the late Middle Ages without grasping the importance of The Golden Legend the most popular medieval collection of saints lives Assembled for clerical use in the thirteenth century by Genoese archbishop Jacobus de Voragine the book became the medieval equivalent of a best seller By 1500 there were more copies of it in circulation than there were of the Bible itself Priests drew on The Golden Legend for their sermons the faithful used it for devotion and piety and artists and writers mined it endlessly in their works In Search of Sacred Time is the first comprehensive history and interpretation of this crucial book Jacques Le Goff one of the world's most renowned medievalists provides a lucid compelling and unparalleled account of why and how The Golden Legend exerted such a profound influence on medieval life In Search of Sacred Time explains how The Golden Legend an encyclopedic work that followed the course of the liturgical calendar and recounted the life of the saint for each feast day worked its way into the fabric of medieval life Le Goff describes how this ambitious book was carefully crafted to give sense and shape to the Christian year underscoring its meaning and drama through the stories of saints miracles and martyrdoms Ultimately Le Goff argues The Golden Legend influenced how medieval Christians perceived the passage of time Christianizing time itself and reconciling human and divine temporality Authoritative eloquent and original In Search of Sacred Time is a major reinterpretation of a book that is central to comprehending the medieval imagination

Religion on the Battlefield Ron E. Hassner, 2016-05-18 How does religion shape the modern battlefield Ron E Hassner proposes that religion acts as a force multiplier both enabling and constraining military operations This is true not only for religiously radicalized fighters but also for professional soldiers In the last century religion has influenced modern militaries in the timing of attacks the selection of targets for assault the zeal with which units execute their mission and the ability of individual soldiers to face the challenge of war Religious ideas have not provided the reasons why conventional militaries fight but religious practices have influenced their ability to do so effectively In Religion on the Battlefield Hassner focuses on the everyday practice of religion in a military context the prayers rituals fasts and feasts of the religious practitioners who make up the bulk of the adversaries in bystanders to and observers of armed conflicts To show that religious practices have influenced battlefield decision making Hassner draws most of his examples from major wars involving Western militaries They include British soldiers in the trenches of World War I U S pilots in World War II and U S Marines in Iraq and Afghanistan Hassner shows that even modern rational and bureaucratized military organizations have taken and must take religious practice into account in the conduct of war

Divine Word and Prophetic Word in Early Islam William Albert Graham, 1977 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given

to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series **Young Children and Worship** Sonja M. Stewart,Jerome W. Berryman,1989-01-01

The authors have devised an exciting way to introduce three to seven year olds to the wonder of worship Activities are developed around the order of worship commonly used in Reformed churches assemble in God s name proclaim give thanks to and go in God s name *Time* Joel Burges,Amy Elias,2016-08-02

The critical condition and historical motivation behind Time Studies The concept of time in the post millennial age is undergoing a radical rethinking within the humanities Time A Vocabulary of the Present newly theorizes our experiences of time in relation to developments in post 1945 cultural theory and arts practices Wide ranging and theoretically provocative the volume introduces readers to cutting edge temporal conceptualizations and investigates what exactly constitutes the scope of time studies Featuring twenty essays that reveal what we talk about when we talk about time today especially in the areas of history measurement and culture each essay pairs two keywords to explore the tension and nuances between them from past future and anticipation unexpected to extinction adaptation and serial simultaneous Moving beyond the truisms of postmodernism the collection newly theorizes the meanings of temporality in relationship to aesthetic cultural technological and economic developments in the postwar period This book thus assumes that time not space as the postmoderns had it is central to the contemporary period and that through it we can come to terms with what contemporaneity can be for human beings caught up in the historical present In the end Time reveals that the present is a cultural matrix in which overlapping temporalities condition and compete for our attention Thus each pair of terms presents two temporalities yielding a generative account of the time or times in which we live **Setting the Spiritual Clock** Paul Louis Metzger,2020-11-15

Various Christian traditions mark their calendars to reflect the biblical and ecclesial narrative and enhance public worship Such efforts safeguard against secularization s encroachment in the church s life Setting the Spiritual Clock serves as a guide and traveling companion for the liturgical year which circles the glorious Son as he breaks through the secular eclipse Game Day and God Eric Bain-Selbo,2009

Game Day and God Football Faith and Politics in the American South takes seriously the often stated assertion that college football in the South is a religion To this end Eric Bain Selbo draws upon a wide range of theoretical approaches in religious studies and cultural criticism He also relies upon field research on several campuses in the Southeastern Conference where he interviewed fans and experienced game day Consequently the author is able to make the case that college football does function religiously for many people in the South In addition the author introduces key concepts and theories of religion and culture to a general audience Game Day and God also recounts the role that college football has played in Southern history and culture Going back as far as the Civil War the work explains the cultural meaning of college football in the South

delivering a much needed critical perspective to the subject Scholars of religion will find the work a compelling extension of key concepts and theories to an otherwise secular activity Scholars of American culture and sports will find the work to be an interesting case study one that unlike much work in the area focuses our attention on the religious dimension of the phenomenon of sport in American culture And general readers will find that college football or any sport can be much more than they imagined as well as discover important theories with which to make sense of the complexity of our daily lives Book jacket

Yogamass Gena Davis, 2017-04-21 YogaMass Embodying Christ Consciousness bridges yogic principles and practices with Christian spirituality and worship as a path for bringing the whole self body mind soul and spirit to the experience of spiritual awakening The author an ordained Episcopal priest weaves together spiritual practices from different traditions with her own discovery that yoga s ancient truths are complementary with Christian beliefs taking one deeper into the spiritual life in ways that people of diverse faiths can embrace Blending yogic practices with Christian spirituality and worship the Reverend Gena Davis has co created an exciting and powerful new practice of spiritual ritual and celebration called YogaMass that leads to embodying Christ Consciousness On and off the yoga mat this book points the way to discovering a whole self spiritual experience and connecting with God through an awakened open mind and heart I loved this book The author the Reverend Gena Davis shares the story of her amazing spiritual journey that culminates in the creation of the world s first YogaMass service This alone would make the book well worth reading but throughout she integrates sacred writings stories and poems from spiritual masters of western and eastern spirituality all the while never losing sight of her own Christian heritage It is a remarkable accomplishment You will be blessed by this book and want to share it with others The Reverend Dr John K Graham president and CEO Institute for Spirituality and Health at the Texas Medical Center Houston I am delighted and privileged to encourage those who seek to worship God with all that is within to pick up and digest this spiritual teaching presented by the Reverend Gena Davis Gena has captured the importance of worshipping God with as the Psalmist uttered all that is within me I am fascinated by the interplay of yoga and liturgy within these pages and find myself wanting to go deeper into both I think the Reverend Davis is on to something that has been lacking in our Christian path and tradition The interweaving of her personal narrative and the spiritual insights she gained through the study and practice of yoga unveils how God s truth makes itself known through many different paths The Reverend Dr Richard Kleiman retired Presbyterian pastor Yoga is an exploration based on experiential processes It is defined by our own internal truth Making Yoga universal but deeply personal is something Gena Davis expresses so beautifully Robert Boustany Yoga instructor and master and founder of Pralaya Yoga system

The Circle & the Spiral Eva Rask Knudsen, 2004 In Aboriginal and M ori literature the circle and the spiral are the symbolic metaphors for a never ending journey of discovery and rediscovery The journey itself with its indigenous perspectives and sense of orientation is the most significant act of cultural recuperation The present study outlines the fields of indigenous writing in Australia and New Zealand in the crucial

period between the mid 1980s and the early 1990s particularly eventful years in which postcolonial theory attempted to centre the margins and indigenous writers were keen to escape the particular centering offered in search of other positions more in tune with their creative sensibilities Indigenous writing relinquished its narrative preference for social realism in favour of traversing old territory in new spiritual ways roots converted into routes Standard postcolonial readings of indigenous texts often overwrite the difference they seek to locate because critical orthodoxy predetermines what difference can be Critical evaluations still tend to eclipse the ontological grounds of Aboriginal and M ori traditions and specific ways of moving through and behaving in cultural landscapes and social contexts Hence the corrective applied in *Circles and Spirals* to look for locally and culturally specific tracks and traces that lead in other directions than those catalogued by postcolonial convention This agenda is pursued by means of searching enquiries into the historical anthropological political and cultural determinants of the present state of Aboriginal and M ori writing principally fiction Independent yet interrelated exemplary analyses of works by Keri Hulme and Patricia Grace and Mudrooroo and Sam Watson Australia provided the thick description that illuminates the author s central theses with comparative side glances at Witi Ihimaera Heretaunga Pat Baker and Alan Duff New Zealand and Archie Weller and Sally Morgan Australia

Sacred Time and the Search for Meaning Gary Eberle, 2002-12-24 In *Sacred Time and the Search for Meaning* author Gary Eberle contemplates how humans view of time has evolved throughout history how we came to measure time and why we feel especially starved for it now Eberle seeks to rediscover a renewed sense of meaning in life through looking for ways to enter the realm of sacred time or sabbath time where we can reconnect with the slower deeper rhythms of life that have traditionally been experienced through worship prayer and the observance of holy days Drawing from the work of Western philosophers from Aristotle to Heidegger and on theorists from Jung to Foucault he presents both an intellectual history of time and a personal account of his own search for sacred time Along the way he formulates an insightful analysis of our culture s obsession with speed and efficiency and he offers guidance for slowing down to savor life outside of schedules and routines showing the way toward finding fulfillment in this increasingly accelerated world
