Sacred Trees Spirituality Wisdom And Well Being

Robert Voeks, John Rashford

Sacred Trees Spirituality Wisdom And Well Being:

Sacred Trees Nathaniel Altman, 2000 A heartfelt profusely illustrated discussion of their history and meaning gives a new appreciation of trees special place in our lives Travel the world to observe how a multitude of cultures have formed enduring bonds with trees believing them possessed of a life force Find out which are cosmic home to the gods symbolize ancestral roots or represent fertility Your commitment to their preservation will deepen and grow *Our Future in Nature:* Edmund Barrow, 2019-05-21 Who has not felt a sense of awe silence stillness and presence in an ancient woodland or forest or in front of a sacred tree Humankind has held trees and woodlands in awe and reverence since the dawn of time We depend on nature for the air we breathe the water we drink and the services nature provides This book is about the importance of sacred trees and groves in our stress filled and increasingly urban world Note that over 50 percent of the world is urban Sacred trees and sacred groves transcend race color and creed They are found all over our fragile planet Where there is a tree there is a sacred tree This book will appeal to religious and spiritual traditions as well as to conservation and environmental movements It will offer its reader means to take better care of our only home planet Earth Often undervalued unrecognized or disrespected sacred trees and groves are conserved against mind boggling pressures For example there is a sacred fig tree between two shops in one of the main streets in Hanoi Vietnam There is also a one hectare sacred grove in the center of Kumasi a city of 2.5 million people in Ghana the over 150 000 sacred groves in India and the sacred hill forests of every village in Yunnan South China Sacred trees and groves often conserve unique biodiversity which can help create or recreate connectivity in the landscape As such sacred trees and groves may be relic survivors of bygone ages and are an important resource for restoring degraded natural landscapes This book offers ways for those involved with religion and spirituality and for those working with conservation and land use to jointly engage in repairing the damage we have done to Earth

The Cultural Value of Trees Jeffrey Wall, 2022-06-01 This volume focuses on the tree as a cultural and biological form and examines the concept of folk value and its implications for biocultural conservation Folk value refers to the value of the more than human living world to cultural cohesion and survival as opposed to individual well being This field of value comprising cosmological aesthetic eco erotic sentimental mnemonic value and much more serves as powerful motivation for the local performance of environmental care The motivation to maintain and conserve ecology for the purpose of cultural survival will be the central focus of this book as the conditions of the Anthropocene urgently require the identification understanding and support of enduring self perpetuating biocultural associations The geographical scope is broad with chapters discussing different tree species from the Americas and the Caribbean East Asia Eurasia and Australia and Africa By focusing on the tree one of the most reliably cross culturally valued and cross culturally recognized biological forms and one which invariably defines expansive landscapes this work illuminates how folk value binds the survival of more than human life forms with the survival of specific peoples in the era of biocultural loss the Anthropocene As such this

collection of cross cultural cases of tree folk value represents a low hanging fruit for the larger project of exploring the power of cultural value of the more than human living world This book will be of great interest to students and scholars of conservation biodiversity biocultural studies and environmental anthropology **Baobab** John Rashford,2023-06-28 Modern humans descendants of a founding population that separated from chimpanzees some five to eight million years ago are today the only living representative of a branching group of African apes called hominins Because of its extraordinary size and shape the baobab *Adansonia digitata* L has long been identified as the most striking tree of Africa s mosaic savanna the landscape generally regarded as the environment of hominin evolution This book makes the case for identifying the baobab as the tree of life in the hunter gatherer adaptation that was the economic foundation of hominin evolution The argument is based on the significance of the baobab as a resource rich environment for the Hadza of northeastern Tanzania who continue to be successful hunter gatherers of the African savanna **Contemporary Authors** Gale Group,2003-05 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers **Pagan Feng Shui** , [African Ethnobotany in the Americas](#) Robert Voeks,John Rashford,2012-09-25 African Ethnobotany in the Americas provides the first comprehensive examination of ethnobotanical knowledge and skills among the African Diaspora in the Americas Leading scholars on the subject explore the complex relationship between plant use and meaning among the descendants of Africans in the New World With the aid of archival and field research carried out in North America South America and the Caribbean contributors explore the historical environmental and political ecological factors that facilitated hindered transatlantic ethnobotanical diffusion the role of Africans as active agents of plant and plant knowledge transfer during the period of plantation slavery in the Americas the significance of cultural resistance in refining and redefining plant based traditions the principal categories of plant use that resulted the exchange of knowledge among Amerindian European and other African peoples and the changing significance of African American ethnobotanical traditions in the 21st century Bolstered by abundant visual content and contributions from renowned experts in the field African Ethnobotany in the Americas is an invaluable resource for students scientists and researchers in the field of ethnobotany and African Diaspora studies **Kurdish Art and Identity** Alireza Korangy,2020-09-07 Folklore has been a phenomenon based on nostalgic and autochthonous nuances conveyed with a story telling technique with a penchant for over playing and nationalistic pomp and circumstance often with significant consequences for societal poetic and cultural areas These papers highlight challenges that have an outreaching relationship to the regional rhetorical and trans rhetorical devices and manners in Kurdish folklore which subscribes to an ironic sense of hope all the while issuing an appeal for a largely unaccomplished nationhood simultaneously insisting on a linguistic solidarity In a folkloric literature that has an overarching theory of poetics perhaps even trans figurative cognitive poetics

due to the multi faceted nature of its application and the complexity of its linguistic structure the relationship of man and less frequently woman with others takes center stage in many of the folkloric creations Arts are not figurative representations of the real in the Kurdish world they are the real *Connecting Trees with People* Naomi Zürcher,2022-05-18 Written from the perspective of an urban forester and certified arborist the reader will have a basic understanding of what makes a tree a tree in context to the philosophical and cultural underpinnings of Urban and Community Forestry and learn how to implement model time tested global green practices and initiatives derived from citizen science **Afro-Cuban Religions and the Arts** Alan West-Durán,2024-12-20 Afro Cuban Religions and the Arts A Dog Has Four LegsBut Takes Only One Path argues for an understanding of Afro Cuban religions and Vodou through the arts be it through music the visual arts film or literature This book examines the philosophical and spiritual facets of religions like Regla de Ocha Palo Abaku and Vodou and how deeply embedded they are in Cuban popular culture Cuban popular music from son to salsa timba to rap offer reflections on Ocha Palo and Abaku influences Film and visual arts borrow allegory from Regla de Ocha and Palo beliefs Myth and the Haitian Revolution is embedded throughout the work of Alejo Carpentier Aim C saire and Derek Walcott This volume seeks to dialogue with the works of contemporary artists and Caribbean ancestors such as C L R James Wilson Harris and Fern ndez Retamar in order to show the impacts that spiritualism religious belief and mythology have had on Afro Cuban art

Sacred Trees Spirituality Wisdom And Well Being Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Sacred Trees Spirituality Wisdom And Well Being**," published by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
